Electricity Needs You

I Will Train You At Home

Stop right here. This is YOUR opportunity! Electricity is calling you, and the Electrical Business is in for a tremendous increase. But it needs more trained men—at big pay. By my Home Study Course in Practical Electricity I can train you for these positions.

FREE!

BIG ELECTRICAL OUTFIT

A fine outfit of Electrical Tools, Instruments, Materials, etc., absolutely FREE to every student. I will also send you FREE and fully prepaid—Proof Lessons to show you how easily you can learn Electricity and enter this splendid profession by my new, revised and original system of Training by Mail.

Radio Course FREE!

Special newly-written wire-less course, worth \$45.00, given away free. Full particulars when you mail coupon at right.

Earn Money While Learning

Early in my Home Study Course I show you how to begin making money in Electricity, and help you get started. No need to wait until the whole course is completed.

EARN \$70 TO \$200 A WEEK

You've always had a liking for Electricity and a hankering to do electrical jobs. Now is the time to develop that talent; there's big money in it. Even if you don't know anything at all about electricity you can quickly grasp it by my up-to-date, practical method of teaching. You will find it intensely interesting and highly profitable. I've trained and started hundreds of men in the Electrical Business, men who have made big successes. YOU CAN ALSO

Be a Big-Paid ELECTRICAL EXPERT

What are you doing to prepare yourself for a real success? At the rate you are going where will you be in ten years from now? Have you the specialized training that will put you on the road to success? Have you ambition enough to prepare for success, and get it?

You have the ambition and I will give you the training, so get busy. I am offering you success and all that goes with it. Will you take it? I'll make you an ELECTRICAL EXPERT. I will train you as you should be trained. I will give you the benefit of my advice and 20 years of engineering experience and help you in every way to the biggest, possible success.

Valuable Book Free

My book, "How to Become an Electrical Expert," has started many a man on the way to fortune. I will send a copy, free and prepaid, to every person answering this advertisement.

ACT NOW!

Good intentions never get you anywhere. It is action alone that counts. NOW IS THE TIME TO ACT.

IVER JOHNSON BICYCLES

Keep Fit

After a few weeks of bicycle-riding you'll eat better, sleep better, feel better, and work better.

An Iver Johnson Bicycle so combines natural exercise with pleasure as to make the exercise enjoyable rather than tiresome.

The truss-bridge frame, seamless tubing of nickel steel, drop-forged parts, two-piece crank set—these are some of the features that guarantee the strength, speed and durability of every Iver Johnson Bicycle. The oldest firm in America making bicycles continuously.

Ask your dealer to show you an Iver Johnson Champion single barrel shotgun. Accurate, dependable, moderately priced.

Write at once for free bicycle catalog "B 30." Firearms catalog "A 30" also sent on request.

IVER JOHNSON'S ARMS & CYCLE WORKS

30 River Street, Fitchburg, Mass.

New York Office: 99 Chambers Street San Francisco Office: 717 Market Street

Chicago Office: 108 W. Lake Street

IVER JOHNSON

SAFETY AUTOMATIC

REVOLVER

“Help!”

Could you answer a call for help, meet a criminal, handle him without danger to yourself? Unarmed, you'd be helpless. Armed, you could uphold law and order.

Keep an Iver Johnson in your home. No fear of accident—knocks, jolts, jars, thumps cannot discharge it. You can even “Hammer the Hammer.”

When needed, the Iver Johnson responds with lightning quickness to the *intentional pull* of the trigger.

Hammer and Hammerless models in all calibres. Regular, Perfect Rubber, and Western Walnut grips. If your dealer hasn't the particular model you want, write us.

Millions Can Sell Goods — but Don't Know It!

Through a vicious superstition thousands have been kept poor. They think Salesmanship is a gift, yet there is a remarkably easy method whereby men are being helped in one swift stride from monotonous routine to magnificent earnings in the selling field.

By J. E. GREENSLADE

NO man knows better than I do the extent to which the superstition prevails that a salesman is "born" and not made. True enough, they are "born," but they are born babies and not salesmen.

This "born" idea is at once the most ridiculous and the worst of all superstitions. It is the most harmful of all because it keeps thousands poor. Because they think they are not endowed by nature to sell goods, they stay in a hopeless rut, despite the fact that they know that the selling field offers them unlimited opportunities for making big money. They know that the opportunities are ten to one in the selling field—that sales-

men top the list of money makers—that the salesman is his own Boss—that his work is fascinating, interesting, and highly profitable — yet they pass up opportunity because of a vicious superstition.

Millions can sell goods but don't know it. You can—anyone of average intelligence can. And you can become a first class, money-making salesman in an amazingly easy way.

Proof That Salesmen Are Made—Not "Born"

You might laugh if I told you that in a few weeks or months you could be making good in a big way in the selling field. Thousands before you have laughed—perhaps bitterly—at the idea, but many of these thousands are now making big money as salesmen.

Five men who once thought salesmen were "born," who did not believe they were "cut out for selling," tell you on this page how they quickly shattered the superstition—and what the results were.

J. E. GREENSLADE

TO the average man the \$10,000 a year job is only a dream. Yet to-day there are a surprising number of men earning five-figure salaries who were merely dreaming of them a short while ago. The secret of their success should prove a startling revelation to every ambitious man who has ever aspired to get into the \$10,000 a year class. Let me show you how you too can step into the ranks of these big money-makers of business. At least, you can not afford not to investigate this great field and see what it offers you. It will only cost you a two-cent stamp, and the facts and proof you will receive will surprise you.

"I had never earned more than \$60 monthly. Last week I cleared \$306 and this week \$218."
—G. W. Kearns, Oklahoma City.

"Last week my earnings amounted to \$554.37; this week will go over \$400."
—F. Wynn, Portland, Ore.

"The very first month I earned \$1,000. I was formerly a farm-hand."
—Charles Berry, Winterset, Iowa.

"This year my earning power will be far above the \$10,000 mark in my present position as sales manager."
—O. Malfroot, Boston.

"After ten years in the railway mail service, I decided to make a change. My earnings during the past thirty days were more than \$1,000."
—W. Hartie, Chicago, Ill.

Thousands of men like these five—men who had never sold a dime's worth of goods in their lives—men who formerly thought salesmen were "born," are now enjoying magnificent earnings in the selling field. Formerly they were bookkeepers, mechanics, farmers, clerks—even doctors, lawyers, and ministers—but in a few months after writing to the National Salesmen's Training Association they were out in the field selling—and making more money than they had ever hoped to make in their former vocations.

Sounds remarkable, doesn't it? Yet there is nothing remarkable about it. Salesmanship is governed by rules and laws. There is a certain way of saying and doing things, a certain way of approaching a prospect to get his undivided attention, certain ways to overcome objections, batter down prejudice, overcome competition, and make the prospect act.

Remarkable Book, "Modern Salesmanship," SENT FREE

With my compliments I want to send you a most remarkable book, "Modern Salesmanship." It will not only shatter the vicious superstition about "born" salesmen, but will portray to you the wonderful opportunities in the selling field for you. It will show you how you can easily become a Master Salesman—a big money maker; how the N. S. T. A. System of Salesmanship Training through the NATIONAL DEMONSTRATION METHOD will give you years of selling experience in a few weeks; how our FREE Employment Service will help select and secure a good selling position when you are qualified and ready. And it will give you success stories of men—once victims of that superstition—who are now earning amazing salaries as salesmen. Mail the coupon today for the interesting FREE Book. It may be the turning point in your life.

NATIONAL SALESMEN'S TRAINING ASSOCIATION

Dept. 50-B, . . . Chicago, Ill.

Just as you learned the alphabet, so you can learn Salesmanship. And through the NATIONAL DEMONSTRATION METHOD—an exclusive feature of the N. S. T. A. System of Salesmanship Training—you can gain actual experience while studying in your home or elsewhere.

That NATIONAL DEMONSTRATION METHOD gives you experience and knowledge that will enable you to overcome sales obstacles of all descriptions—easily. It is one of the reasons why N. S. T. A. members make good as salesmen right from the start.

A Lifetime of Selling Experience in a Few Weeks—Then Success

No matter how bad that vicious old superstition may have you in its grasp, I can prove to you that it is superstition and nothing else. I can prove to you that you can gain years of selling experience in a few weeks—that you can go out and successfully sell goods—that you can make more money than you ever dreamed possible.

The N. S. T. A. System of Salesmanship Training and Employment Service will enable you to quickly step into the ranks of successful salesmen—will give you a big advantage over those who lack this training. It will enable you to jump from small pay to a real man's income.

National Salesmen's Training Association
Dept. 50-B, Chicago, Ill., U. S. A.

Please send me, without any obligation on my part, your free Book, "Modern Salesmanship," and full information about the N. S. T. A. System of Salesmanship Training and Employment Service. Also a list showing lines of business with openings for salesmen.

Be a Traffic Manager

Over a half million shippers need men who know how to route shipments, obtain shortest mileage and quickest deliveries; how to classify goods and obtain lowest rates. These are two vital factors in business competition. The man who can classify commodities and figure routings most economically can name practically his own salary. Concerns gladly pay competent traffic men

\$50 to \$200 a Week

Many pay a great deal more, because the knowledge of a trained Traffic Expert saves them many times his salary. Train to enter this new profession. Positions are permanent; work is pleasant; salary is large.

Train by Mail

in your spare time—at home—while holding your present position. The LaSalle Course is endorsed by railroads and big concerns everywhere. Covers thoroughly every phase of shipping and transportation. Write at once for our Free Traffic Book and full details. The coupon will bring them without obligation.

**Easy to Get a
Government Position
Like This**

"To-day received notice from the Superintendent of the 9th Railway Mail Division asking if I would accept position. You can bet I didn't hesitate long to say 'Yes.'
"You may be sure that I cannot too highly endorse your methods of coaching and I will gladly recommend your School without hesitation."

Frank H. Brownard,
75 Pearl Street,
Rochester, N. Y.

EVERYWHERE throughout the country the U. S. Government Civil Service needs

men to fill splendid positions. Liberal salaries are offered, with big chances for advancement.

Choose the kind of work you like best among the different branches of the service; enjoy all the special advantages of working for Uncle Sam—the steadiest, most dependable "boss" in the world. There are no hard times in the Government service—no layoffs, no salary cuts, no strikes, no discharges for personal, religious or political reasons. Get a job you can be sure of; give yourself and your family the protection of certain, continuous, pay all the year round.

Earn \$120 to \$190 a Month

From the very first day you enter the Civil Service you receive a good salary—\$120 to \$190 a month—and you are in line for advancement to positions paying \$3,000 to \$10,000 a year. And besides its good salaries, the Civil Service offers you advantages to be found in no other field of work. Hours are easy—eight or less a day. You get a vacation every year with full pay. There are positions in your home town, in Washington, at the Panama Canal, or travel if you desire.

If you are an American citizen, 18 years old or more, with an ordinary 4th grade education, you are eligible for a Government position. It is easy to pass the Civil Service Examination as soon as you are prepared to answer the kind of questions asked.

In just a little spare time at home you can prepare, under the personal coaching of Arthur B. Patterson, Principal of the Patterson Civil Service School and for years a Civil Service Examiner. Mr. Patterson, therefore, is in the best possible position to help you to the Government position you want. In fact, Mr. Patterson is so sure of your success under his coaching that he GUARANTEES to coach you until you actually get a position.

Let us send you FREE Catalog of *Weis* Office Equipment Filing Supplies and Sectional Bookcases

This Low Priced Letter File

Is the result of a desire to produce a paneled side, flat top, vertical filing cabinet that can be sold at a popular price and at the same time embody a method of construction that guarantees long life and satisfaction for the product. Made in two, three and four drawer heights in both Letter and Legal Cap widths. Drawers operate easily on hard fibre rollers; will not pull out accidentally but can be readily removed from frame by slight upward tilt. Each cabinet is complete—not sectional—and is made from best grade of well seasoned, kiln dried lumber. Golden or Natural Oak finish. Birch Mahogany 10% extra.

\$20

(See Note)

Weis Sectional Card Index Cabinets

Logical equipment for a card file subject to expansion. The top section can be used as a regular two drawer file, capable of holding more than 2500 cards and necessary guides, then Bottom sections can be added as needs require. Made in 3x5, 4x6, 5x8, 8x5 and 6x9 card sizes also 4x9 check size. Golden or Natural Quartered Oak or Birch Mahogany finishes. For a card file not liable to expansion and requiring less than 1400 cards and guides use the *Weis* Single Drawer Card Index Cabinets. Catalog tells all.

No.
140
\$6

Weis Stationery Cabinets

Are money earners because they are stationery savers. Have compartments for Letter, Cap and Note size papers, long and short envelopes and drawer for carbon papers, etc. Golden or Natural Oak or Birch Mahogany. No. 140 with drop lid \$6.00. No. 150 with open vertical front \$5.00.

Weis Swinging Stand

Attached to desk provides additional working space. Much more practical than slide shelf in desk for holding stenographers' note book while taking dictation.

Also handy for holding dictionary, typewriter, card index tray, etc. The 14"x18" wood tops in Golden, Natural or Weathered Oak or Birch Mahogany. Nickel plated or Oxidized copper metal frame 50 cents extra.

No. 5
\$4.50

Weis Legal Blank Cabinet

Contains six drawers as shown in illustration, each 1 1/2" high, 8 1/2" wide, 14 1/2" long. Cabinet outside is 10 1/2" high, 10" wide, 15 1/2" deep.

Made in Golden or Natural Plain Oak or Birch Mahogany. Also made with full length horizontal partitions and without drawers. No. 814 \$8.00

Weis Sectional Bookcases

Are the ideal book storage equipment for school, office or home. A method for taking care of your present as well as future

The sectional construction pre-requires. You can start with one top section and base and add other sections as needs demand. Made of very best grade of Plain and Quartered Oak, any standard finish, also in the red or brown Birch and Genuine Mahogany. A catalog devoted exclusively to Bookcases, will be sent on request.

NAME

R.D. or STREET

POSTOFFICE STATE

The youngest man enrolled yesterday is 22
and bookkeeper in a Trust Company

The oldest man enrolled yesterday is 60
and Treasurer of a successful corporation

One is 22—the other 60

Both Enrolled in the Alexander Hamilton Institute the Same Day

IN salary, in age and income, there is a business man whose business situation is almost precisely like yours.

Yesterday that man enrolled for the Modern Business Course and Service of the Alexander Hamilton Institute; every day men like you are enrolling; and in that way are shortening their path to increased income and business success.

A single day's enrolments

One day's mail brought in enrolments representing youth and middle age, and all degrees of position and salary. Glance at the two pictures at the top. One represents the youngest

man enrolled that day in the Institute—alive, alert, twenty-two years old and determined to be *something* and *somewhere* at thirty.

The other is the oldest man enrolled that day—treasurer of a corporation, giving satisfaction to his directors but not satisfied with himself. He has determined to know the essentials of the *other* departments of business as well as his own.

That same day 611 men asked for fuller information about the Alexander Hamilton Institute by clipping a coupon like the one at the right. Can you afford to let these 611 men secure a business advantage

Canadian address, C. P. R. Building, Toronto;

over you? Isn't it worth while to make the little effort required to clip the coupon and get the facts?

Just what will the Institute do for me?

This is what the Institute does! By texts and lectures prepared by business leaders, by practical business problems, and personal guidance it gives you the principles and practices of each department of modern business.

It takes the practical experience that you have in one department and adds to it the working knowledge of all the other departments to fit you, as an executive, to understand and direct the work of men in those departments.

Practical experience alone, taking you from one department to another, would give you that training in years; the Alexander Hamilton Institute offers it to you in months. And the record of the men it has enrolled is evidence that its training does train.

You are paying whether you accept or not

The cost of the Modern Business Course and Service is a little investment in money and time. But think of the price which those men pay who do not secure business training.

Australian address, 42 Hunter Street, Sydney

Think of the years of routine progress or petty salary increases when the progress might be rapid and sure. Think of the opportunities that pass by because men have not the knowledge and self-confidence to reach out and grasp them.

Six hundred and eleven men wrote in one day for the facts. Will you invest a two-cent stamp in your future as these men did in theirs?

Send for this book

All the facts about the Modern Business Course and Service and the answers to every question you are likely to ask are contained in a 118-page book, "Forging Ahead in Business." It is a valuable addition to any business library, yet you can read it in a single evening. A copy will reach you entirely without obligation on receipt of your name and address; merely fill in the coupon and mail.

Side Rakes
Hay Loaders
Stackers
Grain Binders
Corn Binders
Hay Presses
Manure Spreaders
Grain Elevators
Corn Shellers
Farm Wagons
Mountain Wagons
Trucks
Teaming Gears
"Waterloo Boy"
Tractors
Gas and Kerosene
Engines

It was to insure the permanency and merit of this Line that the John Deere family of factories was brought together under a permanent charter.

Around the great specialized factories which John Deere himself had founded and developed were gathered a number of other factories, each of which had pioneered in the production of some leading implement and stood pre-eminent in its particular line.

Each of these factories still operates under its policy of specialization. Each still produces the kind of tools that first made it famous. Each has connected with it men whose ingenuity, foresight and industry made it far-famed among dealers and farmers. Each preserves its old identity.

But each is dominated by the purpose that unites all—to maintain the premiership of the John Deere farm implement line.

All John Deere farm implements are made in John Deere factories owned by the John Deere Company. This arrangement insures and guarantees for every tool produced the superior quality that has marked John Deere farm tools for eighty-five years.

Write today for free booklets describing the John Deere implements in which you are interested.

What One Editor Does With Fifteen Cents

Washington, D. C. (Special).—One of the biggest achievements in the history of American journalism is that of the *Pathfinder*, now the most important weekly in the Nation's Capital. With less than 40,000 circulation a decade ago, it has now nearly 500,000. The editor ascribes most of this success to the fact that he lets people have the *Pathfinder* the first 13 weeks for 15 cents, an offer which has never been matched by a big weekly magazine.

The *Pathfinder* is chock full of just the kind of reading people want. It treats everything that happens in the world in a way that touches the spot. The *Pathfinder* is independent of all political, religious, capitalistic or "group" control. It is the Ford of American journalism.

Best serial and short stories you can find anywhere. Stunts, tricks and amusements for the children. Fashions and home helps. The *Pathfinder* Question Box service is a mine of information. Real fun; lots of it—*Pathfinder* jokes are famous.

The editor says it costs him a lot of money to send the 13 big weekly issues for 15 cents, but that it pays to invest in new friends. If you want the breeziest, cleanest, sanest, most entertaining weekly paper there is, send 15 cents to the *Pathfinder*, 600 Langdon Sta., Washington, D. C., and you will be delighted.

Service

*"I had six honest, serving men;
(They taught me all I knew):
Their names are WHAT and WHY and WHEN,
and HOW and WHERE and WHO."*
(KIPPLING)

WHAT was the Declaration of London? WHAT are consols?
WHY does the date for Easter vary from year to year?
WHEN and by whom was the great pyramid of Cheops built?
HOW can you distinguish a malarial mosquito?
WHERE is Canberra? Zeebrugge? Delhi?
WHO was Mother Bunch? Millboy of the Slashes?
Are these "six men" serving you too? Give them
an opportunity by placing

WEBSTER'S NEW INTERNATIONAL DICTIONARY

in your home, office, school, club, shop, library. This "Supreme Authority" in all knowledge offers service, immediate, constant, lasting, trustworthy. Answers all kinds of questions. A century of developing, enlarging, and perfecting under exacting care and highest scholarship insures accuracy, completeness, compactness, authority.

The name Merriam on Webster's Dictionaries has a like significance to that of the government's mark on a coin. The NEW INTERNATIONAL is the final authority for the Supreme Courts and the Government Printing Office at Washington.

Write for a sample page of the *New Words*, specimen of Regular and India Papers, also booklet "You are the Jury," prices, etc. To those naming The World Almanac we will send free a set of Pocket Maps.

The Free Booklet Is for Adults Only—It Will Not Be Sent to Children.

He Will Give You a Real Command of English

Your use of English proclaims you to the world. What you say tells what you are. Your language largely determines your place among successful men. The greater your vocabulary the greater your power of expression and influence upon your fellow men.

Commence now—let Grenville Kleiser teach you through his Mail Course in Practical English, how to

**Enlarge Your Stock of Words—
Use the Right Word in the Right Place—**

Write Tactful, Forceful Letters, Advertisements, Stories, Sermons, etc.—

It will take only some of your spare moments at home; no repellent grammar study; each lesson as clear as daylight; and inspiring to the highest degree. The average man of to-day can add largely to his efficiency, influence, and income if he will give a few minutes each day to Grenville Kleiser's fascinating Mail Course in Practical English. Many thousands have done so.

BOOTH TARKINGTON

Distinguished Novelist and Short-Story Writer, Author of "Monsieur Beaucaire," "Seventeen," "Penrod," etc.

"Your course is almost painfully needed by many professional writers and speakers. A student who intelligently follows your course will know what he is talking about when he talks or when he writes. His audience will certainly know, because he will talk well, no matter what his subject."

FREE—"How to Become a Master of English."

This booklet is absolutely free. It teems with information on English, and Mr. Kleiser's new, common-sense method of teaching it. You will find it of great interest and value. Send the coupon and get it free. No agent will call upon you.

Guaranteed For 5 Years!

\$3
DOWN

Will Put An Underwood

YES only \$3 brings you this genuine Shipman-Ward Rebuilt Underwood direct from our factory. Then, only small monthly payments make it yours, or, if convenient, pay cash. Either way you get the world's standard typewriter, and at a big saving to you.

Why Pay Rental?

Think of it! You pay only a little more each month than rental—and

the machine is yours! We offer you the same three models of the Underwood Typewriter that are being made and sold by the Underwood Company today. The only difference is that Shipman-Ward machines are rebuilt like new by experts. You can't tell Shipman-Ward Rebuilds from brand new machines, either in appearance, durability, or quality of work.

SHIPMAN-WARD MFG. CO.

TYPEWRITER EMPORIUM

"The Rebuilders of the Underwood"

Estab. 1892. 2991 Shipman Bldg., Ravenswood and Montrose Aves., Chicago

Reproduced from an actual photo of a Shipman-Ward Rebuilt Underwood.

in Your Home!

Easy Payments

You pay only a little each month. The amounts are so conveniently small that the machine will be yours before you know it. All the time you are paying you will be profiting by the use of the machine. And the Underwood is rebuilt like new. Every typewriter is factory rebuilt by typewriter experts. An up-to-date machine with two-color ribbon, back spacer, stencil device, automatic ribbon reverse, tabulator, etc. In addition, we furnish FREE, waterproof cover and a special Touch Typewriter Instruction Book.

Mail the Coupon!

Remember, you don't even have to buy the machine until you have used it on 10 days' free trial, so that you can see for yourself how new it is and how well it writes. You must be satisfied or else the entire transaction will not cost you a single penny. So, mail the coupon to-day. Get all the facts—full details of this big offer. Act Now!

All shipments made direct to you from our big modern factory shown above—the largest typewriter rebuilding plant in the world.

"I Must Earn \$200. Quickly" Said Mrs. Snow and SHE DID

Mrs. Frank Snow surveyed ruefully the list before her. She knew it by heart, had written it down a score of times, and each item seemed to grin and mock her as if to say, "Get me if you can."

Clothes for the children, \$25; the insurance, \$12.50; that long-past-due doctor's bill, a new davenport for the living room, that dress she needed so badly, shoes for Frank, and then there would have to be something to keep the family larder well-supplied when those visiting relations arrived. She added it up again—\$198.50, and no less would do.

But how to get this money? She thought of working in an office for a while or clerking in a store, even sewing or housework would enable her to overcome this everlasting need of more money than Mr. Snow's slender earnings could supply.

Reluctantly she put aside each idea as impractical, for had she not the home and the children to look after? If only there was something she might do at home, piece-work, sewing, for instance. But the nearest factory was miles away and, then again, they paid such small prices for the work.

Mrs. Snow was very nearly at her wit's end until one day she chanced to pick up a magazine, and there, before her eyes, seemed to be the very thing she was looking for, the Gearhart Plan of Home Knitting. She read of how she could knit famous Allwear Hosiery in the comfort and privacy of her own home, utilizing the spare time which every housekeeper finds each day. Or she could devote all her time, as she wished.

Mrs. Snow investigated and found the Gearhart Company to be a fine old concern with a reputation for doing exactly as they promise and thousands of satisfied women home knitters, and men, too, who had seized the opportunity Gearhart offered.

Like many another woman who has felt the urge of necessity, Mrs. Snow sent for a Gearhart Standard Knitter and the splendid 3-year work contract sent with each machine. Soon she was turning her spare time into a tidy weekly income.

She was delighted with the ease and simplicity with which she was able to knit the loveliest hosiery, and still more delighted when the checks from the Gearhart Company began to arrive in ever increasing amounts. The liberal pay per dozen, just for knitting, urged her to greater efforts, as it seemed to her hardly more than a pleasant occupation, with none of the back-breaking, soul-rending strain of hard domestic labor.

So YOU Can Succeed

Can you picture how delighted they were when the \$200 was earned and the bills all paid? Can you picture the joy that you, too, would feel after you had accumulated the wherewithal to buy the hundred and one things every woman wants, to help tide the family over financial troubles or to lay away a nest egg for a rainy day?

Does this hypothetical case of Mrs. Snow mean anything to you? Are you in a position where it would be desirable to turn your spare time into dollars and cents? If so, here is the opportunity which perhaps you have been long awaiting, a home occupation so easy and fascinating that you will regret not coming upon it before.

Gearhart has the money, and YOU have the spare time. Is there any reason why you cannot get ready to become one of the Gearhart Home Knitters of Allwear Hosiery?

Prompt Action Gets the Money

You are cordially invited to write at once to the Gearhart Company for free, full particulars. They will gladly explain the details—how you can get the Gearhart Standard Knitter, free yarn and full instructions how to knit Allwear Hosiery. You will learn of the liberal price they will pay you for your industry and all about the generous 3-year contract which you may also have.

Don't wait, write today. Delay may be dangerous to your opportunity. Can you, or any other woman who is really anxious to earn money at once in the privacy of her own home, afford to wait a single day? Write now for the Free Profit Guide Book, including samples of knitting and full particulars. Address the

GEARHART KNITTING MACHINE COMPANY
Box 23 WA CLEARFIELD, PA.

Lowest Prices Ever Made on World's Best ROOFING Freight Paid

"Reo" Metal Cluster Shingles

"Spanish" Metal Tile

Edwards Patent "Grip Lock"

Corrugated

Brick Siding

We sell direct to you and save you all middlemen's profits. We ship everything—roofing, siding, ceiling, wallboards, etc.—freight prepaid. We cannot quote you our low factory prices here, but send for our Big Roofing Book and see for yourself that our prices are lowest ever quoted.

"Reo" Metal Shingles

Have great durability. Many customers report 15 and 20 years service. Guaranteed fire and lightning proof. They save you money, give you better quality and lasting satisfaction.

Edwards Exclusive Tightcote Process

makes Edwards Metal shingles, Metal Spanish Tile, Reo Cluster Shingles, Grip-Lock Roofing and other Roofings, Ceilings, Siding, etc., absolutely rust-proof. Not a pin point of space exposed to weather.

Our Patent Interlocking Device

prevents warping, buckling or breaking. Protects nail holes—nails are driven through under layer; not exposed to weather. No special tools required. Easy to lay.

The Galvanizing Test

Take any other galvanized steel—bend it back and forth, hammer it down. Great scales of galvanizing will flake off. Apply this test to Edwards Metal Roofing—you'll find no flaking. Edwards products are superior—yet sell for less than other materials.

Samples FREE

Send coupon for World's Greatest Roofing Book and Free Samples. Book will convince you that we can save you a lot of money on any kind of roof you need, also on ceiling, siding, wallboard, etc. Fill out coupon and mail today. Ask for Book No. 95.

THE EDWARDS MANUFACTURING COMPANY
45-95 PIKE STREET, CINCINNATI, OHIO

Special Bargains in Garages

The money you pay in a few months for garage rent buys an Edwards' Metal Garage. Gives you every convenience—no phoning or waiting for your car. Gives you every protection—against carelessness, hanging, mars, scratches—against fire, lightning, thieves, etc.

Write for Catalog showing all sizes, all styles—"Steelcote," "All Steel" or "Stucco-Steel," Plain Rock Faced, Brick or Stone, or Weatherboard Siding, Metal Spanish Tile or Metal Shingle Roof.

Edwards' Portable Garages pay for themselves in a few months. After that saves enough to pay upkeep of car. Find out. Write for Catalog.

EARN BIG MONEY LEARN THE AUTOMOBILE BUSINESS

TRAINING
FOR HEAD
AND
HAND

GOVERNMENT statistics show nearly twelve million automobiles in the United States. Think what that means! Twelve million cars needing constant service; twelve million engines to adjust and repair; twelve million batteries requiring attention; twelve million starting, lighting and ignition systems to be kept in adjustment; fifty million tires to vulcanize and retread—and only fifty thousand garages to do the work. That's why thousands of trained men are needed. The demand exceeds the supply of competent men. Good pay awaits men who KNOW how to handle this work.

Make \$2,000 to \$10,000 Yearly

Come to the Michigan State Auto School and get the necessary training. Fit yourself to fill one of these good jobs. Come to Detroit—the greatest Auto Centre of the world. Learn the Automobile Business right in the heart of the Auto Industry where 79% of the cars are made.

More than 18,000 M. S. A. S. graduates thruout world, making good in Auto business. Many of them in business for themselves. Edwards (Mich.) was offered \$40.00 per week a few days after completing our Course; Nelson (N. Y.) took our Course when 17—now has five men working for him; Tirb (Mich.) gets \$50.00 per week; Wolf (Iowa) making about \$75.00 weekly in business of his own; Anderson (Minn.) made \$300 per month in garage of his own. Hundreds more like these in our files showing what M. S. A. S. training does for our students.

OUR COURSE COMPLETE—FACTORY ENDORSED.

Every branch of auto business is taught—construction, operation, upkeep and repair of autos, trucks, tractors, farm lighting plants, and gas engines. We teach by actual practice on each machine. No guesswork. Students visit auto factories. Executives and service men helped outline our Courses and heartily endorse our School. M. S. A. S. training is complete, practical and profitable. IT PAYS TO LEARN THE M. S. A. S. WAY.

GOOD POSITIONS AWAIT OUR GRADUATES.

Factories, garages and service stations continually call for M. S. A. S. trained men. These positions pay good salaries and offer excellent opportunities for advancement, or to build a business of your own. More opportunities for trained men in Detroit and elsewhere than we can fill. Let the M. S. A. S. fit you for a wonderful future in the automobile business.

MONEY BACK GUARANTEE.

ALPHA ELECTRIC CO., 151-155 W. 30th St., New York City

PATENTS TRADE-MARKS AND COPYRIGHTS

Special Offer—Free Opinion as to Patentable Nature

Before disclosing an invention the inventor should write for our blank form "Evidence of Conception." This should be signed and witnessed and if returned to us together with model or sketch and description of the invention, we will give our opinion as to its patentable nature.

Our Three Books Mailed FREE to Inventors

OUR ILLUSTRATED GUIDE BOOK HOW TO OBTAIN A PATENT

Contains full instructions regarding Patents, Trade-Marks, Foreign Patents, Our Methods, Terms, and 100 Mechanical Movements illustrated and described, Articles on Patent Practice and Procedure, and Law Points for inventors.

OUR TRADE-MARK BOOK

Shows the value and necessity of trade-mark protection and gives information regarding unfair competition.

OUR FOREIGN BOOK

We have direct agencies in foreign countries. Write for our illustrated Guide Book on Foreign Patents.

SPECIALIZATION—OUR STAFF

The field of invention is so vast that it is impossible for any one to become an expert in all the different classes of invention. Only those skilled in the class to which the invention relates are capable of rendering efficient service. For this reason Victor J. Evans & Co., employ a number of patent lawyers and mechanical experts who have been selected for their special knowledge and ability in certain lines of invention. Each case is placed in charge of experts in the classes to which the invention relates.

THE VALUE OF YOUR PATENT

will depend much upon the skill and care with which your case is prepared and prosecuted in the United States Patent Office. We spare neither time nor pains to secure the broadest possible patents that the inventions will warrant. That every case entrusted to us receives our best efforts, and that our work is done consistently, skilfully and thoroughly is evidenced by the many unsolicited letters of commendation that we receive constantly from our clients. We will furnish upon request lists of clients from any State in the Union for whom we have secured patents.

Our New York, Philadelphia, Pittsburgh, Chicago and San Francisco Offices

Owing to the growth of our business we have established for the benefit of our clients Branch Offices in New York City, Philadelphia, Pa., Pittsburgh, Pa., Chicago, Ill., and San Francisco, Cal. These branch offices being located in these large commercial cities, together with our Main Office located near U. S. Patent Office in Washington, enable us to more promptly handle the business of our clients, particularly as the branch offices are in constant touch with the Main Office and fully equipped to handle patent business in all its branches.

TAKE YOUR CHOICE!

Your Office Needs An ACME to Save Time and Labor

One pressure of the lever of Acme No. 2 and Midget punches, inserts the staples and binds your papers—certainly a tremendous saving of time and energy over all old-fashioned methods.

OTHER ACMES FOR EVERY POSSIBLE PURPOSE.

These are only three models of the standard Acme line. They are all automatic, self-feeding and clog-proof. Scientifically built to serve some particular purpose best. If these models do not fit your requirements, write us to-day. We do, or we can, make any kind of stapling machine to serve your purpose exactly, whatever it is. Ask any dealer about the Acme family.

Or send for complete money and time-saving Catalog

Why haven't
you clipped
this coupon?

IT takes but a moment to mark the career of your choice, sign your name, clip out and mail this coupon. Yet that simple act has started more than two million men and women toward success.

In city, town and country all over the world, men are living contented lives in happy, prosperous homes—because they clipped this coupon.

In every line of business and industry, in shops, stores, offices, factories, in mines and on railroads, men are holding important positions and receiving splendid salaries—because they clipped this coupon.

Clerks have become sales, advertising and business managers, mechanics have become foremen, superintendents and engineers, carpenters have become architects and contractors, men and boys have risen from nothing to places of responsibility—because they clipped this coupon.

You have seen it in almost every magazine you have looked at for years. And while you have been passing it by, more than ten thousand men and women each month have been making it the first stepping stone to real success in life.

Will you still turn away from Opportunity? Can you still go on, putting in your days at the same grind, getting the same pay envelope with the same insufficient sum, when such a little thing can be the means of changing your whole life?

You can have the position you want in the work you like best, a salary that will give you and your family the home, the comforts, the little luxuries you would like them to have. No matter what your age, your occupation, your education, or your means—you can do it!

All we ask is the chance to prove it. That's fair, isn't it? Then mark and mail this coupon. There's no obligation and not a penny of cost. It's a little thing that takes but a moment, but it's the most important thing you can do today. Do it now!

The Book That Has Shown Thousands The Way To Amazing Salary Increases.

TAKE this situation: A man who had worked all his life in a routine job at low pay suddenly surprises his friends by moving into a better neighborhood, taking a big house, buying a car and blossoming out as a well-to-do and influential citizen in his new community. What is the secret that he used? He knew that the biggest money in business is in Selling, and though he felt that he couldn't sell a thing, he suddenly learned the secrets that make Master Salesmen and then began to make big money.

For example: Charles Beery of Winterset, Iowa, stepped from \$13 a week as a clerk to a position making him \$1,000 the very first month. J. P. Overstreet of Dennison, Texas, read this amazing book, left a job on the Capitol Police Force at a salary of less than \$1,000 a year and in six weeks earned \$1,800. F. Wynn, Portland, Ore., an ex-service man, earned \$554.37 in one week. Geo. W. Kearns of Oklahoma City found in this book a way to jump his earnings from \$60.00 a month to \$524.00 in two weeks, and C. W. Campbell learned from it how he could quit a clerking job on the railroad to earn \$1,632 in thirty days.

Your One Chance to Make the Biggest Money of Your Life

Not one of these men had ever sold a thing before—not a dime's worth. Yet every one of them through reading this book discovered an amazingly easy way to jump suddenly from low pay to extraordinary earnings in the selling field.

There are certain ways to approach different types of prospects to get their undivided attention—certain ways to stimulate keen interest—certain ways to overcome objections, batter down prejudices, outwit competition and make the prospects act.

Simple As A B C

"Modern Salesmanship" tells exactly how the National Salesmen's Training Association will teach you these principles in your spare time at home.

As soon as you are qualified and ready the Association's Employment Service helps you to select and secure a selling position as city or travelling salesman.

Free Book—Mail Coupon!

All of the amazing proof and many important features about Salesmanship are contained in our new salary raising book, "Modern Salesmanship." It is yours—FREE. Send the coupon for it to-day. It will show you how you can quickly become a Master Salesman—a big money maker. It will tell you about the National Salesmen's Training Association system of Salesmanship training—about the National Demonstration method that gives you actual experience while studying—and all about the amazing opportunities that await you in the selling field.

This may be the one big chance of your life to leave forever behind you the low pay of a routine job for a sudden, brilliant success at a big salary.

Is it worth 2c to find out? Then mail this coupon NOW.

NATIONAL SALESMEN'S TRAINING ASSOCIATION

Pitmanic Shorthand

practically the only system, and the standard used for VERBATIM REPORTING throughout the English Speaking World for nearly 80 years; used by reporters in Houses of Parliament, London; House of Representatives and U. S. Senate (Chief of the Senate Reporters receiving \$25,000 yearly; highest salary paid any stenographer in the world); used by every Court Reporter in New York City and by all Court Experts in every State in the Union; the high rate of speed necessary for such positions formerly required many years of practice; with the modern Lusk

Method every stenographer now, in a few months, can take even faster than the swiftest speaker can articulate.

NEW 1923 400 Word-a-Minute LUSK SHORTHAND

Pitmanic now Marvelously and Scientifically Improved by the Lusk Standardized Universal. Called "Standardized Universal" because the Standard Pitman alphabet is used, and the expedients and shortcuts are used by 99% of the reporters of the world.

Greatest Improvement made in 40 years in phrasing and arrangement of text-books.

Twice as rapid as the Swiftest Pitmanic; four times as rapid as the Swiftest Non-Pitmanic ever devised.

A Lusk writer can record almost any sentence in the English language twice while a writer of the Swiftest Pitmanic is recording it once. Or FOUR TIMES while the Swiftest Non-Pitman writer is recording it ONCE.

Lusk Stenographers can pass any Civil Service examination held, and, owing to their terrific speed, command twice or thrice the salary of ordinary stenographers.

Ordinary Shorthand Systems enable only two or three out of 10,000 stenographers to take over 100 Words-Minute (simple letters). With the Lusk Method, every stenographer can take over 200 Words-Minute on technical matter.

Beginners' Courses

By the arrangement of these wonderful text books, beginners knowing absolutely nothing about shorthand are required to commence the dictation of letters at 100-words-minute in the briefest reporting style, after five lessons. By the marvelous Simplification of Pitmanic Shorthand, only one-third of the time is now required to obtain double the speed.

Post-graduate Courses for Stenographers. Pitman, Graham, Munson and all Pitmanic Writers are trained by the Lusk text-books to take 200 to 300 words-minute; 400 actually possible.

Books for Self-instruction on sale. Mail and personal courses for both beginners and advanced writers of any Standard System.

Stenographers unaware of the great improvement made in Shorthand the past year send for Demonstration and Specimens gratis.

Lusk Institute Corporation

Department E 229 W. 42 St., Selwyn Theatre Bldg., N.Y.

Could YOU Talk to These Men? Or Any One of Them?

Could you read one of their letters? They speak only their mother tongues—French, Italian, and Spanish. Yet in social circles and in business, when travelling and at home, here and abroad, there are countless opportunities for you to gain the strong friendship of these nationalities for your pleasure, profit, and personal advancement. What you most need is a knowledge of at least one of these foreign languages. And through our remarkable system of instruction—

You can learn a new language as easily as a new tune

Only a trained musician can learn a tune without hearing it—by merely studying the printed notes. But almost any one can learn a tune by listening to it several times. It is the same with languages. The Rosenthal Language Phone Method enables any one to learn a foreign

tongue as easily as a new tune. You merely put a Language Phone record on your phonograph and listen; then repeat the sentences aloud. In a surprisingly short time you are yourself actually speaking a foreign language and understanding what is said to you.

LANGUAGE PHONE METHOD

(Title Reg. U. S. Patent Office)

With Rosenthal's Practical Linguistry

The feature that makes this wonderful method so speedy, interesting, and correct is the set of Language Phone discs. These are records of the speech of a cultured native professor, speaking his mother-tongue. He talks of everyday matters, giving you hundreds of phrases, questions, and answers that you will have immediate and constant use for. You learn conversationally. No rules or decisions to be memorized, but perfect accent, pronunciation, and grammar assured.

SPANISH—FRENCH—ITALIAN

You need give only a few minutes of spare time a day to study—in the privacy and comfort of your own home. Select your own time—when you are in the mood. No arbitrary lesson-hour or waiting teacher to consider.

Whether you are an employer or employee, man or woman, boy or girl, clerk, executive, salesman, manufacturer, wholesaler, retailer, lawyer, doctor, minister, teacher, author, artist, actor, musician—familiarity with another language will add to your success—as it has done in thousands of cases. Hundreds and hundreds of owners of

Rosenthal Language Phone outfits, in all these professions, have written us enthusiastic letters about their interest and pleasure in this fascinating study; and of the great benefit it has been to them—enlarging their business or winning promotion and bigger salaries.

FREE A 64-Page Book That Tells You

How to Increase Your Income; How to Acquire Quickly Conversational Fluency in a Foreign Tongue; How to Increase Your Influence—in the office, the club, the drawing-room.

FUNK & WAGNALLS COMPANY 582 Hess Building, New York

Please send me by mail (without obligation of any kind) the free book about Language Study, together with details of your offer of a free trial, in my own home, of The Language Phone Method for Spanish, French, or Italian.

"I'm After That Raise in Pay!"

"A few years from now I want to be making at least five thousand a year—that's why I'm spending two or three evenings a week here at home. I'm tired of being a business nobody, Jack, and I've made up my mind to stick to this game until I put it over big."

Real stuff in that young man—and the wonderful thing about it is that it's a mighty interesting game he's playing.

You see, by the LaSalle Problem Method you don't just read how to do a thing, you do it. You are shown the principles that govern a situation; then under the direction of some of the ablest business men in their respective fields you work out everyday business problems—just the problems you will meet on the bigger job.

That kind of training, you'll agree, is practical. It explains why during only

three months' time 1,089 LaSalle members reported salary increases totaling \$889,713 an average increase per man of 56 per cent.

What will you be doing with your spare time in the coming months? First thing to do, we should say, would be to get the facts about LaSalle training.

The coupon below will bring them to you without obligation, together with details of our convenient payment plan; also your copy of "Ten Years' Promotion in One," a book that has proved the inspiration of thousands of ambitious men. "Get this book," said a prominent Chicago executive, "even if you have to pay five dollars for it." We will send it free.

A stroke of two of the pencil, a letter dropped in the mail box and you have made your start on the road to bigger things. Make that start TODAY.

INQUIRY COUPON

Name Present Position Address

He Starts at \$5,200 a Year

One hundred dollars a week! And only a few years ago his weekly wage was less than \$30. Didn't dream he could do it when he first took up the study of Higher Accounting under the LaSalle Problem Method; but he just couldn't help getting ahead—so he wrote—because he found it the most interesting thing he ever tackled.

Knew nothing about bookkeeping, but LaSalle quickly gave him the necessary foundation. Then, step by step, he was trained in the practical work of Cost Accounting, Auditing, Business Law, Organization, Management, Finance, Income Tax Procedure—not theoretically, mind you, but by the solving of actual problems lifted bodily from business life. As a result, he sits as Auditor at a big mahogany desk and commands a salary of \$5,200 a year.

Unusual Opportunities in Accounting

Typical, this man's experience, of that of thousands of ambitious men who have found

their path to success in the LaSalle Problem Method. Never in the history of business has the need for trained accountants been so great or the rewards so attractive. The files of LaSalle Extension University contain literally thousands of letters reporting rapid advancement—incomes doubled, tripled and quadrupled as the result of home-study training. During three months' time, 1,089 LaSalle members wrote to the University telling of the "raises" they had got as a result of their training. The average increase per man was 56 per cent.

These men were not unusual; they had no "pull" or "luck"; they got their start by signing just such a little coupon as appears directly below this text. Mark the coupon, sign and mail today—and get the facts. We will promptly send you complete information regarding the training you are interested in; also a copy of that inspiring book, "Ten Years' Promotion in One." "Get this book," said a prominent Chicago executive, "even if you have to pay five dollars for it." We will send it free.

Remember, the cost of LaSalle training is small and can be covered in easy monthly payments, if you so desire. The decision that you make this moment is important. Mail the Coupon now.

How Much Do You Really Know About Selling?

Whether or not you have ever sold goods, you have long since discovered that the big money in business is in the *selling* end.

You have seen hundreds of men of no unusual ability jump their earnings to better than a hundred dollars a week. You know that it is no unusual thing for a man who really *knows* the finer strategy of selling to land a contract running into the hundreds of thousands of dollars a year. You know that a deal of this sort means in a single commission more money than the average man on the inside makes in a year.

Perhaps you have thought that the man who lands such a contract is a superman.

That is not true—neither was he born with a “gift for selling.”

He holds the right of way to big success and tremendous earnings for one reason and one reason only—he has mastered the principles of *salesmanship*.

And you, just as well as he, can *learn* those principles and go out and increase your income in a way that will actually amaze you.

Your Opportunity to Master Salesmanship

For twelve years LaSalle Extension University has been gathering and analyzing the

selling methods used by the ablest salesmen in America. Some of the most aggressive sales organizations in the country have generously turned over to LaSalle their complete procedure in the field—have thrown back the curtains and revealed in detail the scientific selling methods responsible for their success.

All this material LaSalle has organized into a practical hard-hitting course in **SALESMANSHIP**. Untried theory has been eliminated. From start to finish it sets forth the straight-from-the-shoulder methods used by America's star salesmen—illustrates these methods by countless examples taken from actual experience.

Mail the Coupon

If you are in any phase of business whatsoever, you need a thoro training in *salesmanship*—the best you can obtain. Your very living depends to great extent upon your ability to *sell*.

We have prepared an interesting booklet entitled “Modern Salesmanship,” telling just how you can get this training in your spare time—by the famous LaSalle Problem Method. It contains also a wealth of information that should have a tremendous bearing upon your future. We recommend that you send for this booklet **TODAY**. The coupon will bring it to you without obligation.

## It Pays to Read

# LAW

**THE READING OF LAW** has brought swift, sure success to thousands of men who without the benefit of this specialized knowledge would probably never have progressed beyond ordinary achievement. A practical working knowledge of **LAW** is a short cut to personal power in every walk of life,

**LAW** is a factor of prime importance in every business. To-day's conditions, involving a mass of statutes, decisions, rulings—changes from old precedents—new interpretations of commercial law—all make the legal expert of vital importance, a positive necessity in every large business house. Never before were prospects so bright for men who can answer the puzzling legal questions which come up daily in business. Important positions carrying executive responsibilities with large salaries are always seeking legal experts.

**LAW** training often leads to a big executive position, because it enables a man to dictate policies that are legally sound—to make quick, correct decisions on intricate points, puzzling to the untrained man. Every large corporation has a well equipped legal department, and smaller concerns have their retained legal advisers. The presidents of many corporations (for example: Pullman Co., American Sugar Refining Co., National Biscuit Co., etc.) are law-trained men.

**LAW** is a stepping stone to personal prestige and social standing. The successful practising lawyer, or law-equipped business man, has open to him a prosperous career in a dignified, influential profession. No other profession opens up greater opportunities for rapid and profitable advancement. And never before has it been so easy to acquire a thorough law training of university grade as now.

## University Course by Mail

LaSalle Extension University's faculty of legal experts will train you thoroly in every phase of law. You will get instruction in the same subjects taught at leading resident universities. You will have text books, lectures, quizzes, illustrative cases, examinations, etc., prepared by leading law professors. You will be directed at every step, with every point clearly explained. Graduate with a degree of LL. B. All this training can be had at home—in spare time only. No need to leave your present position. Membership also includes general consulting privileges with all departments of the university—a service not offered by any other institution.

## Convenient Tuition Terms

The LaSalle course and this direct personal instruction and business consulting service is offered at a cost within reach of even the man of small income. Decide now to be a law-trained man. Get above the ranks where the pay is small and competition intense—increase your income by increasing your mental capacity.

**WRITE**—Just mail the coupon and we will send full information about the LaSalle Home Study Course in Law and about our Free Consulting Service. We will also send you a copy of our famous book, "Ten Years' Promotion in One"—which tells how men with the aid of LaSalle training have gained in one year promotion which men without this training have not realized in ten. Send for your copy now.

# New Easy Way to Become An Artist

**T**HIS wonderful new method makes it possible for *anyone* to learn Illustrating, Cartooning, or Commercial Art. Hundreds of our students are now making splendid incomes. And most of them never touched a drawing pencil before they studied with us.

The simplicity of this method will astound you. You will be amazed at your own rapid progress. You learn by mail—yet you receive personal instruction from one of America's foremost Commercial Artists. Get into this fascinating game, NOW. You can easily qualify. A few minutes' study each day is all that is needed.

## Crying Demand for Trained Artists

Newspapers, advertising agencies, magazines, business concerns—all are looking for men and women to handle their art work. There are hundreds of vacancies right this minute! A trained commercial artist can command almost any salary he wants. Cartoonists and designers are at a premium. Dozens of our students started work at a high salary. Many earn more than the cost of the course while they are learning! YOU—with a little spare time study in your own home—can easily and quickly get one of these big-paying artists' jobs.

## No Talent Needed

This amazing method has exploded the old idea that talent is an absolute necessity in art. Just as you have learned to write, this new method teaches you to draw. We start you with straight lines, then curves. Then you learn how to put them together. Now you begin making pictures. Shad-

ing, action, perspective, and all the rest follow in their right order until you are making pictures that bring you from \$50 to \$500 or more! Some artists get as high as \$1,000 for a single drawing!

## Write for Interesting Free Book

Mail coupon now for this interesting free book "How to Become an Artist." Explains about this amazing method in detail. Tells of our students—and their wonderful progress—and how we can qualify you for a high-salaried artist's position. Also tells of our free artist's outfit and special low offer to a limited number of new students. Mail coupon NOW!

# *We Teach* **COMMERCIAL ART**

**Consider this vital point  
before enrolling in any school**

*—the Meyer Both College has 1114 students who previously have been enrolled in other art schools. Find one Meyer Both student who has ever changed from the Meyer Both College to any other art school.*

*The Meyer-Both College is the only art school operated directly in contact with and as a part of a great advertising art organization—its students are in continuous FIRST HAND touch with the pulse of the art field.*

Make sure the school you select is actually engaged in today's commercial art field—for commercial art and commercial art methods progress constantly. Make sure your contact will not be of the "proxy" or "canned" variety. Make sure of the experience and abilities of your actual instructors—and exactly how *practical* your instructions and criticisms will be. Make sure that you will be in direct touch with the faculty and personnel the school claims. Good instruction is necessary—but experienced criticism and good teaching are vital. In short make sure you will not only get what you pay for—but that you will get a foundation and co-operation that will fit you with earning power when you graduate.

The Meyer-Both College—as a department of the Meyer-Both Company (the largest Commercial Art organization in the world—who annually sell over ten thousand drawings to Advertisers in the U. S. and Canada) offers a training based upon their 20 years of success—and today's active leadership. We can refer you to merchants or newspapers in your own or nearby towns, who are *now using* our art work. Commercial Art is a highly paid, intensely, interesting vocation—equally open to men and women. The *right school* is vitally important if you would succeed. The Meyer-Both College has a definite sincerity of purpose. Our book "Your Opportunity," will be sent you for half the cost of the postage—4c in stamps. *You should read it carefully before you enroll in any school.*

**MEYER BOTH COLLEGE OF COMMERCIAL ART**

**Address Dept. 42   -   -   Chicago, Ill.**

# Don't tell me you never had a chance!

"Four years ago you and I worked at the same bench. We were *both* discontented. Remember the noon we saw the I. C. S. advertisement? That woke me up. I realized that to get ahead I needed special training, and I decided to let the I. C. S. help me. When I marked the coupon I asked you to sign with me. You said, 'Aw, forget it!'

"I made the most of my opportunity and have been climbing ever since. You had the same chance I had, but you turned it down. No, Jim, you can't expect more money until you've trained yourself to handle bigger work."

There are lots of "Jims" in the world—in stores, factories, offices, everywhere. Are *you* one of them? Wake up! Every time you see an I. C. S. coupon your chance is staring

you in the face. Don't turn it down.

Right now, thousands of men are preparing themselves for bigger jobs and better pay through I. C. S. courses.

You can join them and get in line for promotion. Mark and mail the coupon, and find out how.

**EASILY  
DONE WITH  
THE  
SHAW  
Attachment**

# Make Your Bike A Motorcycle!

Reach the end of your trip fresh and rested instead of too fagged out to enjoy your visit. Enjoy the pure air, the beautiful scenery, as you ride along instead of pumping away tread-mill fashion on your old-style bike. By using the SHAW MOTOR ATTACHMENT you can easily change your bicycle into a speedy, easy-running, light-weight motorcycle.

## Low In Price—Fits Any Bike!

The Shaw Motor Attachment is very low in price. Your old bicycle equipped with the Shaw Attachment will represent a big saving over any motorcycle of equal speed and dependability. Anyone who can use an ordinary wrench and a screw driver can fit the Shaw Attachment to any single or double bar bicycle in 30 minutes!

**The Shaw Attachment** will take you up the steep hills and through sandy and muddy roads. Its pulling power will surprise you, its speed amaze you. It sets the pace for others to follow. Every part is made of highest grade materials. The Shaw Attachment consists of the famous Shaw Super-Motor, 2½ H.P., all finished, assembled and tested, ready to be clamped to any bicycle frame. Motor is sturdily built, air cooled, of the 4-cycle type. High tension magneto and automatic lubrication. Chain drive and free engine clutch enables it to be started gradually. Under full control of the operator at all times. Control is simple, dependable and safe.

**Write for Free Book!** We want you a copy of our booklet fully describing and illustrating the Shaw Motor Attachment and Shaw Super Motorbicycle. Join the happy family of Shaw owners and you will always be a Shaw enthusiast. Motorcycling is the greatest sport in the world. Write us today. **Use the Coupon**—fill it in and mail it NOW and receive by return mail full information, prices, etc

### **The Shaw Motorbicycle**

*We also manufacture the SHAW Motorbicycle; a light-weight, super-power machine with chain drive and clutch. Dependable and economical. More miles per gallon of gas than the heavier machines. A popular low-priced light-weight motorcycle.*

# Do You Make These Mistakes *in* ENGLISH?

Does your English reveal your lack of education or does it prove that you are a person of culture and refinement? Are you handicapped in your speech and writing or does your command of English rise to meet every occasion and every situation? English is the one weapon you must use every day: Here is how you can improve it almost at once.

**M**ANY people say, "Did you hear from him to-day?" They should say, "Have you heard from him to-day?" Some people spell calendar "calender" or "calander." Still others say "between you and I," instead of "between you and me." It is astonishing how many people use "who" for "whom," and mispronounce the simplest words. Few people know whether to spell certain words with one or two "c's" or "m's" or "r's," or with "ie" or "ei," and when to use commas in order to make their meaning absolutely clear. And most people use only common words—colorless, flat, ordinary. Their speech and their letters are lifeless, monotonous, humdrum. Every time they talk or write they show themselves lacking in the essential points of English.

Every time you talk, every time you write, you show what you are. When you use the wrong word, when you mispronounce a word, when you punctuate incorrectly, when you use flat, ordinary words, you handicap yourself enormously. An unusual command of English enables you to present your ideas clearly, forcefully, convincingly. If your English is incorrect it hurts you more than you will ever know, for people are too polite to tell you about your mistakes.

## Wonderful New Invention

For the past five years Mr. Cody has been working almost day and night on the study of the problem, "How to make correct habits in speaking and writing stick in your mind." After countless experiments he finally invented a simple method by which you can acquire a better command of the English language in only 15 minutes a day. Now you can stop making the mistakes in English which have been hurting you. Mr. Cody's students have secured more improvement in five weeks than had previously been obtained by other pupils in two years!

## Learn by Habit—Not by Rules

Under old methods, rules are memorized, but correct habits are not formed. Finally the rules themselves are forgotten. The

Sherwin Cody

new Sherwin Cody method provides for the formation of correct habits by constantly calling attention only to the mistakes you make.

One of the wonderful things about Mr. Cody's course is the speed with which these habit-forming practice drills can be carried out. You can write the answers to fifty questions in 15 minutes and correct your work in 5 minutes more. The drudgery and work of copying have been ended by Mr. Cody. You concentrate always on your mistakes until it becomes "second nature" to speak and write correctly.

## Write for Free Book

A booklet explaining Mr. Cody's remarkable course is ready. If you are ever embarrassed by mistakes in grammar, spelling, pronunciation, or punctuation, if you cannot instantly command the exact words with which to express your ideas, this book will prove a revelation to you.

Write for this new free book, "How to Speak and Write Masterly English." Merely mail the coupon or a letter, or even a postal card. You can never reach your greatest possibilities until you use correct English. Write to-day for the free booklet that tells about Mr. Cody's simple invention.

# Why Some People Are Never At Ease Among Strangers

**P**EOPLE of culture can be recognized at once. They are calm, well-poised. They have a certain dignity about them, a certain calm assurance which makes people respect them. It is because they know exactly what to do and say on every occasion that they are able to mingle with the most highly cultivated people and yet be entirely at ease.

But there are some people who are never at ease among strangers. Because they do not know the right thing to do at the right time, they are awkward, self-conscious. They are afraid to accept invitations because they do not know what to wear, how to acknowledge introductions, how to make people like them. They are timid in the presence of celebrated people because they do not know when to rise and when to remain seated, when to speak and when to remain silent, when to offer one's chair and when not to. They are always uncomfortable and embarrassed when they are in the company of cultured men and women.

It is only by knowing definitely, without the slightest doubt, what to do, say, write and wear on all occasions, under all conditions, that one is able to be dignified, charming and well-poised at all times.

## How Etiquette Gives Charm and Poise

Etiquette means good manners. It means knowing what to do at the right time, what to say at the right time. It consists of certain important little laws of good conduct that have been adopted by the best circles in Europe and America, and which serve as a barrier to keep the uncultured and ill-bred out of the circles where they would be uncomfortable and embarrassed.

People with good manners, therefore, are people whose poise and dignity impress you immediately with a certain awe, a certain respect. Etiquette makes them graceful, confident. It enables them to mingle with the most cultured people and be perfectly at ease. It takes away their self-consciousness, their timidity. By knowing what is expected of them, what is the correct thing to do and

say, they become calm, dignified and well-poised—and they are welcomed and admired in the highest circles of business and society.

## Here's the Way People Judge Us

Let us pretend that we are in the drawing room and the hostess is serving tea. Numerous little questions of conduct confront us. If we know what to do we are happy, at ease. But if we do not know the correct and cultured thing to do, we are ill at ease. We know we are betraying ourselves. We know that those who are with us can tell immediately, simply by watching us and talking to us, if we are not cultured.

For instance, one must know how to eat cake correctly. Should it be taken up in the fingers or eaten with a fork? Should the napkin be entirely unfolded or should the center crease be allowed to remain? May lump sugar be taken up with the fingers?

There are other problems, too—many of them. Should the man rise when he accepts a cup of tea from the hostess? Should he thank her? Who should be served first? Is it good form to accept a second cup? What is the secret of creating conversation and making people find you pleasant and agreeable?

It is so easy to commit embarrassing blunders, so easy to do what is wrong. But etiquette tells us just what is expected of us and guards us from all humiliation and discomfort.

## Etiquette in Public

Here are some questions which will help you find out just how much you know about the etiquette that must be observed among strangers. See how many of them you can answer:

When a man and woman enter the theatre together, who walks first down the aisle? When the usher points out the seats, does the man enter first or the woman?

There is nothing that so quickly reveals one's true station and breeding than awkward, poor manners at the table. Should the knife be held in the left hand or the right? Should olives be eaten with the finger or with a fork?

### Do You Know

- how to introduce men and women correctly?
- how to word invitations, announcements, acknowledgments?
- how to register at a hotel?
- how to take leave of the hostess after an entertainment?
- how to plan home and church weddings?
- how to use table silver in the proper way?
- how to do all times, under all conditions, the cultured, correct thing?

Many embarrassing blunders can be made in a public restaurant. Should the young lady in the picture pick up the fork or leave it for the waiter to attend to? Or should one of the men pick it up?

How is lettuce eaten? What is the correct and cultured way to eat corn on the cob? Are the finger-tips of both hands placed into the finger-bowl at once, or just one at a time?

When a man walks in the street with two women, does he walk between them or next to the curb? Who enters the street car first, the man or the woman? When does a man tip his hat? On what occasions is it considered bad form for him to pay a woman's fare? May a man on any occasion hold a woman's arm when they are walking together?

Some people learn all about etiquette and correct conduct by associating with cultured people and learning what to do and say at the expense of many embarrassing blunders. But most people are now learning quickly and easily through the famous Book of Etiquette—a splendid, carefully compiled authentic guide towards correct manners on all occasions.

## The Book of Etiquette

The Book of Etiquette makes it possible for you to do, say, write and wear what is absolutely correct and in accord with the best form on every occasion—whether you are to be bridesmaid at a wedding or usher at a friend's private theatre party. It covers every-day etiquette in all its phases. There are chapters on the etiquette of engagements, weddings, dances, parties and all social entertainments. There are interesting chapters on correspondence, invitations, calls and calling cards. New chapters on the etiquette in foreign countries have been added, and there are many helpful hints to the man or woman who travels.

With the Book of Etiquette to refer to, there can be no mistakes, no embarrass-

ment. One knows exactly what is correct and what is incorrect. And by knowing so definitely that one is perfect in the art of etiquette, a confident poise is developed which enables one to appear in the most elaborate drawing-room, among the most brilliant and highly cultured people without feeling the least bit ill at ease.

## Send No Money

To enable every one, everywhere to examine the famous Book of Etiquette without obligation, we make this special offer to send the complete two-volume set free for 5 days to any one requesting it. Entirely free—no money in advance. All that is necessary is your name and address on the coupon below, and the Book of Etiquette will be sent to you at once at our expense. You have the privilege of examining it, reading it, and deciding for yourself whether or not you want to keep it.

Send for the Book of Etiquette to-day. Read some of the interesting chapters. Surprise your friends and acquaintances with your knowledge of what to do, say, write and wear on all occasions. And when you have been fully convinced that etiquette widens your circle of friends, makes you admired and respected, increases your knowledge of society and its requirements, gives you poise, self-confidence and charm—keep the set and send us \$3.50 in full payment. But if you are not utterly delighted after the five-day free trial, simply return the books, and you won't be out a cent.

The Book of Etiquette is published in handsome cloth binding, decorated in gold. Send for your set to-day. Just the coupon, remember—no money. But get your coupon off NOW. Nelson Doubleday, Inc., Dept. 8323, Garden City, N. Y.

## NELSON DOUBLEDAY, Inc.

Dept. 8323, Garden City, New York

# I Want 235 Salesmen Who Want to Earn at Least \$5000 a Year

Mr. B. M. Oliver, President of the Oliver Oil-Gas Burner & Machine Company

**K**NOWING that this publication is read by the progressive type of men, I take this means to "tell the world" that I want to get in touch with some live-wire fellows—I am not looking for supermen—just fellows who have confidence in themselves—and particularly the ones who want to make real money; say about \$5,000 a year or more.

Right on my desk here I've got a letter from F. W. Bentley of Philadelphia, telling how he made \$215 in one day—and one from A. M. Russell of Hartford, Conn., who made \$660 in one month. I have scores of other similar letters in my files—from R. Berger of Ontario, who makes \$250 a week; from J. Carnegie of South Dakota, telling how he is making \$1,000 a month; from W. Drew of Michigan who makes \$85 a day. There is no reason under the sun why you should not make a minimum of \$100 a week right from the start.

I want you to be the representative of the famous OLIVER OIL-GAS BURNER—an invention that instantly turns any cook-stove, heating-stove or furnace into an oil-gas stove, giving an even oil-gas fire—an intense clean flame—in any stove or furnace at the turn of a valve, with three times the heat of coal and wood and none of the bother or dirt.

## Every Home Wants This New Invention

The Oliver Oil-Gas Burner does away with coal and wood. Banishes all worry about strikes, scarcity and high prices. Turns any range, furnace or stove into an oil-gas stove. 16 different models. Burns 5 per cent. kerosene (coal oil) and 95 per cent air. Think of the appeal you can make in every community. Cheaper than coal, wood or gas. Absolutely safe, and always dependable.

Does away with drudgery—no fires to make, no ashes, dirt, smoke, chopping, carrying coal and wood. Easy to install.

Doesn't change stove. Protects health from exposure and uneven heat. Easy to demonstrate—slips in any stove in one minute. Show any woman what it will do and the sale is made.

## AND THE OLIVER IS AN ALL-SEASON SELLER

In Winter the Oliver gives three times the heat of coal or wood and does away with the worry about their exor-

bitant prices, poor quality, dirt and muss." In changeable Spring and Fall the Oliver also sells big because it offers immediate heat at turn of valve—without the need of keeping a fire going just to meet the needs of chilly days. In Summer the Oliver does away with the labor and drudgery of a sweltering kitchen.

No wonder the Oliver brings salesmen big profits in every season.

# This Proposition Brings Some Men \$1,000 a Month

These men know a good thing when they see it and they know that the time is ripe for this new Oliver Improved Oil-Gas Burner. They know that this age of high-priced coal and wood makes it necessary for some substitute. They see ships and locomotives being run by oil, and big buildings being heated by it. And they know that an invention that makes effective use of this cheap fuel for every home is the thing they want to tie up to. You too can use this secret of big money. You do not need to be a high-powered salesman. The Oliver's amazing features sell it for you. When people see it they know at once that it is the thing they want. You will realize that this is a proposition that will pay you as big money as it does others. We have a definite number of open territories which we are ready to dispose of. Every territory allotted is filled with big-money opportunities. And this big money comes easily. Because not only does this invention practically sell itself on sight but when you have sold one this one will sell several others as soon as your customer's friends and neighbors see it. And thru our special plan you get credit and commissions for every sale in your territory.

## Coupon Brings Full Offer

Mail this coupon now for my offer. We are not making any extravagant claims about this. We do not have to. We believe that your common sense will indicate a good proposition to you when you know about it. We want to give you the facts. Won't you write us? And by doing so promptly you will be allotted an exclusive territory with private selling rights. You can use either spare or full time. Many are making fine money in their spare moments.

The coupon will bring you the facts and will save you writing a letter. But mail the coupon now.

## WEST SOAPARATUS GRAVITY BATTERY TYPE

is the ultimate development in liquid soap dispensing systems for heavy service demands, where a large number of people must be supplied without interruption.

Pure, cocoanut oil liquid soap conveyed by gravity from a supply tank mounted on the wall, through a feed pipe extending the entire length of the row of washstands, to taps equipped with Soaparatus Valves, centred over each basin.

An exclusive feature of the Soaparatus Valve is the reservoir chamber, located in the dome, which controls the amount of soap delivered into the hand when the plunger is pushed. The reservoir is automatically refilled by the action of the plunger in resuming position.

*The Valve  
with  
the Dome*

*The Valve  
with  
the Dome*

The Soaparatus keeps pace with the latest developments in plumbing appliances and washroom appointments. Where absolutely sanitary conditions are required with a desire to create an atmosphere of tone, the Soaparatus becomes an essential feature, worthy of the high consideration it deserves.

That the Soaparatus assumes a place of deservedly high rank as an important modernizing factor in the up-to-date washroom is evidenced by the rapidity with which it has been adopted by most of the leading Hotels, Theatres, Banks, Office Buildings and Factories.

# The Child Who Won The Hearts of All

*A true life-story showing how a woman successfully dealt with the responsibilities of motherhood and brought up a child whom every one admired*

A BEAUTIFUL and wonderful experience it was to see the growing-up of little Judith. The pink, chubby tot with her gurgles and soft coos of delight tugged at the heartstrings of every one who saw her. As babyhood grew into girlhood, the blossoming forth was a joy to behold. All the lovable traits and good qualities, which parents hope their children will have, seemed to be combined in little Judith.

The joy of it all was that the mother's friends were as completely captivated by the charms of Judith as was the mother herself. For whenever these friends met their first remark would always be, "Have you seen Judith lately?—Isn't she the most adorable child!"—and "Oh, how I envy Mrs. Garrison!—A wonderful mother and a wonderful child!"

One bright, sunshiny day, while taking my morning walk in the park, I found Judith and her mother playing hide-and-seek. Judith's mother and I were old friends. We sat down on the grass together for a visit—and Judith played around.

Of course, we talked about the child, for I loved her almost as much as her mother did. As I watched this remarkable child playing I thought of the tremendous responsibility of the mother. I asked her how she had met it. And this is what she told me:

"When Judith was born, my first feeling was one of utter helplessness. I knew nothing about caring for a child. I was afraid—afraid that I might do the wrong thing. I wondered if other mothers had felt that same haunting fear for their child's welfare. And even though Judith thrived under my care, I never could quite shake off the feeling that I might do the wrong thing.

"Never shall I forget the day when my helplessness overwhelmed me complete-

ly. Judith was about 2½ years old—just old enough to begin to play, to notice things and to ask questions.

"I had corrected her for striking me in the face with a ball. Then I went to get the ball and had my back to her for a moment. As I turned around with the ball, I saw something that nearly broke my heart! There was Judith, in an attitude of defiance, making a face at me!

"For a moment I couldn't move nor speak. Was it possible that Judith didn't love me and had lost confidence in me?

"For days I struggled with the problem, haunted by the fear that my child didn't love me. Then I realized that something had to be done, and done quickly. So I went to my friends and asked frankly for advice. If I had followed all that advice I shudder to think of what might have happened to Judith!

## Would You Like to Know How—

to obtain cheerful obedience always?

to correct mistakes of early training?

to keep child from crying?

to suppress temper in children without punishment?

to succeed with child of any age without display of authority?

to discourage the "Why" habit in regard to commands?

to prevent quarreling and fighting?

to cure impertinence? Disrespect? Sauciness?

to teach unselfishness? Carefulness? Fairness?

to teach child self-control?

to cure a child of the habit of whining?

to keep a boy at home in the evening?

to cure a child of saying, "I don't want to"?

to teach a child to go willingly to bed?

to treat a child who laughs at commands?

to overcome obstinacy?

to cultivate mental concentration?

to teach honesty and truthfulness?

These are only a few of many questions explained in a way that makes application of the principles involved easy.

mother." Never was a greater truth uttered than this, for the course of one's whole life is shaped in childhood.

There is no greater responsibility in the world than that of being a parent. A child is what its parents make it. Heredity, environment and education all count, it's true. But all these points are as nothing compared with the right training in a child's tender and flexible years.

To love and cherish one's children is the joy of parenthood. But something more than love is due a child. And this is the right training—training that will not only give health and brightness, but will equip the child to become a power in the world.

The Parents' Association is an organization devoted to scientific child training which has over 30,000 members in twenty-one countries. It was founded by Ray C. Beery, A. B. M. A. (Harvard and Columbia), after years of scientific research and practical experience in child training. President Beery is regarded by those who know his work as one of the greatest authorities in child culture. No man has better knowledge of human nature or a more sympathetic understanding of children.

And now—through The Parents' Association—for the first time there is a scientific method in child training, founded on the principle that confidence is the basis of control. This new system shows you how in your

"By good fortune I learned of The Parents' Association, formed for the purpose of giving the very information I was seeking. I was astounded! They told me all the things I'd been puzzling over, and lots of surprising things. I'd never even thought of.

"These revelations gave me a most wonderful feeling of confidence. I learned how to control Judith—to break naughty little habits just taking root, and to nourish the sweet ways which every one loved. And then—but there's no need to go in to details, for you can see what it has done. I give The Parents' Association full credit."

The heart of every mother thrills with pride when she hears some whole-souled, notable man proudly stand up and say, as Lincoln said, "All that I am and that I hope to be I owe to my

own home to correct the cause of disobedience, wilfulness, untruthfulness and other dangerous habits which, if not properly remedied, lead to dire consequences. - The trouble in most cases now is that children are punished or scolded for what they do. The new method removes the cause—not by punishment or scolding but by confidence and co-operation along lines which are amazingly easy for any parent to instantly apply. This new system, which has been put into the form of an illustrated Course, prepared especially for the busy parent, is producing remarkable and immediate results for the thousands of parents in all parts of the world. It is also endorsed by leading educators. It covers all ages from cradle to eighteen years. Through this course avenues of knowledge which will astound you are opened up. Things which have worried you will become as clear as day. You will be amazed at the tremendous possibilities of child training. And best of all you can get this vital information immediately. You will marvel at the remarkable and instant results.

For in these lessons you will find definite suggestions for securing results with children of all ages, from babyhood to maturity, as a glimpse at the contents will tell you. Here are a few of the subjects dealt with: Understanding your children; Fundamentals in child training; How to procure obedience; Common mistakes—how to avoid them; The right and wrong way of punishment; How to be a successful parent, etc., etc.

If your child disobeys, you can turn to these lessons and you will learn just how to secure willing and immediate obedience, for President Beery cites exactly the steps to take by telling just how other mothers have, through his methods, solved the very same problem.

And in the same way by actual illustrations he shows how to overcome, almost instantly, selfishness, boastfulness, shyness, cowardice, deceitfulness—all practically without punishment.

## FREE BOOK

"New Methods in Child Training" is the title of a startling booklet which describes this new system and outlines the work of The Parents' Association. The coupon below will bring you this booklet—without cost or obligation.

Simply to send your request may mean so much to you in pointing the way to a new and wonderful success in training your children that you will be prompted to take advantage of this opportunity at once. Surely you owe it to your children's welfare and happiness to investigate, especially since there is no expense or obligation whatever involved. It is only a matter of sending the coupon or a post card. May we suggest that you do this now while the matter is before

# DRESSMAKING

## LEARN AT HOME NEW, EASY METHOD

**B**Y a new, wonderfully simple and practical method, you can now learn right at home in spare time to make all your own and your children's clothes. You can save half or more of what you are now spending or you can have twice, yes, three times, as many garments for what your clothes now cost you.

Or you can prepare yourself to take up dressmaking as a profession. The demand for dressmakers is greater than the supply. Hundreds are making \$25 to \$40 a week.

This opportunity is made possible through the home-study course in Dressmaking now being offered by the Woman's Institute.

You learn by simple, fascinating methods how to design perfect fitting patterns from your own or any other woman's measurements; how to use tissue paper patterns; how to plan and make garments of every kind—blouses, skirts, dresses, suits, coats, lingerie, children's and infants' clothes; how to buy and use materials; how to renovate and remodel; how to copy dresses and suits you see on the street, in the shops or pictured in fashion magazines; how to do all kinds of embroidery and fancy work; how to dress in style and taste; how to go into business as a dressmaker.

You study at home in spare time and apply each lesson immediately in making your own clothes. You have the personal help by mail of expert teachers with years of experience as successful practical dressmakers.

### Learn Millinery, Too!

The Woman's Institute also offers a complete course in Millinery that will qualify you to make all your own hats, or open a shop of your own.

The Woman's Institute is ready to help you, no matter where you live or what your circumstances or your needs. And it costs you absolutely nothing to find out what it can do for you. Just send a letter, post card, or the convenient coupon below to the Woman's Institute, Dept. 7023, Scranton, Penna., and you will receive, without obligation, the full story of this great school that is bringing to women and girls all over the world the happiness of having dainty, becoming clothes and hats, savings almost too good to be true, and the joy of being independent in a successful business.

# LEARN GREGG SHORTHAND

## FOR SPEED, ACCURACY AND SUCCESS

**Fresh Proof**

**of the  
Efficiency**

**of**

**GREGG SHORTHAND**

in the remarkable achievements of Gregg writers in the 1922 National Shorthand Reporters' Association Speed Contests at New London, Connecticut, where

Twenty-four out of a total of forty-nine qualifying transcripts were made by writers of Gregg Shorthand.

**Charles L. Swem**

Mr. Swem, for eight years official reporter and personal stenographer to President Wilson, broke all previous world's records by making a net speed of 279 words a minute on high-speed court matter, dictated at 281 words a minute. This he achieved despite the fact that he is entirely without court-reporting experience and although he has been out of the contests for ten years. He won second place in the Championship contest with an accuracy rating of 98.65%, and in the 220 straight literary matter test exceeded the previous record by writing 218 words a minute.

**Louis A. Leslie**

Mr. Leslie was 1922 Winner in the World's Amateur Championship contest, his accuracy record standing at 99.1%. Mr. Leslie had never before participated in a speed contest.

**Martin J. Dupraw**

Mr. Dupraw, a sixteen-year-old graduate of the New York High School of Commerce, astonished the judges by winning, handily, speed certificates at 150, 175 and 200 words a minute.

**Albert Schneider**

Mr. Schneider, who won the 1921 World's Championship contest, defeating three former world's champions and performing the greatest feat ever achieved in a championship contest—transcribing five of the highest speed dictations, from 175 to 280 words a minute, in the time allotted for the three championship dictations—was a close runner-up to Mr. Swem in the 1922 contest. His accuracy record on speeds of 200, 240 and 280 words a minute was 98.36%. Mr. Schneider was world's champion before he was twenty years of age.

**To Begin to STUDY Gregg Shorthand Is to Begin to WRITE It.**

Gregg Shorthand is scientifically correct. Therefore it is easy of mastery and lends itself quickly to proficiency of performance. It does away with the memorizing of bewildering hieroglyphics and the tedious study of intricate rules. It is based on

Taught in the high schools of 89% of the cities and towns in the United States where shorthand is taught

long-hand writing and is therefore a saver of time. It "comes naturally." YOU can become a master speed, writer with surprising ease. For the surest guarantee of speed, accuracy and a successful stenographic career,

**Insist on Learning Gregg Shorthand**

**THE GREGG PUBLISHING COMPANY**

New York Chicago Boston San Francisco London

Taught also in over 100 private, parochial and public schools in the Metropolitan District.

# What IS a BUDGET Anyhow?

You may get \$500  
out of keeping this  
budget book  
Now read our Ad. Story

This one is a "Silent Partner"  
It Helps you to save and HAVE!

THIS IS A PLAN  
Not merely a BOOK!  
it's an aid to SAVING—  
a SILENT PARTNER—  
it's the friend in need who  
HAS that \$5 or \$10 when  
you don't know WHERE  
to turn for it

It is  
a way to  
**S-A-V-E**

HOW would you like to have a Silent Partner from whom you could borrow the "much-needed-Five-or-Ten-Dollars" that is so hard to get, sometimes, when you need it MOST? Of course you'd like to have one! And here it is! Here is the Housewife's Silent Partner—the "friend-in-need."

## "The Menter Plan of HOME BUDGETS"

- Not merely a book, but a complete PLAN;
- Not just ADVICE, but HOW to make ends meet;
- Not a course in bookkeeping, but a CAREFULLY STUDIED OUT, consistent plan, which is the basis of HOW to save money, and HOW to save something to show for your INCOME at the end of the year (just as a business shows a dividend on ITS INCOME, when the business is properly managed).

This HOME BUDGET \*BOOK has been prepared to show you How to find out where the leaks in your use of your household money occur—so that you can decide HOW to stop them.

This book is a HOW BOOK—not a book of advice and wise sayings, but a complete plan which pays you in your business of homemaking, the same dividends that efficiency, applied to business, has paid to many corporations.

You can HAVE this Silent Partner working with you—helping you to avoid WORRY, helping you to HAVE something to "fall back on."

ORDER your copy of THIS Housewife's Silent Partner, to-day!

It is mighty helpful, too, for single men and women, who do not seem to be able to save anything.

It is a genuine FIRST AID to enjoying your INCOME.

It is PRACTICAL THRIFT demonstrated!

The sooner you get yours—the sooner you'll have a Savings Account.

# MENTER

ROOM 1426, 467 7TH AVE., NEW YORK CITY  
Teachers of Practical Thrift in Forty Cities in the U. S. A.

\*NOTE—A BUDGET is simply a PLAN which regulates the spending and saving of your INCOME, so that you can control your OUTGO and live on less than your EARNINGS. It helps you to accumulate money and open a savings account.  
Copyright L.-jr., for Menter Co., 1922.

No. 204-L-jr-22

## A NEW Way to Save:—

— this Home **CASH REGISTER** for 50c

Here's what every housewife *wants*—a way to have money for everyday necessities, and to budget household expense without a lot of bookkeeping.

### Susie Savit's Put and Take **CASH REGISTER** for the Home

It's very simple. When you get your weekly allowance you put 10c out of each \$1 in No. 1 **SAVINGS**.

You put whatever one-quarter of your month's rent amounts to in No. 2. In No. 3 you put the money for the Baker—Butcher—Iceman, etc.

And in No. 4 you put 16c of each dollar to be applied to your dressing account.

In No. 5 you put 5 cents of each dollar each week to be used when you need a Doctor or Dentist or when you need anything from the Druggist. And so on.

This is the way to keep accounts without being an accountant.

Order yours to-day, price \$.50 postpaid — two for a dollar. Send money order, silver or stamps.

If it's not worth the price to you after you've used it for thirty days — mail it back and I'll return your \$.50.

If you send a dollar for two, Susie Savit will send you a chart that has helped over 20,000 housewives open savings accounts. The chart alone costs \$.50, so that you get \$1.50 for \$1.00 if you send your order now.

Address **SUSIE SAVIT**

Suite—1421

469 Seventh Avenue, New York City

This is only a rough idea of it, full size is 4 inches wide by 9 inches long. Substantially made, guaranteed to give at least one year's service.

## “He’s Patented Four Inventions”

**F**UNNY thing, too. . . . When he first came here he was just an ordinary worker. For a time, when things were slack, I even thought that we might have to let him go.

“Then, gradually, I noticed an improvement in his work. He seemed to really understand what he was doing.

“One day he came into my office and said he had worked out a new arm for the automatic feeder. I was a little skeptical at first, but when he started explaining to me, I could see that he had really discovered something. And when I started questioning him, I was amazed. He certainly did know what he was talking about.

“So we sat down and talked for over an hour. Finally, I asked him where he had learned so much about his work. He smiled and took a little book from his pocket,

“‘There’s no secret about it,’ he said. ‘The answer’s right here. Four months ago I saw one of those advertisements of the International Correspondence Schools. I had been seeing them for years, but this time something inside of me said, *Send in that coupon*. It was the best move I ever made—I knew it the minute I started my first lesson. Before, I had been working in a sort of mental fog—just an automatic part of the machine in front of me. But the I. C. S. taught me to really understand what I was doing.’

“Well, that was just a start. Three times since he has come to me with improvements on our machines—improvements that are being adopted in other plants and on which he receives a royalty. He is certainly a splendid example of the practical value of I. C. S. training.”

Note the word *practical*. No one word describes the courses of the International Correspondence Schools better than that.

For the lessons and textbooks take up problems that you meet every day in your work. And every lesson is so fully illustrated and is written in such plain, simple language that you just can’t help understand.

Just fill out and mail the coupon printed below and, without cost or obligation, get the full story of what the I. C. S. can do for you. Today—not Tomorrow—is the day to take that first step toward Success.

# Are You Planting the Seeds of Success?

How much of your income are you regularly setting aside in readiness for the proverbial "rainy day"?

Are you among those who are putting off the preparation for their future because of present inconvenience?

## Save Systematically

One of the most profitable ways to save is to invest in high grade securities with attractive income returns.

The opportunities to buy this type of security have, because of the small purchasing power of the majority, been confined to a few commonly known as capitalists.

## The Monthly Instalment Plan

makes it possible for a person of restricted buying power to participate in the profitable purchases that can be made. This plan is also used by investors of ample means enabling them to secure greater holdings than they otherwise could.

## A Descriptive Booklet

of our "Monthly Instalment Plan" will be sent to you with our compliments if you are interested in saving money by means of careful investing.

*This Coupon Is for  
Your Convenience*

# BE A BIG MAN'S RIGHT HAND

## Business Executives Everywhere Calling for Private Secretaries— *Men and Women*

Nothing scarcer in the business world to-day than the competent private secretary. Hundreds of opportunities open, but few who can meet the speed and accuracy requirements of the high-pressure executive. More than anything else, the busy business man demands of a private secretary speed and accuracy in shorthand and typewriting! The executive of to-day works fast, but surely. He wants the man or woman who is exceptionally fast and certain in shorthand and typewriting. And he is more than willing to pay the price.

## Train by Mail in the "New Way"

### In Typewriting or Shorthand or Both

No matter how good you are in shorthand, you can never expect the high-salaried position until you get speed—real speed—on the typewriter. Take Tulloss Course in Speed Typewriting and be able to write 80 to 100 words a minute—with accuracy! 10 easy lessons by mail—and marvelous speed is yours!

If you are not a stenographer, here's your chance to get into this lucrative profession. Take the Tulloss "New Way" course in Stenography (both Shorthand and Typewriting). Train at home, after work or after school. Only about half the usual cost, yet you become a far better stenographer—one who can start right in at a big salary instead of at the usual beginner's salary.

## Typewrite 80 to 100 Words a Minute—10 Easy Lessons

You can typewrite 80 to 100 words a minute the Tulloss "New Way." And with this speed goes Accuracy and Ease of Operation. Clean, correct work. No fatigue as in typewriting the "old way," 10 easy lessons—by mail.

## Free Book!

Write today for this free book—"How to be a Big Man's Right Hand." Tells how business men choose their private secretaries and what they pay them, etc. Also explains in full the "New Way" in typewriting and shorthand. Mark the coupon for free book, indicating also the particular Tulloss course in which you are interested. Mail coupon.

# BROMO-SELTZER

## FOR HEADACHES

# How Applied Psychology

(“Organized Common Sense”)

## Will Increase Your Earnings

Another man started even with you in life, no richer, no more talented, no more ambitious. But in the years that have passed he has somehow managed to move far ahead. What is the secret of it? Why should he, apparently, have the power to get so easily the things he wants while you must work so hard for all that comes to you?

Another woman, madam, no more able than yourself, has the good gifts of life fairly thrust into her hands. You have compared yourself to her and questioned what there is in her character and talents that you somehow lack.

### Learn the Reason From Science

Scientists have found the secret. They can show you how you, too, can obtain the better things of life. How you can arouse the hidden powers of your mind and make them bring you more influence, a larger income, greater happiness.

Human intelligence acts and reacts according to certain laws known as the

laws of Psychology—“organized common sense.” Either by instinct or by study some individuals master these laws. To them the minds of their associates become like fine instruments on which they can play at will. They have but to set the train of circumstances moving and await results, in other words—they apply Psychology.

### No Longer the Dream of Theorists

To-day we see Psychology studied by the business man and its principles applied to the management of factory and office. We see men in every profession, as well as those in many lines of industry and business, applying Psychology

to their personal occupations, and from the benefits derived from it greatly increasing their incomes, enlarging the scope of their activities, rising to higher positions of responsibility, influence and power.

### Psychology the Direct Method for Success

Recognizing the need for a popular understanding of its priceless truths, an organization was founded by Mr. Warren Hilton some years ago to coordinate the principles of Psychology and apply them to every-day life—thus the Society of Applied Psychology came into being. Among the members of the Advisory Board, who also contribute to the Society's literature, are such well-known men as Henry A. Buchtel, D.D., LL.D., Chancellor, University of Denver, former

Governor of Colorado; Hudson Maxim, D.Sc., Inventor and Mechanical Engineer; George Van Ness Dearborn, M.D., Ph.D., Psychologist and Author; Harry S. Tipper, Chairman, National Educational Committee, Associated Advertising Clubs of the World, and others.

Because of the very great value of the Society's Basic Course of Reading to the average man and woman, *The Literary Digest* is cooperating to bring it within the means of every earnest seeker for self-betterment.

## FREE—“How to Develop Your Power of Achievement”

A compelling booklet packed with information on such topics as: Psychology reduced to easy, simple language; How to Apply Psychology in Salesmanship; In Public Speaking; In Retail Selling—Psychology Applied by the Professional Man—Your Undiscovered Resources—Source of Will Power—How to Avoid Worry—How Ideas are Created—The Ability to Read Men,—etc. Sign and mail coupon and you will receive full particulars of the Society of Applied Psychology, and what membership in it will mean to you.

## BALL PUBLISHING CO.

Box A Rochester, N. Y.

Can YOU help supply the demand for fresh, interesting, true-to-life screen stories? Don't think that you must be a genius to win success. Neither is it necessary to waste valuable time and money studying tedious, tiresome correspondence courses or "lessons." The real foundation of the photodrama is the plot or "idea" upon which it is built. Put YOUR idea on paper and send it to us immediately. Our Scenario Editor will offer to arrange it for you in proper form should he believe that your subject has merit. Producers eagerly read, and gladly purchase at substantial figures, work that appeals to them as being meritorious.

## How Much Is Your Imagination Worth?

Who knows but some incident in your own life or that of a friend—some moving, gripping story of love, hate, passion or revenge, may prove to be the lever with which you will lift yourself to heights of unthought-of success and prosperity. Nearly everyone has at some time thrilled to a great human emotion—some tremendous soul-trying ordeal or experience. It is these really human stories of the masses that the producers want and will pay for liberally. Send us at once YOUR idea of what a good screen story should be. You can write it in any form you wish and our Scenario Editor will carefully examine it and advise you promptly of his opinion as to its merits and how we can help you. **THIS COSTS YOU NOTHING!** Certainly you owe it to yourself to TRY.

## Free Interesting Booklet

Probably there are countless questions regarding the lucrative and fascinating profession of photoplay-writing that you would like answered.

Most of the points which would naturally arise in your mind are answered fully in our interesting booklet, "THE PHOTOPLAY in the Making." It contains a gold mine of information and over fifty thousand aspiring writers have already received a copy. Send for YOUR copy at once. It is entirely free and there are no "strings" to the offer. If you

have a story ready, send it to us, together with your request for the booklet.

# CUT YOUR OWN HAIR EASIER THAN SHAVING

YOU CAN'T GO WRONG WITH THE DUPLEX—  
THE SLANTING TEETH WON'T LET YOU

COMFORT SPEED  
ECONOMY  
AGENTS WANTED

You do not need any experience or practice to use the Duplex Automatic Hair Cutter. It comes to you ready for instant use, and five minutes after you receive it you can have your hair cut better than it was ever cut before.

The Duplex will cut as closely or trim as long as you wish it to. No clippers or scissors are needed with the Duplex; it finishes the work completely. It cuts the front hair long and the back hair short. Trims around the ears, etc.

Inside of a very short time you will have to pay \$2.00 for the Duplex. The price today is \$2.00, but while our present stock lasts we will accept this advertisement the same as \$1.00 cash. Cut it out and send it with ONLY \$1.00 and we will send you the Duplex Automatic Hair Cutter, ready for instant use, postage paid, to any address. SEND TODAY.

# Earn \$35 to \$100 a week Making Drawings like these

## Drawing Outfit Furnished **FREE**

You need no artistic talent or "pull." In a few months with our help you can be alongside the best of them, earning enough money to live on and to lay some aside.—Here's how.

### Learn Mechanical Drawing

That means Real Money for you. Shorter Hours, Quick Promotion. The opportunities for success in Mechanical Drawing today are big as compared with other fields. Mechanical Drawing or Drafting is specialized knowledge. It is power to success.

### Attractive Salaries

\$35 to \$55 a week is only a beginning. \$100 a week and up are within the possibilities of your grasp as a practical Mechanical Draftsman.

### Quick Promotion

Your efforts are rewarded. You can climb up and up in salary and position—from Draftsman to Chief Draftsman—to Chief Engineer—to Production Manager—and so on up. Offers a chance to make big money on the side in your spare time, in addition to your regular salary. Then, when the opportunity comes, you can go into business for yourself, as many others have done.

### Permanent Employment.

You won't have to stand around looking for a job. Properly trained draftsmen are always in demand. Railroads, Manufacturing Plants, Electrical Works, Engineering and Construction Houses and United States Government Departments always need trained draftsmen. Even when men in other lines

of work are without positions, the draftsman is usually on the job at good pay.

### Get the Right Training

"Columbia" training is simple and sure, yet complete and practical. By Roy C. Claflin's improved "Columbia" method of practical, Mechanical Drawing you can become a master Mechanical Draftsman in a few months of pleasant, easy home study, under Mr. Claflin's personal supervision. No troublesome, fancy theories—no difficult mathematics to master—just the plain, common sense brass tacks of Drafting. And after that, if you want it, you receive training in a specialized branch of drafting through your choice of one of our post-graduate courses.

### "Columbia" Draftsmen Are in Demand

The largest concerns in the country, including the United States Government, employ Columbia trained draftsmen. Openings for draftsmen in Government Departments carry starting salaries ranging from \$5.20 to \$15.04 per day—and it is generally recognized that salaries outside of Government service are still higher.

### FREE BOOK

Send in this coupon today. Immediately upon receipt of it we will send you our illustrated book, "Your Future in Drafting." It tells you all about our new method of teaching Mechanical Drawing and gives full details of our offer.

# Salesmanship and Business Efficiency

(Revised Edition)

By J. S. KNOX

This book gives you the bed-rock fundamentals of personal power, leadership, selling strategy and management. Nearly 200,000 copies have been sold in the United States and nineteen other countries. More copies have been sold to great business concerns for their employees than any business or salesmanship book ever written.

## WHAT THEY SAY:

"Salesmanship and Business Efficiency" was worth one thousand dollars in cold cash to me the first year after I got it."

O. SALISBURY, Sales Manager,  
Pennsylvania Consumers Oil Co.  
Council Bluffs, Iowa.

"Hundreds of Hoover salesmen throughout this country, Canada and Great Britain have studied your old edition, which was the best we were able to find. The revised edition is even better."

M. L. PIERCE, Promotion Manager,  
Hoover Suction Sweeper Co.,  
Canton, Ohio.

This revised edition has thirty-four marvellous charts worth ten times the price of the book.

407 pages, beautifully bound, prepaid \$2.50.

Knox Business Book Company  
Cleveland, Ohio

## HOW THEY BUY:

|                              |       |
|------------------------------|-------|
| R. C. Barnum Co.....         | 7,500 |
| F. B. Dickerson Co.....      | 4,000 |
| Baldwin Publishing Co.....   | 4,000 |
| Better Farming Association.. | 3,500 |
| Fuller Brush Company.....    | 3,360 |
| Imperial Company.....        | 3,000 |
| The Midland Press.....       | 1,411 |
| S. F. Baker Company.....     | 988   |
| Review & Herald Pub. Co...   | 872   |
| Hoover Suction Sweeper Co... | 828   |
| S. A. Mulligan Company....   | 612   |
| J. C. Penney Company.....    | 350   |
| John A. Hertle Co.....       | 300   |

The above books were bought by these concerns to be used in training their own salesmen.

## KNOX BUSINESS BOOK COMPANY, Cleveland, Ohio.

Enclosed you will find \$2.50 for one copy of "Salesmanship and Business Efficiency." If after five days I am not satisfied, I will return the book for refund.

# STUDY BIBLE NOW!

## Better Than College Course

Former President Roosevelt

the Bible—better than any oral teaching can possibly be. More than 7,000 persons of 40 different occupations are now enrolled in one or more of the

William Lyon Phelps, A.M., Ph.D., professor of English language and literature, Yale University, says:

*"I thoroughly believe in a university education for both men and women; but I believe a knowledge of the Bible without a college course is more valuable than a college course without the Bible."*

*"Every one who has a thorough knowledge of the Bible may truly be called educated; and no other learning or culture, no matter how extensive or elegant, can form a proper substitute."*

And former President Roosevelt said:

*"To every man who faces life with real desire to do his part in everything, I appeal for a study of the Bible. No book of any kind ever written has so affected the whole life of a people."*

The Correspondence method of Bible study is the best method for securing a thorough knowledge of the Bible.

## MOODY BIBLE INSTITUTE'S CORRESPONDENCE COURSES

studying the inspired Revelation under the direction of eminent, Spirit-filled, Bible scholars. To really know the Bible is an education out of which springs the fullest and best development of one's powers in any vocation. This marvellous book has moulded earth's loftiest characters. It meets man's deepest needs. It charts the only path to real and lasting success. Dig in it as for gold and you will secure treasure of value and extent beyond any calculation. Letters of warmest appreciation are constantly received from students and graduates. For example:

*"It has never been my privilege to be fascinated with Bible study as I am with this course."*

*"I have come to know the Bible in an entirely new light. The Old Testament is now intensely interesting."*

*"The benefits I have received from the Synthetic Course are beyond estimate and above price."*

No matter what your occupation you can study the Bible by correspondence. These courses open a new world to you—broaden your vision, develop your understanding, answer your questions, help solve your perplexities, give comfort and encouragement.

### WE OFFER EIGHT COURSES BY MAIL

Synthetic Bible Study; Scofield Bible Course; Practical Christian Work; Bible Doctrine; Bible Chapter Summary; Introductory Bible Course; Evangelism; Christian Evidences.

**THE MOODY BIBLE INSTITUTE**  
Dept. 507B, 153 Institute Place  
CHICAGO, ILLINOIS

*"I finished the Scofield Bible Course about three years ago. It has been of greater value to me than any other training I have ever had, though I spent four years in college."*

A Clergyman says: *"I often mention in my sermons that a Correspondence Course from the Moody Bible Institute has been of far greater value to me than all of my Bible and theological work in college."*

**Enroll Now!** You will be a personal pupil study under your own control. The prices are very low—these courses are not sold for profit. There is no better time to start than NOW. Send the coupon at once for Free Prospectus describing our eight Courses in detail.

## YOU HAVE A BEAUTIFUL FACE BUT YOUR NOSE ?

BEFORE

AFTER

**I**N THIS DAY and AGE attention to your appearance is an absolute necessity if you expect to make the most out of life. Not only should you wish to appear as attractive as possible, for your own self-satisfaction, which is alone well worth your efforts, but you will find the world in general judging you greatly, if not wholly, by your "looks," therefore, it pays to "look your best" at all times. Permit no one to see you looking otherwise; it will injure your

welfare! Upon the impression you constantly make rests the failure or success of your life. Which is to be your ultimate destiny? My latest Nose-Shaper, "TRADOS MODEL 25", U. S. Patent, with six adjustable pressure regulators and made of light polished metal, corrects now ill-shaped noses without operation, quickly, safely and permanently. Diseased cases excepted. Does not interfere with one's work, being worn at night.

Write today for free booklet, which tells you how to correct ill-shaped noses without cost if not satisfactory.

**M. TRILETY, Face Specialist, 1775 Ackerman Bldg., Binghamton, N. Y.**  
Also For Sale at Riker-Hegeman, Liggett's, and other First Class Drug Stores.

Catalog

## Mulcher and Seeder

A mulcher, smoothing harrow, cultivator, weeder and seeder—all in one. Forms dust mulch—a blanket of loose soil—preventing soil hardening and moisture escaping. Increases yield of corn, potatoes, oats, wheat, etc. Kills weeds. Has flat teeth, especially adapted to form mulch. Lever and pressure spring control depth of teeth. Sold with or without seeding boxes for grass seed, alfalfa, oats, etc. Teeth cover the seed. Adapted for a large variety of work. Three sizes, 8, 10 and 12 feet. Shipment from branch near you.

# Eureka

## POTATO DIGGER

Gets all the potatoes

### Result of 19 Years' Digger experience

A companion implement of the famous Eureka Potato Planter—made in same factory. Large wheels and main gears supply ample power. Largely malleable and steel, avoiding frequent breakage and lost time. High clearance under truck arch and over shovel prevents vines and weeds from bunching and dragging—rods and kickers place vines in row at side. The Eureka duplex shaker provides most agitation—potatoes are delivered clean. Rear extension elevator furnished when desired.

Eureka Mower Co.  
Box 710, Utica, N.Y.

6 and 7 ft. sizes.

## Never neglect cuts!

Keep Handy  
in Medicine  
Cabinet at  
Home, in  
Office, Desk  
Drawer, in  
Club Locker  
and carry  
in grip  
when away  
from home.

Infection lurks where least expected. A cut, scratch or laceration may prove serious unless treated promptly. In all such little emergencies, the application of a few drops of Absorbine, Jr. is cleansing and healing and brings peace of mind.

For bumps, burns and bruises Absorbine, Jr. draws the pain, reduces the swelling and is instantly soothing and cooling.

After long continued or hard exercise or exertion, rub the muscles with Absorbine, Jr. It will prevent that next-day stiffness, lameness and soreness. For tired, aching feet it affords wonderful relief.

Use a few drops of Absorbine, Jr. in a little water as a mouth wash. It destroys crevice-hidden germs, alleviates conditions of sore throat and leaves the mouth refreshingly clean.

Remember that Absorbine, Jr. is an antiseptic, liniment and germicide, economically and conveniently combined in one container for emergency uses. Although powerfully concentrated, it contains no harmful ingredients and is safe with children about. Unlike ordinary liniments, it is of a clean, pleasant odor and does not leave the usual liniment stain.

At most druggists', \$1.25, or postpaid. Liberal trial bottle, 16c, postpaid.

**W. F. YOUNG, Inc.**  
137 Temple Street  
Springfield, Mass.

# A Big Raise in Salary!

*Is Very Easy to Get, If You Go About It in the Right Way*

You have often heard of others who have doubled and trebled their salaries in a year's time. You wondered how they did it. Was it a pull? Don't you think it. When a man is hired he gets paid for exactly what he does, there is no sentiment in business. It's preparing for the future and knowing what to do at the right time that doubles and trebles salaries.

**Remember When You Were a Kid** and tried to ride a bike for the very first time? You thought that you would never learn, and then, all of a sudden, you knew how, and said in surprise: "Why it's a cinch if you know how." It's that way with most things, and getting a job with big money is no exception to the rule, if you know how.

## We Will Show You How

Without the loss to you of a single working hour we can show you a sure way to success and big pay. A large number of men in each of the positions listed are enjoying their salaries because of our help—we want to help you.

Make check on the coupon against the job you want and we will help you get it. Write or print your name on the coupon and send it in today.

Name.....

Address.....

"I want to talk to you about promotion, John. How do you expect to gain it? What are your plans? You are the best man in this organization for your particular job. But you are just as much of a machine as that adding machine over there. You do one thing well and that is all. I've watched you. Several times I tried you out on different jobs but you always fell down on anything not connected directly with your work. If you ever expect to be general manager of this concern you've got to know a lot besides everyday accounting. What do you know about the other branches of our business—production, finance, sales and advertising? Not a blessed thing."

This little dialogue took place several years ago, in the president's office of a well known corporation. The president's words fell on fertile ground. For the next few days John was a thoughtful man. He reorganized his plans for the future. John Barton added to his knowledge of accounting a knowledge of sales, production and finance—he acquired that comprehensive grasp of things that every executive must have. Today he directs policies where once he posted ledgers. John Barton is only one of the many business men who built their foundation on American School training. For more than a quarter of a century we have helped men to plan and win. We will help you. The coupon will give us a chance to prove it.

Leadership and Service in Management.

### Sales and Advertising Management

The salesmanager—what he handles.  
The manufacture of the product, the package and trade-mark.  
The sales territory and agencies through which the product is to be sold.  
Setting a price on the product and building up an organization to sell it.  
Methods of training salesmen and steps in making a sale.  
How to properly control the work of the salesman and to determine his compensation.  
Survey of advertising as it relates to personal selling.  
The three stages through which the advertisement should lead the reader.  
What the advertisement should accomplish.  
The two types of advertising appeals.  
The periodicals in which the advertisement is to be run.  
The use of booklets, folders, etc., for advertising purposes.  
Preparation and arrangement of various elements of advertising.  
Styles of type and methods of printing.  
An illustration of the preparation of copy for an advertising campaign.  
Records for advertising department and analysis of sales data.  
Methods of determining the amount to be spent for advertising and selling expense.

**MANAGERIAL CONTROL**

This book is a straight from the shoulder treatise on modern business and its practical methods. There is not a line of sentimental inspirational dope in it. But it will be just as useful to the accomplished executive as it will be helpful to the ambitious novice. The book is free. It will come to you by return mail if you will send the coupon.

# HIGH SCHOOL COURSE IN TWO YEARS

## YOU ARE BADLY HANDICAPPED

if you lack High School training. You cannot attain social or business prominence. You are barred from a successful business career, from the leading professions, from well-paid civil service jobs, from teaching and college entrance. In fact, employers in practically all worthwhile positions demand High School training. That's the way you are handicapped if you lack this vital training. But you can remove this obstacle to your success. The American School Course *meets every requirement.*

## FIT YOURSELF FOR A BIG FUTURE

This Course will broaden your mind, and make you keen, alert and capable. It is complete, simplified, and gives you the same training as a resident school will. Lessons are written specially for home study and competent instructors guide and coach you from start to finish. It absolutely gives you the knowledge that now stands as a barrier between you and desirable positions.

## USE IDLE HOURS ONLY

Most people *idle* away fifty hours a week. Probably you do, too. Use only one-fifth of that time for studying and you can easily remove your present handicap *within two years.* The question of your success hinges on whether or not you will devote a part of your spare time to this home study course of High School training.

## TRAINING DECIDES PAY

There is only *one known way to increase your earning power—only one way to get the position you want and the pay you want. You must train.*

The difference between \$15 and \$50 a week is measured only by training—*knowing HOW.* Let us assist you to acquire the knowledge you need. Our training does not interfere with your present work. Check and mail the coupon for full particulars and Free Bulletin.

# His New Invention

## Finds and Corrects Your Mistakes in English

Does your English reveal your lack of education or does it prove that you are a person of culture and refinement? English is the one weapon you must use every day. Here is how you can improve it almost at once.

**A**s a result of thousands of tests, Sherwin Cody found that the average person is only 61% efficient in the vital points of English. In a five-minute conversation, or in an average one-page letter, from five to fifty errors will appear. It is surprising how many experienced stenographers fail in spelling such common words as "business," "abbreviate," etc. It is astonishing how many business men say "between you and I" instead of "between you and me," and use "who" for "whom," and mispronounce the simplest words. Few people know whether to use one or two "c's" or "m's" or "r's," whether to spell words with "le" or "el," and when to use commas in order to make their meaning absolutely clear.

### A Remarkable Discovery

Mr. Cody has specialized in English for the past twenty years. But instead of going along in the old way he has applied scientific principles to teaching the correct use of our language. He made tens of thousands of tests of his various devices before inventing his present method. In all his tests he found that the trouble with old methods is that points learned do not stick in the mind. In school you were asked to remember rules, and if you forgot the rules you never could tell what was right and what was wrong. For five years Mr. Cody worked almost day and night to find a way to replace bad habits in writing and speech with good ones. And as a result of his experience he evolved his wonderful new

### Self-Correcting Method

This invention is simple, fascinating, time-saving and incomparably efficient. You do the lesson given on any page, then you see exactly how Mr. Cody himself would correct it. You mark your errors and check them in the first blank column. Next week you try that page again, on the second unmarked sheet, correct your errors, and check them in the second column. You see at a glance what you have learned and what you have failed to remember until you have

reached the 100% point in spelling, punctuation, grammar, and expression.

### Only 15 Minutes a Day

A remarkable advantage of Mr. Cody's course is the speed with which these habit-forming practice drills can be carried out. You can write the answers to fifty questions in 15 minutes and correct your work in five minutes more. You waste no time in going over the things you already know. Your efforts are automatically concentrated on the mistakes you are in the habit of making, and through constantly being shown the right way you soon acquire the correct habit in place of the incorrect habit. There are no rules to memorize. There is no tedious copying. There is no heartbreaking drudgery.

Sherwin Cody

### New Book Free

If you feel your lack of language power, if you are ever embarrassed by mistakes, if you cannot command the exact words to express your ideas, our new booklet, "How to Speak and Write Masterly English" will prove a revelation to you. Merely mail the coupon or a postal card, and it will be sent by return mail. Learn how Sherwin Cody's new invention makes command of language easy to gain in 15 minutes a day. Mail this coupon now.

# Electricity

## at your fingers' ends

Know the *facts* in Electricity. They *count*—and mean more money and better position for you. You need the *exact* information, —in a practical form so that you can use it every day, to help you install electrical equipment, or make repairs, or operate machines, or do whatever else your present job —or the job ahead of you—calls for.

## HAWKINS ELECTRICAL GUIDES

### help you succeed through electricity

These books will answer every one of your electrical problems. They are written so that you can understand them. Arranged in the form of questions you would ask—and the answers to them—in plain, practical, everyday language, clear, concise and to the point. Thousands of men are using Hawkins Electrical Guides as a practical aid to greater success in the electrical field:

"Worth ten times their price." "I wouldn't send them back for a handful of diamonds." "I congratulate you on their excellence." "Helped me to two raises in four months." "Better than a school of instruction." "Studied them when I was laid up and got further ahead than if I'd been on the job."

These are the words of gratitude that come to us by mail from Electrical workers. There is no short cut to genius. But there are sign posts all along the road to success. Hawkins Electrical Guides find these sign posts for you. It is so easy to pay for the Guides that you will scarcely miss the monthly payments.

### Shipped to You FREE

Send no money. Examine the books first. Decide for yourself that they are the most complete and clearest written electrical books ever published. Every book is complete in itself, but the entire set is the best bargain. Accept this unusual offer now—mail the coupon today.

Can **YOU** help supply the demand for fresh, interesting, true-to-life screen stories? Don't think that you must be a genius to win success. Neither is it necessary to waste valuable time and money studying tedious, tiresome correspondence courses or "lessons." The real foundation of the photodrama is the plot or "idea" upon which it is built. Put Your idea on paper and send it to us immediately. Our Scenario Editor will offer to arrange it for you in proper form should he believe that your subject has merit. Producers eagerly read, and gladly purchase at substantial figures, work that appeals to them as being meritorious.

## How Much Is Your Imagination Worth?

Who knows but some incident in your own life or that of a friend—some moving, gripping story of love, hate, passion or revenge, may prove to be the lever with which you will lift yourself to heights of unthought-of success and prosperity. Nearly everyone has at some time thrilled to a great human emotion—some tremendous soul-trying ordeal or experience. It is these really human stories of the masses that the producers want and will pay for liberally. Send us at once **YOUR** idea of what a good screen story should be. You can write it in any form you wish and our Scenario Editor will carefully examine it and advise you promptly of his opinion as to its merits and how we can help you. **THIS COSTS YOU NOTHING!** Certainly you owe it to yourself to **TRY**.

## Free Interesting Booklet

Probably there are countless questions regarding the lucrative and fascinating profession of photoplay-writing that you would like answered.

Most of the points which would naturally arise in your mind are answered fully in our interesting booklet, **"THE PHOTOPLAY in the Making."** It contains a gold mine of information and over fifty thousand aspiring writers have already received a copy. Send for **YOUR** copy at once. It is entirely free and there are no "strings" to the offer. If you

have a story ready, send it to us, together with your request for the booklet.

# Which will succeed?

**W**HICH will succeed? the one who spends all his precious reading time with the daily paper? or the other, who is gaining little by little, in a few delightful minutes each day, that knowledge of a few truly great books which will distinguish him always as a really well-read man? What are the few great books—biographies, histories, novels, dramas, poems, books of science and travel, philosophy and religion—that picture the progress of civilization?

Dr. Charles W. Eliot, from his lifetime of reading, study, and teaching, forty years of it as President of Harvard University, has answered that question in a free booklet that you can have for the asking. In it are described the contents, plan, and purpose of

## DR. ELIOT'S FIVE-FOOT SHELF OF BOOKS

Every well-informed person should know about this famous library. The free book tells about it—how Dr. Eliot has put into it “the essentials of a liberal education”; how he has so arranged it that even “fifteen minutes a day” are enough; how, by using the reading courses he has provided, you can get the knowledge of literature and life that every University strives to give. Every reader of this page is invited to have a copy of this handsome and entertaining free book.

# Get your Auto Training at this Y.M.C.A.

## The Auto Industry Needs Trained Men

With more than ten million cars and trucks now in use in the United States and millions more being produced every year, there is a steady and growing demand for TRAINED AUTO MECHANICS. The man who knows how to build, repair or operate cars and trucks is wanted by factories, garages and service stations at high wages. Many splendid opportunities also are offered for the trained man to start into the repair business for himself.

## Learn the Auto Business in Detroit

In Detroit the great majority of the cars and trucks used in this country are being produced. Here in this city is the best place for a young man to get his auto training. Every facility is offered here for learning autos and becoming thoroughly familiar with the auto industry.

## Go to This Y. M. C. A. School

The AUTOMOTIVE SCHOOL of the Detroit Institute of Technology is a Y. M. C. A. School. It is a chartered institution, established in 1891. Detroit "Tech" also offers college degree courses in Engineering, Chemistry, Pharmacy, Accountancy and other courses. The certificate of this institution, which you will receive on the completion of your auto course, will mean a great deal to you.

This splendid structure, right in the heart of Detroit, houses our Automotive School

# Auto School

## Thorough Auto Training "At Cost"

Being a Y. M. C. A. School, this auto school does not operate for profit. It has no stockholders who expect a dividend from their investment. It offers the best possible kind of training it can give at the lowest possible price.

## Courses Offered

This school offers standard, high-grade courses in Auto Repairing, Tire Repairing and Vulcanizing, Battery Repairing, Welding and Brazing, Driving, Auto Electric Systems, Machine Shop Practice and Toolmaking. Other courses in such subjects as Business Training, Salesmanship, Advertising may be secured, if the student desires.

## Our Men Make Good

The training received at the AUTOMOTIVE SCHOOL of Detroit Institute of Technology is so thorough and practical that if a man applies himself to his work he cannot fail to make good. Graduates of this school have built up an excellent record for success in the auto business. You, too, can get ahead in this business, if you will GET PROPER TRAINING. Let us tell you how you can do it. Write to-day for our free explanatory folder.

# Nearly Every Week the Postman Brings Me a Check

Extra money that I earn in spare time—in the privacy of my home

I SHALL never forget the thrill that came with that first check. I could not have been much prouder or happier if it had been for a million dollars.

Month after month, it had been the same old story—always running short of money—always so many things that I had to do without. And then came that first check—and emancipation from the old worries and discouragements. I knew there would be many more such checks.

It's wonderful what a difference a little extra money can make. I now have better clothes. I can often spare the money for a little trip for myself or the family. I have many comforts that I did not enjoy before. And every month I put a little in the bank.

Every penny I earn myself—just in spare time. And without stepping out of the house.

## Surprisingly Easy

These checks are my pay for knitting wool hose—not by hand but on a wonderful little knitter. Whenever I have an idle moment I sit down at this machine—my “magic purse filler”—and almost before I realize it I have three or four or more pairs of hose finished—adding just that much to my week's earnings.

I can make any style and size of hose, also sweaters, babies' Teddy Bear outfits and many other articles.

Often I knit while watching the breakfast or dinner cook. And often my husband will sit down and knit an hour or so. It's so easy and fascinating that it hardly seems like work at all.

My checks come from the Home Profit Hosiery Company, Rochester, New York. It was from them that I got my Home Knitter. You know how popular wool hose have become—

Mrs. Helene Himberg  
261 Wyckoff Street  
Brooklyn, N. Y.

men's, women's and children's. Most people would much rather have genuine home-knit goods than the factory kind. The Home Profit Hosiery Company sells to stores—and the demand is so big they want all the home-knit hose they can get. As fast as you finish a dozen or more pairs you simply send them to the Home Profit Hosiery Company and they send you a check for your work—it's all guaranteed.

It's an ideal way to earn extra money. You do the work entirely at your own convenience—as much or as little each week as you choose. There is a year-round demand for the work. And you get fine pay.

Mrs. Helene Himberg,  
261 Wyckoff St.,  
Brooklyn, N. Y.

## It's Helping Hundreds of Others

All over America the Home Profit Knitter is helping people turn their spare time into money—helping them get out of debt—helping them pay for homes—helping them dress better—helping them buy new furniture and pianos and phonographs—helping them provide trips and vacations and other pleasures—helping them to lay up money to send their boys and girls to college—helping them build bank accounts—helping them get more comfort, more enjoyment and more self-respect out of life.

Home knitting on the Home Profit Knitter is easy, rapid, profitable and pleasant. You

can knit any style and any size of wool hosiery, also sweaters and babies' Teddy Bear outfits and many other articles. You can send all your work to the Home Profit Hosiery Company and get good pay for it—all on a guaranteed basis—or you can buy your yarn and sell the finished work direct to friends and neighbors and local stores, just as you choose. Either way you can easily earn an extra \$5 to \$15 or more every week the year round—the amount depending on how much time you give to the work.

If your regular income is not enough—if there are things you want or need—why not at least write to the Home Profit Hosiery Company and get full information? Through their simple and easy plan you can bring an end to your worries about money—just in your spare time and without having to step out of the house. Use this coupon: Do it right away—it may make a difference of hundreds of dollars a year to you.

# Crooked Spines Straightened!

**N**O matter how old you are; no matter what caused your affliction; no matter how many years you have suffered or how hopeless you believe your case to be, there is hope for you in the Philo Burt Method.

Eminent specialists who have studied and treated spinal diseases and deformities for years are first astonished, then convinced and quickly become enthusiastic upon finding one success follow another when the Philo Burt Method is used. Ask us for the names of happy patrons right in your vicinity.

A young woman who was bed-ridden at 26 with spinal tuberculosis after suffering for 20 years, is married, happy and perfectly strong and vigorous at 29.

A boy of 8 was unable to walk or hold his head erect. After a few months every symptom disappeared and he walks daily three miles to school.

A man of 48, in cruel agony for six years, spent over \$3,000 in a vain search for relief. Now works every day without the aid of any artificial support.

## FREE—30 Days' Trial

The Philo Burt Method is new and different, not like anything you have tried. It has benefited or cured over 80,000 sufferers from spinal trouble caused by tuberculosis, Pott's disease, infantile paralysis, spinal meningitis, pleurisy, rheumatism, injuries, wrong sitting and standing postures, etc. Treat yourself at home. A 30-days' trial costs you nothing; no obligations of any kind if it fails.

The Philo Burt Appliance will positively cure any case that is curable and straighten any crooked spine that can be straightened. It gives firmer and more natural support to the spine than any torturing, unsanitary, old style brace made of steel, iron, leather, plaster of paris, etc. It is as yielding, soft and comfortable as a corset. Goes on and off like a coat and cannot be detected under the clothing. It relieves and strengthens and has accomplished many amazing cures. Let us send you sworn proof. Send no money. Simply describe your case fully. Get our liberal offer and helpful book on spinal troubles absolutely free.

# The famous Marshall Stillman BOXING Course \$2<sup>97</sup> with Jiu Jitsu & Wrestling—85 lessons —over 200 illustrations

Here it is—the famous Marshall Stillman Course in Boxing, Jiu-Jitsu and Wrestling, now at the extraordinary price of \$2.97 instead of \$5.00!—85 lessons, 381 pages, 246 illustrations!

Sooner or later you'll have to whip your man. It may come to-morrow. A thug insults you, your sweetheart or wife. What do you do? Swallow the insult? No, you fight! But unless you know more about boxing and self-defense than your opponent, you're the man who's going to get the beating!

You're not playing fair with those who love and depend upon you if you fail to prepare yourself!

And think of the sport you're missing. There's barrels of fun in friendly boxing bouts and wrestling matches. You may even box rings around "that chap who thinks he knows it all," or pin his shoulders to the mat.

Marshall Stillman teaches you the game right in your own home from the simplest rudiments of hitting and guarding to the most scientific blows and guards such as the Benny Leonard Triple, the Jack Dempsey Triple, the Fitzsimmons Shift, etc. So quickly do pupils learn that many outbox bigger opponents after only two weeks' training. Joseph Amend of Brooklyn, N. Y., says: "I have fought three men each weighing 10 to 25 pounds heavier than myself. I made the three quit in three rounds and did not receive any punishment myself." J. H. Dolan, of the U. S. S. Shawmut, says: "Now I am what my shipmates call a good one, and they can't see how I got all the new blows and guards so quickly."

In wrestling you learn 15 jiu-jitsu holds—how to disarm an opponent, how to break

a strangle-hold, etc.—and 14 of the best mat holds—the Gutch Toe Hold, the Stecher Scissor Hold, the Head-Lock, etc.

A complete set of muscle-building and health-development exercises is included to improve you physically, with complete instructions on training—how to put on or take off weight, how to improve your speed and endurance, etc.

With the course you get a Free History of 69 Famous Boxers, with their pictures.

## SEND NO MONEY!

Simply fill in and mail the coupon. When you have the course in your hands, merely deposit 97 cents with the postman. Then examine the course for 10 days—try it out thoroughly. At the end of 10 days either send us the small balance of \$2 in final payment, or return the course, and we'll send your deposit back. Mail the coupon to Marshall Stillman Association, Dept. 2022-L, 42d St. & Madison Ave., New York.

Marshall Stillman Association, Dept. 2022-L, 42d St. & Madison Ave., New York.

You may send me on approval the Marshall Stillman Course. When the course is placed in my hands, I will give the postman a deposit of 97 cents, with the understanding that if, after 10 days I wish to return the course I may do so and my deposit will be refunded. If I keep the course I am simply to send you two dollars in final payment.

# NEW KIND OF HEAT!

## Does Away With Dirty Coal and Wood

No more fires to build, bank or watch—no more dirty coal to carry and lift—no more clouds of ashes to breathe or back-breaking scuttles to empty—no more heating problems—no more cold rooms in Winter—no more suffering from lack of quick fires in uncertain Fall and Spring—no more sweating over a hot kitchen stove in summer—no more worries about coal shortages, poor quality or high prices since this Wonderful New Invention.

### Three Times the Heat of Coal at Turn of Valve

Here is the amazing new kind of heat that has ended forever the days of woman's back-breaking servitude to a hot, mussy stove or furnace! The wonderful invention of Mr. B. M. Oliver of St. Louis in one minute turns any coal or wood burner into a modern, up-to-date gas stove. Regulates to any degree of heat you want. In Winter you can have a hot, roaring fire in less than three minutes. In summer you can bake, cook or iron, turn off the heat instantly when through, and have a cool kitchen all day long.

No worry when you can get three times the heat of coal by just turning a valve! No coal, wood, ashes, odor, smoke. Saves money, time and health. Physicians recommend the Oliver as a safeguard against colds, influenza, &c.

Fine all-year round. Does away with overheated and underheated rooms in moderate weather. Ends the roasting kitchens of July and August. No need to have a fire all day long just to do a little cooking.

### Use It 30 Days—FREE

Now, once and for all time, do away with household dirt and drudgery. End ashes, dirt, smoke, odor, chopping, shoveling, carrying dirty, heavy coal and wood. Send immediately for the FREE ATTRACTIVE BOOKLET, "New Kind of Heat," telling all about this amazing new invention. Shows exactly how it burns, how it is different from all other burners and tells how you can use it in your stove thirty days free. The famous Oliver Ironclad Money-Back Guarantee protects you.

### SEND FOR BIG OFFER

If you write at once you will receive Mr. Oliver's very low introductory price offer and 30-day free trial.

### Cheaper Than Coal and Wood

Mr. Oliver calls his invention the Oliver Improved Oil-Gas Burner, because it uses 95% air and only 5% coal oil (ordinary kerosene)—the cheapest fuel there is, turning them into an actual gas that burns with an intensely hot, clean flame. Saves its cost in cleaning bills alone.

### Fits All Stoves—Any Kind or Size

Mr. Oliver's wonderful invention is made in sixteen different models, to fit any kind of cook stove, heating stove or furnace. Doesn't change your stove. Simply sets in firebox. Easily slipped in in one minute. Absolutely safe. It lasts a lifetime. Saves your stove.

16 Models—one for every heater, range or furnace

### Hotter Than Coal

You can absolutely depend upon your Oliver to heat your rooms in the coldest Winter weather. It gives three times the heat of coal. Install this amazing new kind of heat and you can snap your fingers at coal shortages, poor quality or high prices.

**AGENTS**—Oliver agents earn as high as \$500 a month—\$25 a day spare time is easy. Exclusive territory Big, all-season seller. Write for Special Offer.

## FRECKLES

Don't Hide Them With a Veil Remove  
Them With OTHINE Double Strength

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist or toilet goods counter and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful, clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

## A New Skin in 40 Minutes With this Astounding BEAUTY CLAY

In far off Wales there are no bad complexions. The Welsh women, famed for the clarity and babe-like texture of their complexion, make a weekly habit of "claying" their skin, quite as regularly as one cares for the hair. A native clay of marvelous beauty power almost instantly restores full color and life to any skin it touches. A chemist who spent weeks in the Welsh hills has at last succeeded in confining the peculiar properties of this naturally endowed clay and his

complexion! In over six hundred test cases it has never failed. All ages respond to its magical effects, and regardless of how pimples, clogged or dull the skin may be.

Special  
Offer!**

laboratory sends it direct to users—in its pristine strength. Here, at last, is a scientific, certain means of banishing blemishes, clarifying and coloring the skin, making it satiny-smooth—in 40 minutes.

You are now invited to try it. The application is readily made by anybody, and the changes brought about in less than an hour will cause open-mouthed astonishment. As the clay dries the most delightful tingling is experienced in every pore. All the impurities are being literally pulled out! A half hour more and the clay mask is moistened and wiped off, revealing all the glory of a *perfect*

### At Present No Charge For \$5 Jars

except the actual outlay for tariffs and raw materials! You are entitled to benefit by a discovery of this importance. So, for a limited time we will distribute regular, full-size \$5.00 jars of Forty Minute Clay without profit—at only the actual cost, which is \$1.87. This is not really a payment; rather, a deposit that we will promptly return if you are not unreservedly satisfied that this miracle clay is all we claim.

**SEND NO MONEY—See coupon below:**

# "PLEASURE AND PROFIT FROM POULTRY"

Tells of Successful Methods of Raising Poultry on Large and Small Plots of Land

**D**O you know how to start a profitable poultry plant? Do you know the best breeds to start with? Do you know how to get the most economical start? Do you know the size of the flock best suited to your needs and capital? Do you know how to master and apply the unit of operation?

Profit by the experiences of others—learn how the successful poultrymen of today raise and breed poultry for pleasure and profit.

"Pleasure and Profit from Poultry," written by Dr. N. W. Sanborn and revised in 1922 by Prof. L. N. Gilmore, of Syracuse University, contains 48 pages of practical poultry information. Read the following table of contents and then you will be able to judge of its value to YOU.

**Chapter I.** The advantage of buying day old chicks; the most economical way to start.

**Chapter II.** Making money with incubators. The kind of incubator to install; how to make money in hatching; most popular breeds to hatch; money in one-pounders.

**Chapter III.** Brooding. How many to a brooder; foods, best brooder to use.

**Chapter IV.** Feeding chicks. Two best methods; care in the brooder; regulating heat; two formulas for best chick food.

**Chapter V.** Pullets for laying. Best month to hatch; three best formulas for dry mash.

**Chapter VI.** Green foods. Alfalfa, mangels, clover, sprouted oats.

**Chapter VII.** Money in eggs. How to market to best advantage; how to make money in summer eggs; winter eggs; breaking up broody hens.

**Chapter VIII.** Saving time. Reducing manual labor; feeding short cuts.

**Chapter IX.** Culling the flock. Selling old stock; mature pullets; fancy stock; how to keep out disease.

**Chapter X.** Summer in the poultry yard. Breaking up matings; how disease is introduced; care of drinking water; feeding; room for growing chicks; home grown grain.

**Chapter XI.** Successful poultry farms. A white leghorn farm; autumn eggs; culling, your market for eggs, and poultry.

**Chapter XII.** Fall months on the poultry plant. Buying pullets; alfalfa as feed; high protein feeds; housing.

**Chapter XIII.** Early production spells success. Does blood tell? Egg profits.

**Chapter XIV.** Artificial illumination. How, to install and handle.

**Chapter XV.** December eggs. How to get maximum production; foods to feed; housing.

**Chapter XVI.** Selection of breeding stock. High standard; trap nesting; breeding for eggs; selecting breeders; breeding pens.

**Chapter XVII.** Fighting vermin. Red mites and lice; spraying houses; method of U. S. Department of Agriculture.

—and besides, a wealth of vital information valuable to everyone interested in poultry—coming from men who have been through it all and know what they are writing about from actual first-hand experience. Not a word of theory in it—just actual FACTS that YOU can profit by immensely.

You need "Pleasure and Profit from Poultry." We have a copy waiting for you and will give it to you for the asking with a new or renewal subscription to the American Poultry Advocate at only One Dollar. Fill out the following coupon, pin a dollar bill thereto (at our risk) and mail to us and we will send you a copy of the book without expense by return post, together with the American Poultry Advocate for one full year. **DO IT NOW**, as our supply of books is limited. The price of the book without the subscription to the American Poultry Advocate is 50 cents prepaid.

## Put Yourself in This Man's Place!

**"WHAT MADE JIM TAYLOR LATE FOR SUPPER?"**

Mrs. Taylor was worried, for Jim was seldom late for supper. Finally she heard foot-steps outside and Jim opened the door.

"I couldn't help it, Polly—just couldn't help it," said Jim, as he put the bank book on the table, "we are going to have our new poultry house this winter. I have just paid off the mortgage on the place and bought the lumber for the new building, and see," as he took up the bank book, "we still have \$2,100 in the bank."

"Just think, Jim," said Mrs. Taylor, "the chickens and The National Poultry Institute did it all."

"You are right, Polly. It was a lucky day for us when we enrolled for their poultry course."

"It doesn't seem possible, does it, Jim," said Mrs. Taylor, "that two years ago you were working for someone else, and today we own our own home and poultry plant; we are able to put up a new poultry house, and have a good bank account besides. It beats working for the other fellow."

**NOW IS THE TIME FOR YOU.** THE BIG SEASON IS HERE. Put yourself in Jim Taylor's place. A new edition of the book, "How to Raise Poultry for Profit" has just been issued; send for your copy today; it's free. This remarkable book contains many valuable suggestions on poultry raising, and may prove the stepping stone to your future success. Act quick. Send today. A postal will do.

# FREE *Conkey's* Big Poultry Book

Conkey's Poultry Book has been considered the poultry authority for a generation. New edition, just off the press, enlarged and more complete than ever.

It contains valuable information on Getting a Start, Housing, Back-Lot Rearing, Farm Poultry, Culling of Hens, Molting, Starting Chicks, Growing Birds, Feeding for Eggs, Ridding Chickens and Houses of Vermin, Poultry Diseases and their Successful Treatment, and much other valuable information. Whether you are a beginner or a professional, you need Conkey's Poultry Book. Ask for Free Copy.

## *Conkey's* Buttermilk Starting Feed

THE ORIGINAL

It will prevent your big losses of little chicks, due to weakness and disease, and give your chickens that quick start in growth that is necessary to insure early broilers and layers. It also helps to prevent White Diarrhoea, as the lactic acid in the buttermilk helps to sweep away and neutralize the germs that cause it.

Conkey's is low in fibre and just right in protein, scientifically correct. Does not injure or overtax the sensitive digestive apparatus.

Conkey's is the only Buttermilk Starting Feed made by the Conkey Original Process, in which the buttermilk is thoroughly incorporated with the other ingredients. We use semi-solid buttermilk only.

**This SAMPLE Makes 2 GALLONS**

**NOX**

**Dip and Disinfectant**

**Use Conkey's NOX** once and you will prefer it to any other form of Disinfectant, Exterminator or Germicide. It is undoubtedly the most efficient coal tar preparation known to science at the present time.

### *This Sample Makes 2 Gallons Coal Tar Disinfectant*

We want you to try this new Solidified Coal Tar Disinfectant—Conkey's Nox. Destroys lice, mites, etc. It should be used constantly in disinfecting houses, roosts, nests, etc. Send 10 cents, coin or stamps, for sample package containing two cubes, for making two gallons. Circular free.

# It takes only 8 weeks to get a big job

Emmanuel Rushfeldt, Alberta, says:  
"Earning \$10 a day and only 20 years  
old."

Read what these men are doing in the Auto and Tractor Business. Here is your big chance to get "on Easy Street." Come to these great shops on the biggest FREE offer ever made.

## Big Firms Need Trained Men

Louis Reimer at 24 was made foreman over men many years older. That's not luck—it's Rahe training.

The Auto and Tractor Business is on the boom. Thousands of trained men will be needed during the next few months. I get calls every day from Garages, Battery Stations, Auto Repair, Welding Shops and other successful concerns for Rahe men. When the big fellows need high-grade men, they know where to come for them. They want Rahe trained men.

**My Training Unusual** Scientific tool training—that's the secret. You do things here according to the latest engineering standards. Thousands of dollars have been spent in modern tools and equipment. That's why my men are at home in the biggest shops in the country. If you want to succeed the way Beimer and Justus and the rest have—qualify by the same method.

# I'll Make You an Offer

In order to fill the openings that now exist, I am making an offer no one has ever made before. It is so liberal that I reserve the right to withdraw it at any time without notice. Write at once and I will tell you about it in a confidential letter.

O. H. Justus owns a big agency and repair shop at Parkersburg, W. Va. He says "that my schools give motor secrets that will put any man 'on Easy Street.'"

W. W. Peace gets \$250 a month and expenses operating a tractor in the oil fields.

## SEND FOR FREE BOOK

My big illustrated training book tells how others are succeeding. It tells many things you ought to know about Autos and Tractors. Write for it and my short time offer NOW. It soon expires.

# It's a Crime to Slave for Low Pay —

*When It's So Easy To Earn Big Money*

**If You Are Making Small Pay, Then You Ought to Investigate This Simple Plan That Has Shown Thousands the Way to Magnificent Earnings.**

**I**T is little short of an actual crime for a man to struggle along trying to make ends meet when he can easily step into a position with better pay and unlimited opportunities for making money.

**J. E. GRIENSLADE**  
**A Foolish Notion About Salesmen**

The average man imagines that, in order to make good in selling, he must be a "born" salesman. Nothing could be further from the truth. There is no such thing as a "born" salesman. Thousands of clerks, machinists, bookkeepers, factory hands, firemen and farmhands, to-day, are making big money in the selling field through the simple plan you are invited to investigate.

The sentence for a crime of this kind is "a lifetime of drudgery." Trying to make ends meet is a much harder task than making from three to ten times as much money as you are now making. For you can just as easily take advantage of the experience of countless others who, in one swift stroke, have jumped from small pay in blind-alley jobs to incomes of anywhere from \$5,000 to \$10,000 a year.

## The Secret Revealed

Take this situation: A man who had worked all his life in a routine job at low pay suddenly surprises his friends by moving into a better neighborhood, taking a big house, buying a car and blossoming out as a well-to-do and influential citizen in his new community. How did he do it? What is the secret that he used? Simple enough. He knew that the biggest money in business is in selling, and though he felt that he couldn't sell a thing, he suddenly learned the secrets that make Master Salesmen and then began to make big money. A whole book could be filled with stories equally amazing of men who have taken this new, quick road to big pay. A few extracts from actual letters are given in the panel on this page. Nor is there anything exceptional about these men. They were once in the same circumstances that you may be in now. They were discouraged, tired of working for small pay, and disgusted with their prospects. And then, as though by a

touch of magic, they were earning salaries that they had never dared hope for.

## Easy Work— Big Pay

For they entered this new field—a field that they had never dreamed of as theirs—one that is not only the most interesting, but the best paying branch of all business—Selling. Sounds remarkable, doesn't it? Yet there is nothing remarkable about it. There are certain ways to approach different types of prospects to get their undivided attention—certain ways to stimulate keen interest—certain ways to overcome objections, batter down prejudices, outwit competition and make the prospects act.

## Secrets That Make Master Salesmen

No matter what your earnings may be, you can quickly learn the secrets of

### These Men Investigated and—

As an office worker in Detroit, Mr. B. H. Voss slaved away for \$125 a month. But he saw his one big opportunity—grasped it—and increased his pay to \$500 a month.

As a farmhand, George W. Kearns, of Oklahoma City, grasped the same opportunity. He writes: "Last week I cleared \$306, and this week \$218." And Mr. Kearns earned \$60 a month previously.

Mr. J. L. DeBonis, Chicago, now enjoying magnificent earnings. Before investigating, he was earning \$16 a week as a clerk.

When Charles Berry, of Winterset, Ia., decided that it was a crime to slave for low pay, he was earning \$18 a week. And then the very first month he earned \$1,000.

Selling that have put thousands into the big-pay class. For the past fifteen years the National Salesmen's Training Association has successfully trained thousands for the selling field and through its Free Employment Service helped thousands to secure good selling positions. And through the National Demonstration Method you gain actual experience in overcoming sales problems of all descriptions while studying in your spare time at home. Then, through the National Salesmen's Training Association System of Electives, you get specific instructions in how to sell the line or lines you want to handle. In other words, the proved selling plans of master salesmen in all lines are laid before you.

## Send for This FREE Book "Modern Salesmanship"

Without cost or obligation, we will gladly mail you a copy of a very interesting book, "Modern Salesmanship." In addition to many interesting facts about salesmanship, it will also give you full information as to how you can become a highly paid salesman. No matter what you may think now, this book will prove to you that it's a crime to slave for low pay when magnificent earnings are within easy reach. There is no obligation, so just fill in the coupon and mail it to-day.

# BUCKEYE INCUBATORS

HATCH MORE and STRONGER CHICKS

Simple  
to  
Operate

Perfect  
in  
Results

## BUCKEYE INCUBATOR

The **BUCKEYE** will hatch more chicks and stronger chicks than any other make of incubator. It requires no artificial moisture; will operate satisfactorily in any climate, and requires no attention to the regulator from the time a hatch is started until it is finished.

**BUCKEYE "STANDARD" INCUBATORS** are equipped with every desirable device that could possibly add to the efficiency of an incubator. Only the best of materials are used and each machine is inspected by the National Board of Insurance Underwriters before it leaves the factory.

## Blue Flame Colony Brooder

Pronounced a "Winner" from its inception. Plenty of heat equally distributed to all parts of the brooder. Will accommodate a large number of chicks as well as small. The real thing in simplicity and efficiency. Has a gravity feed, thereby eliminating the troublesome needle valve. Made in three sizes.

## International Sanitary Hover

There are advantages in the **SANITARY HOVER** that cannot be found in other makes. Possesses qualifications in heating and ventilation which make it perfection in brooding devices. It has the highest percentage for broods raised to maturity.

- How the author cured himself after stammering for 20 years?
- How stammering causes nervousness?
- How stammering affects the mind?
- How stammering affects the health?
- How stammering can be cured?
- How we learn to speak?

This 288-page cloth-bound book, "Stammering—Its Cause and Cure" tells you all these things and—hundreds more. Send the coupon.

## Based on 30 Years Experience

This book is the condensed and crystallized experience of America's greatest speech specialist, Benjamin Nathaniel Bogue, who gives to the stammerer in this book the result of more than thirty years' constant study, research and investigation, during which time he has met more than 20,000 stammerers, diagnosed 76,000 cases of speech trouble and corresponded with more than 190,000 others who stammer.

## A Remarkable Volume

No matter how long you have stammered or stuttered, no matter how old you are, what caused your trouble, how many courses you have taken, how many schools you have attended, how many books you have read or how much studying you have done, you need this book "Stammering—Its Cause and Cure" with its wealth of new facts, late discoveries and startling revelations on stammering and kindred speech disorders. This book is clearly written, easy to understand and goes straight to the point, telling the HOW and the WHY and the WHEREFORE.

## Use This Coupon For Only 10 cents

If you stammer or stutter or have any impediment in your speech, you are losing if you don't get this book. Find out how the author cured himself after being pronounced incurable by famous specialists; what causes your own trouble and whether you can be cured; get all these valuable pointers, these vital facts. Merely send the coupon with 10 cents coin or stamps to cover postage and packing and this \$3 book will come to you all charges prepaid—nothing to pay later—the book is yours to keep—to use—to profit by.

## "STAMMERING—Its Cause and Cure"

Contains 288 pages of facts, printed in clear, clean, readable type on Antique Book Paper. Bound in Maroon Book Cloth, cover and back stamped in Gold.

Please send me by return mail, all charges prepaid, your big 288-page cloth-bound book, "Stammering—Its Cause and Cure." To cover postage and packing I enclose 10c which is to be payment in full.

**RELIABILITY**

With a Divine Rod in your hand, whether casting flies or dropping bait, you get all the thrill there is in fishing.

So sensitive and flexible is the rod that every faintest nibble or sudden strike is instantly sensed and many times amplified down to the butt.

So staunchly built and so skillfully proportioned that in the tightest pinch the rod survives and the fish is landed.

Divine Rods are made for any kind and all styles of fishing, in 6 and 8 strip Bamboo. Silk-wrapped if you choose. 2½ ounces for the "Fairy Fly" to 16 ounces for deep sea fishing. Rods to order if you wish.

# Why of the Kingsley Plan for the CORRECTION of STAMMERING is different

## Just a Few Testimonials

"Only scientific and uniformly successful plan for cure of stammering. My personal experience testifies to its wonderful results."—E. T. Bailey, 5238 Jefferson St., Phila.

"Have attended different schools, but Kingsley Plan has features for successful correction of stammering that make it unique."—M. M. Strickler, Phila. Chamber of Commerce

"Only course that embodies correct principles, compiled by founder, who stammered for years. Kingsley Club, an association of former stammerers and graduates, is living testimonial."—Robt. M. Clutch Sr., 722 Penfield Bldg., Phila.

Corrects fundamental faults by inducing proper mental attitude, harmonizing physical with mental effort and supplying inspiration and assurance necessary to make permanent habit of normal, natural speech. Is revelation to hear our students talk before large audience at monthly Kingsley Club events. Hopelessness, self-consciousness, fear, nervousness give way to hope, confidence and assurance under our system. Marvelous results with shell-shocked war veterans. No other course so deep, so fundamental, so thorough, yet so simple in principle.

# How Strong Are You?

## Can You Do These Things?

- Lift 200 or more overhead with one arm;
- Bend and break a horseshoe;
- Tear two decks of playing cards;
- Bend spikes;
- Chin yourself with one hand?

Can you do any of them? I can and many of my pupils can. It is remarkable the things a man really can do if he will make up his mind to be strong. Any man. It is natural for the human body to be strong. It is unnatural to be weak. One leading writer on physical culture says: "It is criminal to be weak." I have taken men who were ridiculed because of their frail make-up and developed them into the strongest men of their locality.

## I WANT YOU FOR 90 DAYS

It once took four weeks to cross the ocean—now it takes less than one. In olden days it took years to develop a strong, healthy body. I can completely transform you in 90 days. Yes, make a complete change in your entire physical make-up. In 30 days I guarantee to increase your biceps one full inch. I also guarantee to increase your chest two full inches. But I don't quit there. I don't stop till

you're a finished athlete—a real strong man. I will broaden your shoulders, deepen your chest, strengthen your neck. I will give you the arms and legs of a Hercules. I will put an armor plate of muscle over your entire body. But with it comes the strong, powerful lungs which enrich the blood, putting new life into your entire being. You will have the spring to your step and the flash to your eyes. You will be bubbling over with strength, pep and vitality.

## A DOCTOR WHO TAKES HIS OWN MEDICINE

I was once a frail weakling in search of health and strength. I spent years in study and research, analyzing my own defects to find what I needed. After many tests and experiments I discovered the secret of progressive exercising. I have increased my own arm over 6½ inches, my neck 3 inches and other parts of my body in proportion. I decided to become a public benefactor and impart this knowledge to others. Physicians and the highest authorities on physical culture have tested my system and pronounced it to be the surest means of acquiring perfect manhood. Do you crave a strong, well-proportioned body and the abundance of health which go with it? Are you true to yourself? If so, spend a pleasant half hour in learning how to attain it. The knowledge is yours for the asking.

## Send for My Book "MUSCULAR DEVELOPMENT"—It is FREE

It contains dozens and dozens of full page photographs of myself and my numerous pupils. This book is bound to interest you and thrill you. It will be an impetus—an inspiration to every red-blooded man. I could easily collect a big price for a book of this kind just as others are now doing, but I want every man and boy who is interested to just send the attached coupon and the book is his—absolutely free. All I ask is the price of wrapping and postage—10 cents. Remember, this does not obligate you in any way. I want you to have it. So it's yours to keep. Now don't delay one minute. This may be the turning point in your life. Tear off the coupon and mail at once while it is on your mind.

# Training for Authorship

## How to write, what to write, and where to sell.

**Dr. Esenwein**

Cultivate your mind. Develop your literary gifts. Master the art of self-expression. Make your spare time profitable. Turn your ideas into dollars.

Courses in Short-Story Writing. Versification, Journalism. Play Writing. Photoplay Writing, etc., taught personally by Dr. J. Berg Esenwein, for many years editor of Lippincott's Magazine, and a staff of literary experts. Constructive criticism. Frank, honest, helpful advice. *Real Teaching.*

One pupil has received over \$5,000 for stories and articles written mostly in spare time—"play work," he calls it. Another pupil received over \$1,000 before completing her first course. Another, a busy wife and mother, is averaging over \$75 a week from photoplay writing alone.

There is no other institution or agency doing so much for writers, young or old. The universities recognize this, for over one hundred members of the English faculties of higher institutions are studying in our Literary Department. The editors recognize it, for they are constantly recommending our courses.

We publish **The Writer's Library**, descriptive booklet free. We also publish **The Writer's Monthly**, an indispensable magazine for literary workers, sample copy 25c. Besides our teaching service, we offer a manuscript criticism service.

150-page illustrated catalogue free.

## “You’ve Gone Way Past Me, Jim”

**T**ODAY good old Wright came to my office. All day the boys had been dropping in to congratulate me on my promotion. But with Wright it was different.

“When I had to give up school to go to work I came to the plant seeking any kind of a job. They put me on the payroll and turned me over to Wright, an assistant foreman then as now.

“Well, I did my best at my routine work, but I soon realized that if ever I was going to get ahead I must not only do my work well, but prepare for something better. So I wrote to Scranton and found I could get exactly the course I needed to learn our business. I took it up and began studying an hour or two each evening.

“Why, in just a little while my work took on a whole new meaning. Wright began giving me the most particular jobs—and asking my advice. Next thing I knew I was made assistant foreman of a new department. I kept right on studying because I could see results. Then there was a change and I was promoted to foreman—at good money, too.

“And now the first big goal is reached—I am superintendent, with an income that means independence, comforts and enjoyments at home—all those things that make life worth living.

“Wright is still at the same job, an example of the tragedy of lack of training. What a truth he spoke when

he said today, ‘You’ve gone ‘way past me, Jim—and you deserve to.’ Heads win—every time!”

Yes, it’s simply a question of training. Your hands can’t earn the money you need, but your head can—and will—if you only give it the chance.

The International Correspondence Schools have helped more than two million men and women to know the joy of getting ahead in business and in life, and they can help *you!*

All we ask is the chance to prove it—without obligation on your part or a penny of cost. Just mark and mail this coupon.

# See How Easy It Is To Learn Music This New Way

**Y**OU know how easy it is to put letters together and form words, once you have learned the alphabet. Playing a musical instrument is not very much different. Once you learn the notes, playing melodies on the mandolin, piano or violin is simply a matter of putting the notes together correctly.

The first note shown above is F. Whether you are singing from notes, playing the piano or banjo or any other musical instrument, that note in the first space is always F. The four notes indicated are F, A, C, E, easy to remember, because they spell the word "face." Certain strings on the mandolin, certain keys on the piano represent these same notes—and once you learn them, playing melodies on the instrument is largely a matter of following the notes.

Any one can now learn to play a musical instrument at home, without a teacher. A new, simplified method of teaching reduces all music to its simplest possible form. You can now master singing, piano playing or any musical instrument you wish, right at home, quickly, easily, without endless study and practice.

You don't have to know anything whatever about music to learn to play a musical instrument this new way. You don't have to pin yourself down to regular hours, to regular classes. You practise whenever you can, learn as quickly as you please. All the intricate "mysteries" of music have been reduced to a method of amazing simplicity—each step is made as clear as ABC. Thousands have already learned to play their favorite musical instruments this splendid, new, quick way.

**You Can Play Your Favorite Instrument  
Three Months From To-Day.**

If you are dissatisfied with your present work, let music act as a stepping-stone into a new career. If you long for a hobby, a means of self-expression, let music be

the new interest in your life. If you wish to be a social favorite, if you wish to gain popularity—choose your favorite instrument and, through the wonderful home-study method of the U. S. School of Music, play it three months from to-day.

You can do it. Youngsters of 10 to 12 years have done it, and men as old as 60 have found new interest and enjoyment in learning how to play a musical instrument. You don't have to listen while others entertain any longer. YOU can be the center of attraction, the talented person who holds the audience fascinated.

**Free Book Explains New  
Method.**

Every one who is interested in music should send at once for our valuable book, "Music Lessons in Your Own Home." It not only explains the wonderful new simplified method of learning music but tells about a special short-time offer now being made to music lovers.

Mail this coupon at once for your copy. Remember, it obligates you in no way whatever—it's free. But act now before the supply is exhausted. U. S. School of Music, 1133 Brunswick Building, N. Y. C.

# LEARN CARTOONING

—and Increase Your Income

If you like to draw—if you find pleasure in trying to make sketches and cartoons, have your ability developed and earn a good income as a cartoonist.

Hundreds of nationally known cartoonists such as Branner of the Chicago Tribune, Blosser who draws "Freckles and His Friends," Gene Byrnes creator of "Reg'lar Fellers," Locher of the New York World and others equally well known, took the Landon Course at home in their spare time and fitted themselves for excellent positions, paying from \$50 to \$200 and more per week.

What others have done you can do with the same training. The Landon method of teaching makes original drawing easy to learn. By means of an extensive series of "Landon Picture Charts" every necessary detail of original drawing is explained step by step, so that you can easily learn to do successful creative work.

## Facts That Determine the Superiority of the LANDON SCHOOL

1. From the very beginning the Landon Course teaches original drawing—no copying. The Picture Chart Method is used exclusively.
2. Individual attention and criticism of students' work. Personal coaching wherever necessary.
3. Instruction on how to originate new cartoon ideas is an exclusive feature of the Landon Course.
4. Cost is within reach of all. Easy payments can be arranged.

Write for full information, sample Picture Chart and book of cartoons by successful Landon students. Please state your age.

# An Easy, Delightful Way to Earn Money at Home

TAKE up Millinery. It is just the kind of work that every woman and girl likes to do—it is dignified—and it pays splendidly. Through the Woman's Institute you can now learn easily and quickly in spare time at home all the secrets of successful millinery—how to

design, make and trim hats of every kind—how to make ribbon flowers and bows—how to renovate and make over hats, how to go in business for yourself.

## Become a Milliner Have a cozy little shop of your own

Even though you are now employed or have household duties that take up most of your time, you can learn in a few weeks, in your spare time evenings, to make pretty, becoming hats for yourself at one-fourth their cost in the shops. Then you can start making hats at home for your friends, and if you want to, you can secure a position, or better still, have a cozy little shop of your own and make \$20, \$30, yes, even \$40 a week and more.

It costs you nothing to find out all about the Woman's Institute and what it can do for you. Just send a letter, post card, or the convenient coupon to the Woman's Institute, Dept. 7023-A, Scranton, Penna., and you will receive, without obligation, the full story of this great school that is bringing to women and girls all over the world the happiness of having pretty, becoming clothes and hats, savings almost too good to be true, and the joy of being independent in a successful business.

## FREE Five Dancing Lessons

To Prove You Can Learn to Dance at Home in One Evening

1. The Secret of Leading.
2. How to Gain Confidence.
3. How to Follow Successfully.
4. The Correct Dancing Position.
5. A Fascinating New Fox Trot Step.

For a limited time, Arthur Murray, America's greatest teacher of social dancing, makes this special offer to prove anyone can learn by his remarkable new, easy method, at home, in a few hours, to be a really good dancer. Even if you don't know one step from another, by Arthur Murray's method you can quickly and easily master any dance without partner and without music. More than 60,000 have learned this new way. Your own success is guaranteed.

Arthur Murray's method is so amazingly simple it is revolutionizing the teaching of dancing. It is easier and much less expensive than a personal teacher.

All the very newest dances and the standardized popular dances such as the Fox Trot, Waltz, One Step, etc., can be mastered at home in one short evening.

You can teach your children while you are learning. In fact, many whole families have become really good dancers from one set of instructions.

There is no need of being a wallflower. Everyone admires and wants to meet and dance with an accomplished dancer. Learn in private and surprise your friends. Be more popular by becoming a good dancer soon. This offer of five free lessons absolutely free may be withdrawn at any moment. Send for your lessons (mailed in plain wrapper) today. No obligation—the lessons are yours to keep. To pay the cost of handling, mailing, etc., send 25c.

**ARTHUR MURRAY, Studio 565, 801 Madison Ave., N. Y.**

# Be A Master AUTOMOBILE MECHANIC

a certified Automotive  
Engineer

## Earn \$50 to \$125 a week

Greer trained men are better trained because the Greer College of Automotive Engineering gives its students the very best instruction possible, enabling men without previous experience to quickly qualify as Expert Mechanics Garage Foremen, Demonstrators Battery and Ignition Experts, Automobile Salesmen, etc. Calls received daily for capable men to fill positions now open with splendid pay, from \$50 to \$125 a week assured.

## GREER TRAINING IS COMPLETE

# Five Facts About LAW

## Every Business Man Should Know

1. Eighty-five (85) per cent. of all civil suits today involve BUSINESS disputes.
2. Every transaction in business involves a legal principle.
3. "Ignorance of the Law Excuses No One," is the rule enforced by the courts.
4. Laws are made as GUIDES to proper conduct; operating a business without legal knowledge is like sailing the high seas without a compass.
5. Business needs law-trained executives—opportunities are unlimited for law-trained men.

You can now acquire a complete legal education—at home, in spare moments, without interruption to your regular work

Ex-President Taft, and 80 other eminent authorities have co-operated to produce the Modern American Law Course of the Blackstone Institute, a home study course in law which already has started 45,000 ambitious men on the road to greater success.

Thousands of Blackstone students have been admitted to the Bar and are today successful lawyers and judges. Thousands of others have fitted themselves for bigger things in business.

The course is endorsed and recommended by leading law and commerce schools as the foremost non-resident law course in the country. It is arranged in a way that makes law among the most fascinating of all home courses. Easy to grasp—interesting—practical—and complete.

No matter what your business or your position, a knowledge of the Law will pave the way for bigger responsibilities and increased income. Clarence Saunders, head of the Piggly Wiggly Stores, himself a Blackstone student, says, "Law training makes any man more efficient, more valuable."

You, too, can assure greater success by learning LAW. Just how you can do it is told interestingly in our course.

In addition to giving you full facts about the Modern American Law Course, this book contains many helpful legal pointers that will be of value to you in your everyday work. It answers such important questions as, "Must an agreement, to be binding, always be in writing?" "Does a receipt in full always protect the holder against further demands?" etc. The legal illustrations it contains, in story form, may be the means of saving you thousands of dollars. The book is yours, free for the asking. Mail the coupon today—Now—there's no obligation.

**BLACKSTONE INSTITUTE,** Dept. 4, 4753 Grand Blvd., Chicago, Ill.

**BLACKSTONE INSTITUTE,** Dept. 4, 4753 Grand Blvd., Chicago, Ill.

# A New Way to Health and Strength

Every Day Brings More Reports of Remarkable Self-Cures Effected Through the Pages of this Book.

**ANYBODY Can Apply COUÉ'S Method of AUTO-SUGGESTION in the Building of Body and Mind.**

**"Day by Day, in Every Way, I Am Getting Better and Better"**

**A**LL the world is speaking about Emile Coué, the modest French chemist, who cures diseases without medicines, surgery, diet, exercise or any other standardized healing system. Rheumatism, asthma and even paralysis and spinal deformity have been reported cured through his methods. Minor ailments of all sorts yield readily to his methods.

It is so easy to follow his personal instructions that anyone can apply them immediately after one reading. They consist of a few simple rules which have been thoroughly tested by thousands who have found them to be completely effective in regaining or fortifying health, rebuilding human bodies, awakening undreamed-of powers, and creating new life.

**LUTHER BURBANK**, the great thinker and famous botanist, was so profoundly impressed that he wrote as follows:—"Emile Coué merits our joyous admiration, universal love and immortal thanks for his wonderful emancipation proclamation contained in his book."

**A Few Unsolicited Testimonials**  
Taken from the Scores That Reach Us

"I have cured myself of stomach trouble of long standing by application of Emile Coué's method as explained in his book."  
Mr. L. A. H., Riversburg, Pa.

"I suffered for years from neurasthenia which involved the entire digestive tract. At last I have found what I consider the permanent cure for neurasthenia and that is by following the wonderful method taught by Emile Coué."

Mr. W. K. C., Barnesville, Ohio.

"Words cannot explain my happiness and joy. The doctors have been wanting to operate on me for nine years for a growth in the neck of my bladder—after receiving Emile Coué's book and applying his methods, all the inflammation is gone and the growth is also going away. I was having serious trouble with my eyes, which has also almost gone."

Mrs. A. B. C., Quincy, Ill.

"For years I had a spinal curvature and I had given up hope of a cure, two or three bones being misplaced, making a hollow in the back. I hardly know how to explain it. I am very thankful to Dr. Coué to find that my spine is straightening and the hollow has filled out."

Mrs. F. G. D., Poplar Hill, Md.

"Emile Coué's method is the most effective of any I have tried. In its simplicity it works wonders. I cannot begin to express the torture of body and mind which I suffered. Now, I am happy to say I am well and at peace."

Mrs. J. D. T., Charleston, W. Va.

"I have had an almost complete healing from a chest pain that for nine years has given me the most terrible suffering, almost a death agony, whenever I would go upstairs or walk hurriedly. I began to use the mental suggestion as soon as Coué's book came to me."

Mrs. C. H. W., Mansfield, Ohio.

# The Man Who Says— “Nobody Ought to be Sick” and Helps You Prove It

EMILE COUÉ

The Wonderful Achievements of EMILE COUÉ in Europe Are Now Being Nearly Duplicated in America by Many People After Merely Reading This Book.

Thousands of lives have been made richer in every respect by this book. Many who have been sick for long periods have been cured. Those who are in average health have found the secret of remaining so and building themselves up to a greater physical well-being. Some who were sound physically, but mentally and spiritually disturbed, have found peace in the pages of this book. Countless numbers of people are freeing themselves from the terrors of lurking ill-health, despondency mental inertia and failure. You can benefit by Coué's teachings no matter what the circumstances in which you find yourself.

## What Is Autosuggestion?

Emile Coué has made the discovery that it is not the will which controls our lives, but our imagination. He has demonstrated again and again in his clinic that through the subconscious or imagination, we can direct forces in ourselves which will contribute powerfully to our regeneration. His greatness lies in the fact that he has taken this idea away from the complexities of science and presented it in such a simple fashion that it can be understood immediately and applied with ease.

## COUÉ Takes No Fees

Your guarantee of the sincerity of Emile Coué is that he accepts no fee for his treatment. He impresses upon everyone that all he can do is to show them how to use this element of Autosuggestion directly and effectively for one's own good.

And that is what he does in his book. He has written in the simplest language his own personally-uttered instructions as to just how you can apply his methods to yourself, and, if you wish, your family and your friends. No will power, personality or high education are necessary. Coué expressly states that there should be no effort put forth. And herein is the secret of the great success of his method; which he calls Conscious Autosuggestion. Coué discovered exactly the RIGHT THING TO DO to set to work these great forces in the subconscious which mould the body and control the source of health and everything that goes to make a full and worth-while life.

And he tells YOU how you can do this your-

self at any or all times without help from anybody else, in his remarkable book.

## SELF MASTERY Through Conscious AUTOSUGGESTION

It contains a complete exposition of his theories and methods and amazing cures and gives in detail, step by step, word for word, just what you should do to get immediate and complete benefits from his system.

When people of the rank and importance of Lord Curzon, Foreign Minister of Great Britain, and Countess Batty, who can afford the best of medical attention, sought out Coué last summer and were cured completely by him of serious illnesses, there must be truth and power in Autosuggestion as contained in Coué's methods, especially when these people out of gratefulness, made public announcement of the fact and gave Coué full credit for their cures.

Dr. Frank Crane, whose judgment on matters is read daily by 2,000,000 people, said of Coué "He helps people get well by Autosuggestion."

Henry Ford, the great captain of industry and apostle of common sense, said in a recent interview: "I have read Coué's Philosophy. He has the right idea."

Only \$1.00 makes this book and all its possibilities for your health, happiness and success your permanent possession. His book gives you the full benefit of his methods just as if you were receiving his personal treatment in his own clinic. Send for this book NOW and....Mail the coupon below.

**American Library Service**

# IF YOU CAN YOU CAN SELL

## WILLIAM MAXWELL

"America's Best Known Sales Manager"

### WHAT OTHERS SAY OF HIM:

Mr. Maxwell has been over every step of the road that led from canvassing at twenty-one to a goal of affluence, responsibility, and power. That is why he is such a good guide.

*New York Evening World.*

Mr. Maxwell's instructions wear an aspect of novelty and originality. It is a great game with rich prizes for those who play it best.

*Philadelphia North American.*

William Maxwell gives straight talks. There are no useless discussions, only the real meat of selling in a nutshell—the experience tested salesmen stuff on approach and greeting, signing up a customer, overcoming indifference, and getting the order.

Practically any average man can develop and train himself into a good salesman.

*Birmingham (Ala.) Age-Herald.*

What would you do if you had your life to live over? Mr. Maxwell sets himself to the serious answer of the question, not by the way of idle speculation, but in order that what he has learned by hard experience may be easily available for the youth of today.

*New York Evening Post.*

It is packed with what is usually termed common sense. *Los Angeles Times.*

## A Tom-Cat Taught a Salesman a Valuable Lesson

A GOOD many years ago a salesman was having too many cancellations of orders which he had worked hard to get. One day, while observing a tom-cat begging for its dinner—in contrast with its attitude after its stomach was filled—this salesman learned what was wrong with his own "get away" or "fade out," and corrected the trouble.

This same salesman borrowed some ideas from the stage—some from the methods of successful trial lawyers—and adapted them to salesmanship. He even delved into criminology because it is virtually a public clinic of human motives and emotions.

This salesman is William Maxwell, "America's Best Known Sales Manager." His rich experience, combined with that of sixteen other well known executives, is now available to you in a highly practical course of instruction. It will interest not only salesmen and sales executives but also every other man who appreciates the importance of knowing how to sell himself and his ideas.

# WILLIAM MAXWELL

# SELL YOURSELF ANYTHING

## *"I closed the Scotchman this A.M."*

**I**T was a \$15,000 equipment deal with a hard-headed Scot, and the negotiations had seemingly reached an impasse. The student, an experienced salesman in the Middle West, called on us for special instructions. A few days later he wrote us as follows: "You will be more than pleased to know that I followed your advice and closed the Scotchman this A.M.; so I will have to give you all the credit."

A New York student has just written us: "I utilized the instruction in Lesson 20 in approaching the presidents of the largest New York banks and have had no trouble in making appointments with them. Yesterday I called on five New York bank presidents (by appointments thus made) and was successful with two of them."

A famous Princeton football and baseball star, who is now a successful salesman, writes us: "I gained more in the first four lessons than I did all last year in taking the course in salesmanship at one of the large universities. If a man can't sell after studying your course, it is either because he is dumb or has merely read and not studied what you say."

These are extracts from three of the many enthusiastic letters that come to us daily. Our course in salesmanship is unique in that, as one of our students has aptly said, we "not only tell what to do and say, but exactly when and how to do and say it."

## FREE

The Maxwell method of teaching salesmanship is founded on the great truth that a man must be able to sell himself before he can expect to sell his merchandise or his ideas.

William Maxwell, "America's Best Known Sales Manager" has devised a Self-Analysis Chart which, when conscientiously filled out by you, enables us to advise you what qualities to cultivate to improve your ability to sell yourself. His opinion costs you nothing and puts you under no obligation. Yet, the chart and our free booklet, "How to Sell Yourself," may be of great help to you. Send for them to-day.

**William  
Maxwell  
Institute**

## Special Notice to Employers

Without charge to anyone, we are glad to place responsible employers in touch with salesmen and sales executives who have demonstrated their intelligence, industry, and powers of application. This service is not available to employers whose financial responsibility is doubtful, nor to those engaged in questionable enterprises.

402 Second National  
Bank Bldg., Orange,  
New Jersey.

Please send me, without charge or obligation, your Self-Analysis Chart and the booklet, "How to Sell Yourself."

THIRTY-EIGHTH YEAR  
OF PUBLICATION.

COPYRIGHTED, 1923, BY THE PRESS-PUBLISHING CO.  
(THE NEW YORK WORLD)  
PULITZER BUILDING, 53-63 PARK ROW, NEW YORK

## P R E F A C E .

The World Almanac and Book of Facts is presented to the American public for the thirty-eighth year of its publication improved in form, handier to consult, easier to read, better printed and on better paper.

Readers who in constantly increasing numbers have testified to its value as a book of daily and constant reference will find the tables of statistics revised up to the latest possible date by heads of departments in the National Government, in the States, in the cities (and particularly in New York City); and by men of authority in banking, trade and industry; and in social, educational and religious activities throughout the country. To each and all of these men and women the editor takes pleasure in here acknowledging his indebtedness and expressing his keen appreciation.

New statistical tables present the latest Census figures on population, vital statistics and industries, which are supplemented by those of the Departments of Agriculture, Commerce, Labor and the Interior, all setting forth in form the material growth of the Republic.

In addition The World Almanac presents this year descriptions of the several States of the Union and its dependencies, and descriptions of all the foreign countries with their colonies and dependencies, carefully prepared in most condensed form from the best available authorities here and abroad. Much of this material has been furnished or revised by the embassies, legations and consulates of the countries concerned and by The World Almanac's correspondents abroad, and to them our thanks are due.

In this connection the editor wishes to present his especial thanks to Sir John Scott Keltie, long editor of the Statesman's Year Book; to Col. C. W. Whitaker, editor of Whitaker's Almanack; to Mr. Sayre, editor of Hazell's Annual, and to Francis W. Hirst, formerly editor of The Economist of London, for their most valuable advice and assistance. Thanks are also due to the officials in Washington of the Pan-American Union for information regarding the Latin-American states.

The record of the year 1922 is given with greater fulness than heretofore. The reader will find the carefully compiled chronology or diary of the year, the death roll, the benefactions, the record of scientific progress, the tariff law and other new and important laws, the full election returns, and the complete sporting events and records to which he is accustomed. He will also find new features in authoritative reviews of the financial world and bond market with the range of prices for stocks on the Exchange up to Dec. 1, 1922; also special reviews of labor and strikes, American relief work in Europe, the great progress made in aviation, the creation of the Irish Free State, the rise of the Fascisti; the platform of the British Labor party, and in another field, reviews of the year in the book world, art, music and the drama, and in wireless telegraphy and telephony.

Big problems of the year past and the year beginning are presented in special articles which will be welcomed for quick reference as the day's news will demand. The Reparation Commission furnished the figures showing exactly what Germany has paid in cash and kind and what the armies of occupation have cost.

The exact figures of the interallied debts owed to the United States with unpaid interest are furnished by the Secretary of the Treasury. The treaties of the Washington Arms Conference are given in full with resultant effects on the great navies of the powers. The progress of the League of Nations is shown by the Secretariat. The statement of Soviet Russia's finances is that given out officially at The Hague. The essential points of the Soldiers' Bonus Bill veto are recorded, and so also are those of President Harding's message on the Ship Subsidy Bill, together with a statement of the affairs of the United States Shipping Board, and some facts on the enforcement of the Prohibition law.

Readers will find The World Almanac more complete than before and better than ever. It has profited greatly in the past from their suggestions and will welcome any that may be made for its future betterment.

## INDEX.

The contents of the ALMANAC are arranged topically, so far as feasible, as will be seen on consulting the table of contents. See *table running head* at top of each page for guide to topic.

In looking for an organization not in the index, consult the general list of Associations and Societies; for institutions of learning, see the list of Colleges and Universities.

Dates of great fires, celebrations and other historical events will be found in Memorable Dates, Marine Disasters, the Dictionary of Biography, and other tables of dates grouped toward the end of the book.

Gold coinage of nations in 1921 totalled \$43,130,055; silver coinage, 148,036,313 (\$93,436,081).  
Stock of money in the world, as of Jan. 1,

1922, totalled \$8,561,921,000 gold; \$2,170,460,000 silver; \$159,543,335,000 paper, not including 17,548,000,000,000 rubles of Russia.

# Master Electricity By Actual Practice

The only way you can become an expert is by doing the very work under competent instructors: in other words, *learn by doing*. That is the method of the New York Electrical School.

Five minutes of actual practice properly directed is worth more to a man than years and years of book study. Indeed, Actual Practice is the only training of value, and graduates of New York Electrical School have proved themselves to be the only men that are fully qualified to satisfy EVERY demand of the Electrical Profession.

## The Only Institution of the Kind in America

At this "Learn by Doing" School a man acquires the art of Electrical Drafting, the best business methods, and experience in Electrical Contracting together with the skill to install, operate and maintain all systems for producing, transmitting and using electricity. A school for Old and Young. Individual instruction.

## Over 8,000 Graduates Are Successful Men in the Electrical World

No previous knowledge of electricity, mechanics or mathematics is necessary to take this electrical course. You can begin the course now and by steady application prepare yourself in a short time. You will be taught by practical electrical experts with actual apparatus, under actual conditions.

The N. Y. E. S. gives a special Automobile Ignition Course as an advanced training for Auto Mechanics, Garage Men and Car Owners. The course covers completely all systems of Ignition, Starters, Lighting and other electrical equipment on automobiles, motor boats, airplanes, etc.

*Let us explain the courses to you in person. If you can't call, send now for 64-page book—it's FREE to you.*

# STEINWAY

*The Instrument of the Immortals*

## *A Companion of the Years*

SOMEbody has said that we should choose a piano as carefully as we choose a husband or wife. First, because it is to be a companion of our inward and intimate life; second, because we want it to be with us for a lifetime. An unwisely chosen piano we apologize for as the years go by and at the earliest opportunity we rid ourselves of it; a wisely chosen piano endears itself with time and we contemplate it with increasing pride.

The Steinway tradition is to make the finest possible piano and to sell it at the lowest possible price and upon the easiest possible terms. The moderate cost and the convenient terms upon which you can own a Steinway will probably surprise you greatly.

*Any new Steinway piano may be purchased with a cash deposit of 10% and the balance extended over a period of two years. Used pianos taken in exchange.*

**Prices: \$875 and up**

In Greater New York Steinway pianos are sold only at Steinway Hall.

**STEINWAY & SONS, Steinway Hall, 109 E. 14th Street**

*Subway express stations at the door*

**Also Pianos for Rent**

**"BRINGS THE GLOW OF HEALTH TO YOUR CHEEKS"**

New style jar. Metal cap. Screws tight. Wider mouth.

40% more cream. No increase in price.

**AT ALL DRUG STORES**

## BROWN'S BRONCHIAL TROCHES

were first introduced to the public in the year 1850 and are known over the entire world as a preparation of superior merit for the relief of coughs and throat troubles.

They give prompt and effective relief in the coughing spells and throat irritation incident to Bronchitis, Asthma and Lung troubles.

Of great value to singers, speakers, preachers and teachers, as a means to clear the voice, remove hoarseness and irritations caused by use of the voice.

As they contain no opiates or anything injurious, BROWN'S BRONCHIAL TROCHES may be used in all cases where cough or throat lozenges are employed, without the least danger.

Sold only in boxes. Not sold by weight.

# The Remington Portable

is the most complete of all portable typewriters.

It has the standard keyboard, with 42 keys, in four rows, and no shifting for figures—just like the big machines.

It has the automatic ribbon reverse and every other feature to which you are accustomed on the larger typewriters.

It is so small and compact that it fits in a case only 4 inches high—and so light that even a child can carry it easily.

"It carries its table on its back." This permanent baseboard makes its use always easy and convenient, even on your lap.

Sold by Remington branch offices and dealers everywhere.

Send for our illustrated "For You—For Everybody."

|----------------------|----|
| Ammonia.....         | 5% |
| Phosphoric Acid..... | 5% |
| Potash.....          | 5% |

**Elephant Brand Universal Fertilizer**

In addition to the 5% Soluble Phosphoric Acid contains large quantities of Phosphates designed to be available in the plant and vegetables when most needed. Unlike many other fertilizers it is slowly soluble and will not entirely dissolve in water. A chemical reaction takes place with nature's assistance that slowly releases the plant food. A liberal quantity of potash and ammonia is present to insure a good start for the bulbs, plants or vegetables.

**Elephant Brand Universal Fertilizer**

In addition to its other values contains the germicidal qualities of inoculated Sulphur that destroy plant disease and act upon the phosphate, rendering it available.

**For Flower and Truck Gardens, Lawns and Farms**

When writing for prices state purpose for which intended and size of plot to be treated.

Sanford Bennett at 50      Sanford Bennett at 72

## Old at Fifty Young at Seventy

Sanford Bennett became famous as one who was "an old man at 50—a young man at 70," because at 70 years of age he was a younger looking, younger feeling and younger acting man than he was at 50.

By the time he had reached the half-century mark in years, Sanford Bennett, a well-known business man, discovered that he was an old man—nervous, irritable, a victim of chronic dyspepsia, rheumatism and other ailments that afflict people who neglect the fundamental rules of health.

It was then that he started to create a system of exercise of his own—one that required no paraphernalia of any kind—and which could be practised each morning before arising. Exercising in bed! A new idea, but one that proved to be his salvation, as it has to many thousands of others who have followed Mr. Bennett's methods.

No medicines—no drugs—just a few simple exercises developed to their highest efficiency through constant application and a study of Nature's methods of regeneration and rejuvenation. Mr. Bennett actually discovered the secret of longevity—the secret of defying old age—and he reveals this in his book, "Old Age—Its Cause and Prevention"—a book that for ten years and more has stood every test in actual performance by men and women who have been restored to health and usefulness by following its teachings.

### FREE For Examination

We allow you to judge for yourself, without cost, the value of Sanford Bennett's wonderful book. Send no money, but fill out and mail the coupon today. Or copy the coupon on your stationery and send that. Keep the book for ten days, examine it thoroughly. Then, either remit \$3.00 in full payment or return the book and owe us nothing. ## Two Books You Must Own

# OUTWITTING OUR NERVES

By JACKSON, M. D., and SALISBURY

**T**HIS is the most cheerful, the most readable, the most generally helpful health book published in years. Its success has already been phenomenal. It is almost impossible to conceive of anyone reading it without gaining benefits worth many times its cost. Doctors have prescribed it by the hundreds of copies. It has actually revolutionized the life-time habits of many a reader. *Price \$2.50.*

# OUR REPUBLIC

By S. E. FORMAN, PH. D.

**H**AVE you a reliable, up-to-date, entertainingly written history of the United States? Every American's library, however small, should include that. Dr. Forman's new volume begins at the very start of our history and comes up through the World War and the Armament Conference, and it gives the whole story of America—not only politics and war but also our industrial and social life as well. A large handsome volume of nearly 1,000 pages. Illustrated and indexed. *Price \$5.00.*

"Outwitting Our Nerves" and "Our Republic" can be bought at all bookstores or from the publishers, The Century Co., 353 Fourth Avenue, New York City.

FREE: "The Centurion," a 16-page illustrated monthly magazine containing extracts from books and news and comments about authors and their work, will be sent regularly and without charge to anyone requesting it. Address The Century Co., 353 Fourth Avenue, New York City.

# The World.

JOSEPH PULITZER.

April 10, 1847 ✚ October 29, 1911.

THE WORLD, as established by JOSEPH PULITZER, May 10, 1883:—

"An institution that should always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent, never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty."

As must be the case for years to come, The World's editorial policy in 1922 included anxious thought for the improvement of international relations in a world harassed by the after-effects of the great war. In its domestic policy it fought, with some success in the event, against a normalcy which in an abnormal condition could be but a pretense.

What The World thought necessary to the restoration of real peace it stated in July, in the following platform:

- The Reduction of the Reparations.
- The Reduction of the Debts.
- The Reduction of the Armaments.

In the pursuit of a better understanding between nations it never ceased to stress the responsibility of the United States for its share in the turmoil of Europe, its having abandoned its associate nations to their fate as soon as the war was over and having turned its back upon the League of Nations.

In American politics 1922 was a year of retribution for the hypocrisy of the 1920 campaign. Then the Republican Party rolled up a plurality of 7,000,000 votes by promising the impossible to men on both sides of almost every pending issue. The natural reaction two years later was the repudiation of that hypocrisy at the polls. In the campaign The World took a leading part, spreading abroad the details of the Fordney-McCumber tariff, in which the wool schedules were fixed by wool-selling Senators the glove schedules by a glove Senator from New York, the textile schedules by super-lobbyists from New England.

A victory that was much more than personal to its victim was achieved by The World in forcing Truman H. Newberry out of his bought seat in the United States Senate. Practically alone among newspapers it kept up the fight upon him when the Supreme Court had absolved him from the penalty affixed by a Republican Federal Judge in Michigan, solely upon technical grounds, and when Charles E. Hughes, Secretary of State, came to his defense during the campaign. When, for the first time in seventy years, Michigan elected a Democratic Senator and when in other States the issue of Newberryism was proved potent to lose Republican votes, the handwriting on the wall was plain. Newberry resigned.

In a year characterized by gigantic strike movements at home, The World pleaded for a better understanding between labor and capital in services essential to the country. It urged the ascertainment of the facts affecting the production and distribution costs of coal, unfortunately covered from view by a Federal Court decision in the District of Columbia. The Fact-Finding Commission on Coal Supply was named in accordance with its urgency. In a kindred and parallel field it sustained

the cause of free speech, even in Kansas, in West Virginia and in the coal mining regions of Pennsylvania. It led the Nation-wide fight upon the Ku Klux Klan as a dangerous attempt to set up, in the cause of an outdated liberalism, a super-government within the Government of the United States.

The World, in State policy, strongly supported the nomination and election of Alfred E. Smith as Governor; urged further consideration for his policy of reorganization of the State's spending agencies, and continued to indicate the dangers as well as the manifest injustice of the rotten borough districting of legislative constituencies, which gives the legislative power in Albany to the representatives of a minority of the people. Both in Albany and in the City Hall it urged the pressing need of economy at a time when it has been estimated that half the national income is called for in taxation, direct and indirect, local, State and national.

Upon the editorial page of The World the "Looker on in Washington" has brilliantly and with acid wit punctured shams in public life and sustained the cause of international sanity and accord. The daily cartoons of Rollin Kirby have continued to hold the high regard of students of affairs. To Mr. Kirby's cartoon, "On the Road to Moscow," the Pulitzer prize of \$500 was awarded last spring. As has been said of Punch in England, the course of history for the year could be traced by a reminiscence reading of the Kirby cartoons.

## WON PRIZE FOR PUBLIC SERVICE.

On June 7, 1922, the trustees of Columbia University awarded to The World the "Pulitzer Prize in Journalism for Public Service in Its Articles Exposing the Ku Klux Klan."

This recognition was but the consummation of a series of acclamations, public and private, official and semi-official, that came to The World during the year for its contributions to the common welfare. It is The World's pride that in the minds of so many people in so many quarters, both here and abroad, its name is synonymous with the description "First in Public Service," accorded it by the votes of three colleges of journalism.

The World's opposition to the Ku Klux Klan, begun in the fall of 1921 and renewed again in the closing weeks of 1922, was merely the most conspicuous of its contributions in this field.

Early in the spring it made a survey of conditions on the rapid transit lines of New York City. So absolutely did it demonstrate the inadequacy of the service on which more than 7,000,000 passengers a day must depend that orders were issued by the Transit Commission directing immediate improvement.

As the result of a similar survey the depreciation of the quality of illuminating gas under the projected change from the long-established candle-power standard to that of the British thermal unit was demonstrated.

An exhaustive inquiry into conditions in the

## RELIGIOUS NEWS A FEATURE.

As a constructive feature in present day journalism The Morning World maintains a department devoted to the activities of local churches, and each Monday morning prints a stenographic report of a Sunday sermon with a picture of the preacher. The department is also a clearing house for religious news from all parts of the world.

The regular department of religious news on Saturday mornings to quote a former Moderator of the General Assembly of the Presbyterian Church, has "become a force and a distinct advance on all the religious features of other papers (New York). It has lifted the religious feature to a dignified and challenging position and ministers are rejoicing in it."

## OUTSTANDING FEATURES IN THE SUNDAY WORLD MAGAZINE.

The Sunday World Magazine during the year achieved an unprecedented record in the quality and quantity of features presented. Perhaps the most outstanding achievements were the publication, in special supplements illustrated in color, of "The Story of Mankind," by Hendrik Van Loon, and "The Story of the Irish Nation," by Francis Hackett. Two other notable features were stories written especially for The Sunday World Magazine by the three most popular stars of the movies, "Hollywood to Paris" by Mary Pickford and Douglas Fairbanks, and "The Mirror of My Life" by Pola Negri.

The most striking narrative of the year was "The Tragic Story of the Castaways of the Dramar," being a diary kept by two of the survivors.

Branching into the realm of fiction, the magazine offered four of J. S. Fletcher's most thrilling mystery stories, a novel by P. G. Wodehouse, and a series of detective stories by E. Phillips Oppenheim.

The expert criminologist, E. H. Smith, contributed regularly fascinating stories of the underworld, including a valuable series on bucket shops, while Karl K. Kitchen, the intrepid traveller, brought back from the west, "The Mirrors of Hollywood," and from Europe "Capital Nights' Entertainment."

Among the regular features to be found in the magazine were reproductions of songs from current musical successes, by such famous composers as Victor Herbert, Irving Berlin and Jerome Kern; two pages of odd and interesting information on new discoveries and inventions; a page of Ingenuities including the popular cross-word puzzle; a monthly article on the astrological significance of birthdays. The World staff writers in Europe frequently contributed thrilling and colorful stories from abroad, and Arthur Benington wrote many valuable articles on the new discoveries in the world of science and psychological research.

The cover designs maintained an unusual standard of artistry, presenting the work of such well known men as Cotes Phillips, Halmi, Remisoff, Soudekine, Joseph Cummings Chase, Howard Chandler Christy, Fabiano, Haskell Coffin, and others.

For wide range of subject the magazine offerings for the year have been unequalled. Articles on art, music, sports, fashions, adventure, romance, the theatre, have appeared on its pages, and among the staff writers not already mentioned are Sarah MacDougall, Prosper Buranell, Ernest Brennecke, Charles Welton and Milton Raison.

The Sunday World Magazine aims to be truthful, interesting and informative. It is well written, well illustrated and lives up to its slogan, "The Best Weekly Magazine in New York."

## SUNDAY WORLD SCHOOL PRIZES.

The Sunday World has actively promoted athletics in the city schools under the auspices of the Board of Education and the Public Schools Athletic League for seventeen years, and the development they have reached each year is the most important that has been accomplished in New York schools. Millions of boys have received training through the field days which began in 1906. The class banner, a cherished trophy each year, is hung in a conspicuous place in the schools, and upward of a hundred thousand young men and boys in the city are wearing medals of silver and bronze provided annually for winners of each school that had a field day, and gold, silver and bronze for the city-wide "Final Meet." The Sunday World final meet, this year, was the largest athletic event in the history of the city, having more than three thousand boys with fine records made in the schools engaged, in the various events, distinguished officials and a great assemblage of spectators.

Athletic activities, supported by The Sunday World, under the supervision of city teachers, are carried on at vacation playgrounds that give every child opportunities for pleasure and mental and

physical benefit by baseball tournaments, basketball track and field events, swimming, etc. The Parks and Playgrounds Association maintains games and athletic sports for which The Sunday World provides prizes.

The Sunday World encourages school garden clubs, for which prizes are given to promote interest in practical gardening and cultivate a love of nature and outdoor work. Crops this year in seventy outdoor gardens, reported weekly by teachers, showed a season total crop valuation, according to market prices, of \$21,139.56.

A walking club is open to boys and girls above the fifth grade, which provides means of getting wholesome exercise for those who cannot engage in strenuous sports.

Swimming contests, ice and roller skating, tennis and marble shooting have attracted a large share of pupils that have profited by the support of the Sunday World.

## BUREAU OF ACCURACY AND FAIR PLAY.

The World's Bureau of Accuracy and Fair Play completed the ninth year of its existence in July. Its primary purpose, as declared at the outset, is to promote accuracy and fair play in the columns of The World, to correct carelessness, and to stamp out fakes and fakery. All corrections, and the questions, including libel actions, are turned over to this bureau and carefully inquired into and, if they are found to be well grounded, corrections are made. A record is kept of each case investigated, with a card index of those responsible for articles complained of. Faking and chronic carelessness are punished by dismissal. In practice the idea has worked out well. Members of The World staff, and its correspondents everywhere have, with very few exceptions worked in harmony with the bureau. The World's example has been followed by many other newspapers throughout the country.

The bureau has made a practice of opposing attacks and complaints that have come from the early stages of its operation it learned that there are lawyers in New York who make a specialty of stirring up libel litigation and who seemingly are not adverse to representing criminals and otherwise disreputable characters who sometimes bring suits on false and perjured complaints. A card index covering a period of more than twenty years reveals the names of lawyers who have made a practice of stirring up libel litigation, and whenever attempts are made to recover damages in these cases The World has spared neither trouble nor expense in fighting to the last ditch. As a result some lawyers have been disbarred or suspended from practice, several notoriously crooked litigants have been sent to prison and there has been a very material decrease in libel suits.

The bureau has also waged war against false and misleading advertising and occasional swindlers who have attempted to use The World's advertising columns to ensnare victims. It has successfully cooperated with public prosecutors and the police in bringing many of these swindlers to justice.

## EVENING WORLD EDITORIAL PAGE.

True to its principle of working primarily for the best interests of the 7,000,000 people in metropolitan New York The Evening World editorial page in 1922 devoted much space to discussion of the transit problem, advocating co-operation between State and city authorities and denouncing obstructive political tactics.

In the interest of public safety The Evening World worked for the taxi-bonding law and demanded its enforcement. It has also emphasized the need for a motor code and more efficient licensing and registration of drivers.

As the result of an Evening World editorial suggestion, the Garment Workers' Union applied for and was granted an injunction against the contract-breaking employers in the industry, the first case on record in which union labor had made such use of the equity provisions of the law.

This newspaper was also instrumental in securing extension of the rent laws it previously sponsored. For the health and pleasure of New Yorkers now and in years to come, The Evening World has insisted on the need for foresight in provision of playgrounds, parks and public golf courses. It has kept before the public the need for a seat for every child in the public schools. It exposed the unbusinesslike conduct of the public markets and secured correction of some of the worst abuses.

John Cassel's cartoons, famous for their finely drawn, straight-aimed thrusts into the meaning of current events, have been a daily feature widely reproduced.

## EVENING WORLD'S ACHIEVEMENTS.

The Evening World, constant and insistent in its support of every project for the public good, has

during the year made some notable fights; among the most outstanding are:

1. For the passage of a law bonding all taxicabs, and the enforcement thereof. More than 10,000 judgments against taxicab companies were returned unsatisfied during 1921. Under the new law, secured by Evening World efforts, each taxicab must carry insurance at the rate of \$2,500 against accidents.

2. Through an exhaustive investigation and analysis conducted by Sophie Irene Loeb, it was demonstrated that the increase in the price of gas to the consumer, from 80 cents per thousand to the rate of \$1.25 and \$1.50, was not justified by any increase in gas oil or wage costs. The Evening World demanded an adjustment of these rates and the discontinuance of the antiquated methods of gas-making. Results have been obtained in a change of methods and a reduction of 10 cents per thousand. The Evening World figures demonstrate that gas, at a reasonable profit, can be furnished the consumer at a rate between 90 cents and \$1.00. The fight for a fair price will be continued.

3. The Evening World exposed the astounding nepotism in Congress. Thousands of relatives of Congressmen were carried on the Government pay-rolls, many of whom did not render service. During this exposure the news was broadcasted throughout the country, and was responsible for the defeat of many of the offending candidates for re-election.

4. The Evening World urged and secured extension of the rent laws, which were originally passed following a long fight made by this paper in the interests of the tenant.

5. The Evening World has disclosed reasons for the need of a general and thorough investigation of coal conditions, along the lines of the plan finally adopted by Congress. The published investigations led to the visible coal supply for New York City, in smaller sizes, and substitutes, coupled with the reluctance of coal dealers to avail themselves of these, has resulted in new rulings by the Fuel Administrator, which materially eased the situation.

6. Trispartitely, The Evening World has demanded increased and better transit facilities, and the editorial policy has been supported in the news pages by articles bearing on every phase of the transit situation.

7. The plans and articles published in The Evening World urging a great war memorial and recreation park and public swimming pool in Central Park have borne fruit in a recommendation by the Committee of Estimate that \$600,000 be appropriated by the city for this purpose.

8. The Evening World has rendered signal service by calling attention to the gasoline and oil surpluses. Following these expositions the price of these essentials has been reduced.

In the late fall an eight-page illustrated Brooklyn Section was added to the regular edition of The Evening World, dealing exclusively with the local activities of that borough.

#### EVENING WORLD'S FEATURE PAGES.

The Evening World's Daily Magazine Page, carefully developed to combine every chief interest of woman and the home, included in its large staff of special contributors some of America's most widely recognized authorities on the subjects covered. The trend in fashions was accurately and interestingly forecast and followed by Margery Wells and Milred Lodewick in illustrated articles which, on Saturdays, were expanded to a full page. Mrs. Christine Frederick's articles covered every common problem in home economics and household engineering. Doris Doscher, in several series of articles, pointed the way to health and beauty by natural means, supplementing her writings with talks broadcasted by radio. Inspirational articles by Sophie Irene Loeb sympathetically and helpfully touched every phase of human emotion in every walk of life. Caroline Crawford's love serials penned fascinating and accurate word pictures of modern youth in its greatest adventure. Betty Vincent's keen understanding of lovers' problems gave her special articles and "Courtship and Marriage" correspondence column a wide popularity. Neal O'Hara's sparkling humor, Roy McCardell's inimitable Jarr Family and Marguerite Mooers Marshall's Fables for the Fair and Maxims of a Modern Maid gave lightening touches of genuine entertainment. Other writers as ably conducted a wide range of special departments, including home decoration, recipes, sewing suggestions, and informative matter of several interesting kinds.

Marguerite Mooers Marshall, Fay Stevenson, Ruth Snyder, and other special writers regularly contributed feature articles and interviews for the news pages of The Evening World. Notable among

these features was the "Daily Movie" strip of pictures of prominent people, usually combined with interesting interviews.

During the year The Evening World published nearly a score of the best novels of the day as serials, the names of the best known writers of both America and England being represented in the list. A complete novelette, an unusual short story, by a well known author was a feature of each Saturday edition.

The Evening World's Comic Page every day provided a variety of real laughs that somewhere caught every fancy. An ever-growing following of fun-loving fans has daily looked for "Joe's Car," "The Big Little Family," "Little Mary Mixup," and "Katinka." Maurice Ketten's "Can You Beat It," "Such is Life" and "The Day of Rest," cartoons that accurately mirror the funniest side of human life, every day "struck twelve" on humor's clock.

The "What Did You See To-Day?" page, which made "Every Reader a Reporter," met with instantaneous public response. Roughly, half a million readers from the city and neighboring States have been contributors to this page, requiring a large staff of discriminating readers to handle the immense mass, so that the automobile and cash prizes might be properly awarded. Thousands of readers have "tipped off" The Evening World to first big news events.

Other special features of The Evening World included Charles Darnston's criticisms of the New Plays, Don Allen's motion picture screenings, Bido Dudley's the Stage and Good Evening, Frank H. Warren's in the Realm of Music, B. E. Batson's Daily Wall Street Report, and W. G. Bowdoin's art criticism and news. E. W. Osborn's literary comment and Capt. Robert Schofield Wood's radiophone service column.

#### EVENING WORLD'S SPORTING PAGES.

The Evening World promptly recognized the pronounced trend toward athletics by printing every day two full pages of interesting sport cartoons and articles by Robert Edgren, Bozeman Butler, Treavor, William Abbott, Richard Freyer, Robert Boyd and Joseph Gordon. Special attention was paid to amateur sports. During the year The Evening World donated many handsome trophies to encourage young athletes toward greater efficiency in all lines of sport.

Every important sport event during 1922 was ably reported by staff experts, while clever cartoons by Robert Edgren, Bud Counihan and Thornton Fisher furnished a pictorial review of all big doings in the field of sport.

#### THE KIDDIE KLUB.

The Evening World Kiddie Klub, which is under the direction of Eleanor Schorer, gave a benefit performance at the Astor Theatre on Feb. 26, 1922, for the Kiddie Klub Country Fund. With the money raised at this performance and through public subscription, the fund was able, by working in co-operation with Health Commissioner Copeland and the New York City Department of Health, to give vacations of from six weeks to three months each to over 300 city children suffering with whooping cough and to send them home well. These 300 children were guests of the city at Riverside Island, under the immediate care of Dr. Thomas F. Joyce and a staff of eight doctors and forty-two nurses, between June 25 and October 15. Diversional teachers, playground equipment, toys, books, extra clothes, etc., were supplied by the Kiddie Klub Country Fund. Through Mr. I. Elkin Nathans of the New York Milk Conference over 9,600 quarts of Grade A milk were donated by five milk concerns: Borden's, Beakes' Model Dairy, Clover Farms and Levy Co. Happiness Candies supplied the thousands of Cattle Pops eaten by the youngsters throughout the summer.

Two outings, one at Luna, Coney Island, July 12, and the other at Starlight Park, Bronx, on July 26, supplied midsummer fun for well Klub members. Eighteen thousand Brooklyn children attended the Luna outing and over 10,000 Bronx youngsters went to Starlight Park. All the attractions were free to members on Kiddie Klub Days at Luna and Starlight.

The Seventh Annual Kiddie Klub Christmas Show was given at the Casino Theatre, (courtesy Messrs. Lee and J. J. Shubert) on Dec. 28 and 29. There were over 50 kiddie acts, selected from the Klub membership. Two series were sent free of charge to each member who applied. The Evening World Kiddie Klub boasts a membership of over 142,000 children under 16 years of age.

The Boy Scout Weekly Department covered the activities of that organization. The Girl Scout and Camp Fire Girls were handled in many illustrated stories.

## Postal Information.

**Domestic Letter Rate**—2 cents an ounce or fraction thereof. Includes letters or other first-class matter addressed for local delivery or for transmission from one place to another within the United States, or to or from or between the possessions of the United States, Hawaii, Porto Rico, Virgin Islands of the United States, Canal Zone, the Philippines, Guam, Tutuila, (U. S. Samoa), United States naval vessels, United States Naval Hospital and United States Navy Fuel Depot at Yokohama, Japan, and United States forces in Germany. The U. S. Postmaster General announced Sept. 25, 1922, that on Dec. 31 he would abandon the United States postal agency at Shanghai, China, and that the 2-cent letter rates would not include Shanghai after Nov. 30, 1922.

The limit of weight for first-class matter is the same as for fourth-class parcel post, 70 pounds, local, or in the first, second or third zone; 50 pounds in the other zones.

First-class matter includes written matter, matter sealed against inspection, postal cards, and private mailing cards.

Aeroplane letter rate is 2 cents an ounce or fraction thereof.

**Domestic Postal Card Rate**—1 cent as to each country and place in the above paragraph; reply card, 2 cents. The rate for private mailing cards is 1 cent each.

**Second-Class Matter**—Periodical publications, no limit of weight. The rate to the public is 1 cent for each 4 ounces or fraction thereof, for complete copies. Incomplete copies are subjected to third-class or fourth-class rates, according to their physical character.

**Third-class Matter**—Printed paper matter other than books, and other than such periodical publications as are entitled to second-class rates. The limit of weight is 4 pounds. The rate is 1 cent for each 2 ounces or fraction thereof. Packages over 4 pounds in weight go as fourth-class parcel-post matter.

**Fourth-class Matter** (domestic parcel post)—Includes all mailable matter not in the preceding classes. It may be insured and may be sent C. O. D.

**Rates of postage on fourth-class or parcel-post matter**—to be fully prepaid—unsealed—as follows: (a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance; (b) Parcels weighing 8 ounces or less, containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance; (c) Parcels weighing more than 8 ounces, containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 pounds, and all other parcels of fourth-class matter weighing more than 4 ounces, are chargeable, according to distance or zone, at the pound rates shown below, a fraction of a pound being considered a full pound:

**Local rates**—1 lb., 5 cts.; 2-3 lbs., 6 cts.; 4-5 lbs., 7 cts.; 6-7 lbs., 8 cts.; 8-9 lbs., 9 cts.; 10-11 lbs., 10 cts.; 12-13 lbs., 11 cts.; 14-15 lbs., 12 cts.; 16-17 lbs., 13 cts.; 18-19 lbs., 14 cts.; 20-21 lbs., 15 cts.; 22-23 lbs., 16 cts.; 24-25 lbs., 17 cts.; 26-27 lbs., 18 cts.; 28-29 lbs., 19 cts.; 30-31 lbs., 20 cts.; 32-33 lbs., 21 cts.; 34-35 lbs., 22 cts.; 36-37 lbs., 23 cts.; 38-39 lbs., 24 cts.; 40-41 lbs., 25 cts.; 42-43 lbs., 26 cts.; 44-45 lbs., 27 cts.; 46-47 lbs., 28 cts.; 48-49 lbs., 29 cts.; 50-51 lbs., 30 cts.—and so on up to 70 lbs., 1 cent additional for each 2 lbs. or fraction.

**1st zone** (up to 50 miles)—1 lb., 5 cts., and 1 cent extra for each added pound, up to 74 cts. for 70 lbs.

**2nd zone** (50 to 150 miles)—1 lb., 5 cts., and 1 cent extra for each added pound, up to 74 cts., for 70 lbs.

**3rd zone** (150 to 300 miles)—1 lb., 6 cts., and 2 cents extra for each added pound, up to \$1.44 for 70 lbs.

**4th zone** (300 to 600 miles)—1 lb., 7 cts., and 4 cents extra for each added pound, up to \$2.03 for 50 lbs.

**5th zone** (600 to 1,000 miles)—1 lb., 8 cts., and 6 cents extra for each added pound, up to \$3.02 for 50 lbs.

**6th zone** (1,000 to 1,400 miles)—1 lb., 9 cts., and 8 cents for each added pound, up to \$4.01 for 50 lbs.

**7th zone** (1,400 to 1,800 miles)—1 lb., 11 cts., and 10 cents for each added pound, up to \$5.01 for 50 lbs.

**8th zone** (over 1,800 miles)—1 lb., 12 cents., and 12 cents for each added pound, up to \$6 for 50 lbs.

**Registered Mail**—The fee is 10 cents over the regular postage. Articles admissible—Any mailable articles, except unsealed fourth-class matter (parcel-post) for domestic destinations, may be registered. Domestic parcels containing fourth-class matter may also be registered if sealed and the usual fee and postage at the first-class rate are paid. The amount recoverable from the Government in case of loss is limited to \$50.

**Money Orders**—The maximum is \$100, but there is no limit to the number that can be issued in one day to the same remitter. The fees for domestic orders are: \$2.50 or less, 3 cents; \$2.51 to \$5.00, 5 cents; \$5.01 to \$10.00, 8 cents; \$10.01 to \$20.00, 10 cents; \$20.01 to \$30.00, 12 cents; \$30.01 to \$40.00, 15 cents; \$40.01 to \$50.00, 18 cents; \$50.01 to \$60.00, 20 cents; \$60.01 to \$75.00, 25 cents; \$75.01 to \$100.00, 30 cents. International money orders cost 10 cents for \$10.00 or less, and 10 cents extra on each additional \$10.00 up to \$1 for \$100.00. Domestic money orders are payable within 30 days at any United States Post Office (continental); after that, only at the office designated. In the United States insular possessions, colonies of Great Britain, etc., the orders are payable only at the office drawn upon.

**Unmailable Matter**—Includes not only all legitimate matter not conforming to the rules as to legibility of address, size of package or certificate of inspection, but also game, etc., killed out of season; poisons, explosive or inflammable articles, or bad smelling; all spirituous and malt liquors; all liquor advertisements to or from prohibition localities; indecent matter, written or otherwise; dunning postals and lottery, endless chain and fraud matter. In addition, sealed mail to a foreign country, except it be obviously letters, cannot be sent, nor can publications in violation of the copyright laws of the country of destination.

**Postal Savings**—The limit of an individual deposit has been increased from \$1,000 to \$2,500. No sum of less than \$1 will be accepted for a deposit. Interest is allowed at the rate of 2 per cent.

**Foreign Letter Rates**—2 cents an ounce or fraction thereof, to the following countries:

Argentina, Bahamas, Barbados, Bermuda, Bolivia, Brazil, British Guiana, British Honduras, Canada, Colombia, Costa Rica, Cuba, Dominican Republic.

Dutch West Indies (Aruba, Bonaire, Curacao, Saba, St. Eustatius, and the Dutch part of St. Martins); Ecuador, Great Britain, Ireland, Haiti, Honduras, Republic of.

Jamaica (including Turks, Caicos, and Cayman Islands).

Leeward Islands (Antigua with Barbuda and Redonda, St. Kitts, or St. Christopher, Nevis with Anguilla, Dominica, Montserrat, and British Virgin Islands), Martinique, Mexico, Newfoundland, New Zealand, Nicaragua, Panama, Peru, Salvador, Spain (including the Spanish colonies), Trinidad (including Tobago).

Uruguay, Western Samoa.

Windward Islands (Grenada, St. Vincent, the Grenadines, and St. Lucia).

Members of the American Army of Occupation in Germany.

Members of the United States Navy in foreign waters, who addressed care of the Postmaster at New York or San Francisco, as the case may be.

United States Naval Hospital, Yokohama, Japan.

The rate to all other foreign countries and places in foreign countries for letters is 5 cents for the first ounce or fraction thereof, and 3 cents for each additional ounce or fraction thereof.

**Foreign Postal Card Rate**—1 cent each to Argentina, Bolivia, Canada, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Honduras, Mexico, Nicaragua, Panama, Peru, Salvador, Uruguay, and Spain and her colonies. The rate is 2 cents each to other foreign countries.

**Rates on other matter for foreign countries**—Postal cards, double (with paid reply), 4 cents; Newspapers and other printed matter, each 2 ounces or fraction, 1 cent.

Printed matter in relief for use of the blind, each 18 ounces or fraction thereof, 1 cent.

Commercial papers, first 10 ounces or less, 5 cents; each additional 2 ounces or fraction, 1 cent; (limit of weight, 4 pounds 6 ounces).

Samples of merchandise, first 4 ounces or less, 2 cents; each additional 2 ounces or fraction, 1 cent; (limit of weight, 18 ounces).

# Astronomical Calculations for 1923.

THE Astronomical Calculations, beginning on the next page are given in local Mean Time, except as otherwise indicated, and were made expressly for THE WORLD ALMANAC by Arthur Newton of the United States Naval Observatory, Washington, D. C.

## CALENDAR FOR 1923.

## THE SEASONS.

In the temperate zones, these are four in number: Spring, Summer, Autumn and Winter; beginning respectively at the vernal equinox, the summer solstice, the autumnal equinox and the winter solstice; for which, in the north temperate zone, the approximate dates are March 21, June 21, September 23, and December 21. In the south temperate zone, the vernal equinox or the beginning of spring is September 23, the summer solstice or the beginning of summer is December 21, and so on.

The earth's axis continually points in the same direction and if the axis were perpendicular to the plane of the earth's orbit around the sun, there would be no change of seasons. Day and night would everywhere be of equal length and equable conditions of temperature would prevail throughout the year. But the axis is tilted 23° 27' away from a perpendicular to the orbit, and only in March and September is the axis at right angles to the direction of the sun. In those months occur the equinoxes, when day and night are equal the world over. In June, the North Pole is tilted 23° 27' toward the sun and the days in the northern hemisphere are longer than the nights; at the same

time, the days in the southern hemisphere are shorter than the nights. In December the North Pole is tilted 23° 27' away from the sun and the nights in the northern hemisphere are longer than the days; at the same time the nights in the southern hemisphere are shorter than the days.

The heating influence of the sun increases with the length of the day and with the sun's altitude at noon. The greatest daily accession of heat is, therefore, at the time of the summer solstice; and the least is at the time of the winter solstice. In June, in the north temperate zone, the heat received by day far exceeds the loss through radiation by night and it is not until July or August that the two become equal and the maximum temperature of the year is experienced. In December, the heat received by day falls to make good the loss by night and it is not until January or February that gain and loss become equal and the thermometer ceases to show a downward tendency.

The seasons, in 1923 (Eastern Standard Time—old) begin as follows: Vernal equinox (Spring), March 21 (10.29 A. M.); summer solstice (Summer), June 22 (6.03 A. M.); autumnal equinox (Autumn), Sept. 23 (9.04 P. M.); winter solstice (Winter), Dec. 22 (3.54 P. M.).

## THE ANCIENT AND MODERN YEAR.

The Athenians began the year in June, the Macedonians in September, the Romans first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins late in January or early in February, is

similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

## THE FRENCH REVOLUTIONARY ERA.

IN September, 1793, the convention decreed that the common era should be abolished in all civil affairs, and that the new French era should begin on September 22, 1792, the day of the true Autumnal Equinox, and that each succeeding year should begin at the midnight of the day on which the true Autumnal Equinox falls. The year was divided into twelve

months of thirty days each. In ordinary years there were five extra days, from the 17th to the 21st of our September, and at the end of every fourth year was a sixth complementary day. This reckoning was first used on November 22, 1793, and was continued until December 31, 1805, when it was discontinued, and the Gregorian Calendar was resumed.

## CHURCH FASTS.

THE Roman Catholic days of obligation are: Jan. 1 (Circumcision of Christ); Ascension Day (forty days after Easter Sunday); Aug. 15 (Assumption of the Blessed Virgin Mary); Nov. 1 (All Saints' Day); Dec. 8 (Immaculate Conception); Dec. 25 (Christmas), and all the Sundays of the year.

THE Roman Catholic Days of fasting are the forty days of Lent, the Ember Days, the Fridays of the four weeks in Advent, and certain vigils or evenings prior to the greater feasts, while all Fridays of

the year are days of abstinence from flesh meat. In the American Episcopal Church the days of fasting or abstinence to be observed, according to the Book of Common Prayer, are the forty days of Lent, the Ember Days, the three Rogation Days, and all the Fridays of the year except Christmas Day. In the Greek Church the four principal fasts are those in Lent, the week succeeding Whitsuntide, the fortnight before the Assumption, and forty days before Christmas.

## EMBER AND ROGATION DAYS.

EMBER and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember days (twelve annually), about the beginning of the four seasons, are the Wednesday, Friday, and Saturday after the first Sunday in Lent, in Spring; after the feast of Pentecost (Whit Sunday), Sum-

mer; after the festival of the Holy Cross, Autumn, and after the festival of St. Lucia, Winter. Ember Weeks are the weeks in which the Ember Days appear.

Rogation Days occur on the Feast of St. Mark, April 25, and on the three days immediately preceding Ascension Day.

Easter Sunday (Easter Day) is the first Sunday after the Paschal Full Moon, that is the first Sunday after the full moon on or next after March 21, and therefore cannot be earlier than March 22, or later than April 25. If the full moon falls on a Sunday, then Easter Day is the next Sunday.

Lent begins on Ash Wednesday, which comes 40 days previous to Easter Sunday, not counting Sundays.

## DIVISIONS OF TIME.

The interval between two consecutive meridian transits of a fixed star having no proper motion, or the interval during which the earth makes one absolute revolution on its axis, is invariable. Very slightly differing from this is a Sidereal Day, which is the interval between two consecutive transits of the Vernal Equinox over any meridian. Vernal Equinox is employed in two senses: it may mean either the date when Spring commences, or else, as here, the point in the heavens occupied by the sun's centre when Spring commences. The interval between two consecutive transits of the Sun over any meridian is called an Apparent Solar Day, and its length varies from day to day by reason of the variable motion of the earth in its orbit and the inclination of this orbit to the Equator on which time is measured.

A Mean Solar Day is the average or mean of all the apparent solar days in a year; it is equal to 1 day 3 minutes and 56.555 seconds, when measured in units of the Sidereal Day. Mean Solar Time is that shown by a well-regulated clock or watch, while Apparent Solar Time is that shown by a well-constructed sun-dial; the difference between the two at any time is the Equation of Time, and may amount to 16 minutes and 22 seconds. The Astronomical Day begins at noon and the Civil Day at the preceding midnight.

The interval during which the earth makes one absolute revolution round the Sun is called a Sidereal Year, and consists of 365 days 6 hours 9 minutes and 9.6 seconds, which is invariable.

The Tropical Year is the interval between two consecutive returns of the sun to the Vernal Equinox. If this were a fixed point, the Sidereal and Tropical Years would be identical; but in consequence of the action of the Sun and Moon upon the equatorial protuberance of the Earth's mass and, in a much less degree, the disturbing influence of the planets upon the Earth's orbit, the Equinox has a slow, retrograde mean motion of 50".26 annually, so that the Sun returns to the Equinox sooner every year than he otherwise would by 20 minutes 23.6 seconds; the Tropical Year, therefore, consists of 365 days 5 hours 48 minutes and 46 seconds. The Tropical Year is not of uniform length; it is now slowly decreasing at the rate of .530 second per century, but this variation will not always continue.

Julius Caesar, in B. C. 45, reformed the Roman calendar so that thereafter every fourth year should contain 366 days, and all the other years 365 days. The intercalary day was introduced by counting the sixth day before the Kalends of March twice, hence the name bissextile, from bis, twice, and sex, six. He also changed the beginning of the year from the first of March to the first of January, and also changed the name of the fifth month (Quintilis) to July, after himself. The average length of the Julian year is therefore 365 $\frac{1}{4}$  days, which, however, is too long by 11 minutes and 14 seconds, and this would accumulate in 400 years to about three days. The Julian Calendar continued in use until A. D. 1582, when the Gregorian Calendar was introduced by Pope Gregory XIII. with the view of keeping the Equinox to the same day of the year. Of the centennial years only those which are exactly divisible by 400 thenceforward

contained 366 days. The length of the mean Gregorian Year may therefore be set down at 365 days 5 hours 49 minutes 12 seconds, and the error will amount to one day in 3,000 years. The Gregorian Calendar was introduced into England and her colonies in 1752, at which time the Equinox had retrograded 11 days since the Council of Nice in A. D. 325, when the rule for Easter Day was established and the Equinox occurred on March 21; hence September 3, 1752, was called September 14, and at the same time the commencement of the legal year

was changed from March 25 to January 1, so that the year 1751 lost the months of January and February and the first 24 days of March. The difference between the Julian and Gregorian Calendars is now 13 days.

The Gregorian Calendar was adopted by Japan in 1873, by the Chinese Republic in 1912, by the Turkish Parliament in 1917, by the Bolshevik Government of Russia in 1918, and by Roumania in 1919. Bulgaria, Serbia, Greece and the Greek Church still use the Julian Calendar.

### STANDARD TIME.

The United States adopted standard time in 1883, on the initiative of the American Railway Association, and at noon of November 18, 1883, the telegraphic time signals sent out daily from the Naval Observatory at Washington were changed to the new system, according to which the meridians of 75°, 90°, 105° and 120° west from Greenwich became the time meridians of Eastern, Central, Mountain, and Pacific standard time, respectively.

By Act of Congress, approved March 19, 1918, standard time is made the legal time throughout the United States; in addition to the four time meridians already mentioned, the meridian 150° west from Greenwich is established the time meridian of standard Alaska time; authority to readjust the boundary line between the time zones is lodged with the Interstate Commerce Commission. The Commission has made the readjustment so as to bring the new limits of the zones about half way between the standard meridians.

United States standard Eastern time is used from the Atlantic Ocean to a line through Toledo, Monroeville, Mansfield and Newark, O.; thence through Huntington, W. Va.; Norton, Va.; Johnson City, Tenn.; Asheville, N. C.; Atlanta and Macon, Ga., and by the Gulf of Mexico to the Gulf of Mexico. U. S. standard Central time is used from this first line to a line through Mandan, N. D.; Pierre, S. D.; McCook, Neb.; Dodge City, Kan., and along west line of Okla. and Tex.; standard Mountain time is used from the second line to a line that forms the western boundary of Mont., and thence passes through Pocatello, Idaho; Ogden and Salt Lake City, Utah; Parker and Yuma, Ariz. U. S. standard Pacific time is used from the third line to the Pacific Ocean.

Almost all countries throughout the world use standard time based on the meridians 15° apart from Greenwich, while some use standard time based on the longitude of their national observatories.

## METHOD OF USING THE TABLE ABOVE, WITH NEW YORK CITY AS AN EXAMPLE.

Directions:—From New York City, subtract 4m from the Calendar for that city and the result is in Eastern standard time; for other cities, use the Calendar named at head of column and add or subtract the given number of minutes; this gives the required standard time, which is Eastern, Central, Mountain or Pacific, according as the letter E, C, M or P is found in the table. A small letter indicates that in case of sunrise and sunset, a correction for latitude is advisable; which correction is to be found in the table below, in the column headed by the small letter and on line with the date.

## CORRECTION TO SUNRISE.

| 31..... | 10.04      | 11.20       | 12.37       | 13.56       | 14.52       | 15.04       | 14.23       | 13.10       | 11.48       | 10.30       | 9.28        | 9.18       |

The above table of days' lengths at New York City serves as the basis for similar computations elsewhere.

## HOLIDAYS OF THE WORLD.

(For full list of fixed, historical, commemorative, and religious holidays, see 1919 ALMANAC.)

Christmas and New Year's are observed the world over.

In Episcopal countries, such as England, the only church days which are regular legal holidays, aside from Christmas, are Good Friday, Easter Monday, and Whit-Monday. This holds good for the British colonies, in some of which several Roman Catholic Church holidays are established. Whit-Sunday, or White Sunday, comes seven weeks after Easter. It commemorates the descent of the Holy Ghost upon the Apostles; the old feast of Pentecost.

In Roman Catholic countries, such as Spain, the church days other than Christmas which are almost universally legal holidays are Epiphany, Ascension, Assumption, All Saints', and Immaculate Conception. Throughout the Latin-American countries it is usual to observe, in addition, Good Friday and Corpus Christi. Good Friday is in many of these countries a 3-day holiday season, beginning on Holy Thursday and closing on Holy Saturday.

In Lutheran countries, such as Sweden and Prussia, Epiphany, Annunciation, Good Friday, Easter Monday, Ascension Day, Whit-Monday, Ash Wednesday, and Corpus Christi are holidays.

## OLD ENGLISH HOLIDAYS.

JANUARY 6. TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

FEBRUARY 2. CANDLEMAS: Festival of the Purification of the Virgin. Consecration of the

lighted candles to be used in the church during the year. Also known as "Groundhog Day."

FEBRUARY 14. OLD CANDLEMAS: St. Valentine's Day. MARCH 25. LADY DAY: Annunciation of the Virgin. April 6 is old Lady Day.

JUNE 24. MIDSUMMER DAY: Feast of the Nativity of John the Baptist. July 7 is old Midsummer Day.

JULY 15. ST. SWITHIN'S DAY. There was an old superstition that if rain fell on this day it would continue forty days.

AUGUST 1. LAMMAS DAY. Originally in England the festival of the wheat harvest. In the church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

SEPTEMBER 29. MICHAELMAS: Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

NOVEMBER 1. ALL-HALLOWMAS: 'All-hallows, or All Saints' Day. The previous evening is All-hallow-e'en, observed by home gatherings and old-time festive rites.

NOVEMBER 2. ALL SOULS' DAY: Day of prayer for the souls of the dead.

NOVEMBER 11. MARTINMAS: Feast of St. Martin. Old Martinmas is November 23.

DECEMBER 28. CHILDERMAS: Holy Innocents' Day. Lady Day, Midsummer Day, Michaelmas and Christmas are quarter (rent) days in England, and Whitsunday, Martinmas, Candlemas and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and Maundy Thursday, the day before Good Friday, are observed by the church. Mothering Sunday is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

## LEGAL OR PUBLIC HOLIDAYS IN

## THE UNITED STATES IN 1923.

The chief legal or public holidays are:

Jan. 1—New Year's Day (all the States, Territories and colonial possessions).

Feb. 12—Lincoln's Birthday (Alaska, Cal., Colo., Conn., Del., Ill., Ind., Ia., Kan., Ken., Mich., Minn., Mo., Mont., Neb., Nev., N. J., N. Y., N. Dak., Ohio, Ore., Pa., Porto Rico, S. Dak., Utah, Wash., W. Va., Wyo.).

Feb. 22—Washington's Birthday (all the States, Territories and possessions).

Mar. 30—Good Friday (Conn., Del., Fla., La., Md., Minn., N. J., Pa., Philippines, Porto Rico, Tenn.). In Conn. Good Friday is usually proclaimed by the Governor as a day of fasting and prayer.

May 30—Decoration or Memorial Day (all States and possessions, except Ala., Fla., Ga., La., Miss., N. Car., S. Car., Tenn. and Tex.).

July 4—Independence Day (all the States, Territories and possessions).

Sept. 3—Labor Day (every State and Territory except Wyoming and the Philippines).

## LAW AS TO NEGOTIABLE INSTRUMENTS.

*Under the Negotiable Instruments Law every negotiable instrument is payable at the time fixed therein without grace. When the day of maturity falls upon Sunday or a holiday, the instrument is payable on the next succeeding business day. In the United States legal holidays are fixed by State and Territorial legislation. No national holidays have been established by congressional action.*

## OTHER LEGAL OR PUBLIC HOLIDAYS NOT IN THE ABOVE TABLE.

Jan. 8—Battle of New Orleans (at New Orleans only).

Jan. 19—R. E. Lee's Birthday (observed in Ala., Ark., Fla., Ga., Miss., N. C., S. C., Tenn. and Va.).

Feb. 12—Georgia Day (in that State only. Date of Oglethorpe's landing in 1733).

Feb. 13—Shrove Tuesday (observed as Mardi Gras in Ala., Fla. and La.).

Feb. 14—Admission Day (in Arizona).

Mar. 2—Sam Houston Memorial Day (in Texas).

Mar. 4—Inauguration Day (once every 4 years in the Dist. of Col. only).

Mar. 22—Emancipation Day (in Porto Rico).

Mar. 25—Maryland Day (in that State only).

Mar. 30—Seward Day (in Alaska).

April 12—Date of passage of Halifax Resolutions (in North Carolina).

Mar. 29—Holy Thursday (in the Philippines).

April 13—Birthday of Thomas Jefferson (in Ala.).

April 19—Observed as Patriots' Day (in Me. and Mass.).

April (3rd Tuesday)—State elections (in La.).

April 21—Anniversary Battle of San Jacinto (in Tex.).

April 26—Confederate Memorial Day (in Ala., Fla., Ga. and Miss.).

April (Last Thursday)—Fast Day (in N. H.).

May 1—Labor Day (in Philippines).

May (1st Tuesday)—Pres. Primary Day (in Cal.).

May (2nd Sunday)—Mothers' Day.

Oct. 12—Columbus Day (every State and Territory except Alaska, Ark., Dist. of Col., Fla., Ga., Hawaii, Ia., Me., Minn., Miss., N. C., Okla., Philippines, So. C., S. Dak., Tenn., Utah, Va., Wis. and Wyo. In Kansas it is not a holiday as to courts or notes).

Nov. 6—General Election Day (1st Tuesday after 1st Monday in Nov.). Every State and Territory except Alaska, Dist. of Col., Hawaii, Ill., Mass., Miss., Ohio, Philippines and Vt. In Illinois it is a legal holiday in Chicago, Springfield, East St. Louis, Galesburg, Danville, Cairo and Rockford. In Ohio it is a half holiday. In Maine it is a legal holiday only as to the courts, which also close on the State Election Day (biennially, 2d Monday in Sept.).

Nov. 29—Thanksgiving Day (last Thursday in Nov. Every State, Territory and possession except Utah, where it is observed, though not on the statute books).

Dec. 25—Christmas Day (every State, Territory and possession).

May 10—Confed. Memorial Day (observed in S. C.).

May 20—Anniversary signing of Mecklenburg Declaration of Independence (observed in N. C.).

May (3rd Friday)—Primary Day (in Ore.).

June 3—Birthday of Jefferson Davis (in Ala., Ark., Fla., Ga., La., Miss., S. C., and Tex.).

June 3—Decoration Day (in Tenn.).

June 11—Kamehameha Day (in Hawaii).

June 14—Flag Day.

July 12—Muno Rivera Day (in Porto Rico).

July 25—Occupation Day (in Porto Rico).

Aug. 1—Colorado Day (in that State only).

Aug. 13—Occupation Day (in Philippines).

Aug. 16—Anniv. Battle of Bennington (in Vt.).

Aug. (Last Tues.)—Prim. Elec. Day (Cal. and Mich.).

Sept. (1st Tuesday)—Prim. Elec. Day (in Nev.).

Sept. (2nd Monday)—State Election Day (in Me.).

Sept. 6—Lafayette Day (also the anniversary of the First Battle of the Marne) is not a legal holiday, but is celebrated in New York and ten other States.

Sept. 9—Admission Day (in Cal.).

Sept. 12—Defenders' Day (in Md.).

Oct. 1—Missouri Day (in that State only).

Oct. 18—Alaska Day (in Alaska only).

Oct. 31—Admission Day (in Nev.).

Nov. 1—All Saints' Day (in La.).

Dec. 30—Rizal Day (in Philippines).

Child Labor Day (not a legal holiday) is observed in many of the States on the last Sunday in January.

## DATES ON WHICH ARBOR DAY IS OBSERVED.

THE Golden Anniversary of Arbor Day was celebrated throughout the United States on April 22, 1922, as a part of Forest Protection Week, by a proclamation from President Harding. The pioneer Arbor Day State is Nebraska, where the observance began in April, 1872.

The time of the observance of Arbor Day varies greatly in different States and countries, being determined somewhat by climatic conditions. Sometimes a day which is already a holiday is selected, as in Alabama and Texas, where Washington's Birthday has been chosen; and in Jamaica, on the late Queen Victoria's Birthday. In many States of the Union it is combined with Bird Day. In general the date is early in the year in the South, and is set further along toward Summer in the more northern States, beginning in February and ending in May. In the following list the date in parentheses is the year when the Arbor Day Law was first observed. If there is a second date not in parentheses it is the year when an Arbor Day Law was enacted:

Alabama (1887)—February 22.  
 Arizona (1890)—In 5 no. counties, Fri. after 1st day April. Elsewhere Fri. after 1st day February.  
 Arkansas (1906)—First Sat. in March.  
 California (1876)—March 7.  
 Colorado (1885)—3d Fri. in April. The Gov. issues proclamation.  
 Connecticut (1887)—1886. Early May, by procl. of Gov.  
 Delaware (1901)—April, by procl. of Gov.  
 District of Columbia (1919)—April 16, by proclamation of the District Commissioners.  
 Florida (1886)—First Fri. in February.  
 Georgia (1887)—1890. First Fri. in December.  
 Hawaii (1906)—First Fri. in November.  
 Idaho (1886)—Various dates in April named by County Supts.  
 Illinois (1886)—Procl. of Gov.  
 Indiana (1894)—1913. Third Fri. in April.  
 Iowa (1887)—Procl. by Governor.

Kansas (1875)—Option of the Governor.  
 Kentucky (1886)—In the fall by procl. of Gov.  
 Louisiana (1888-89)—Second Fri. in January.  
 Maine (1887)—Option of Governor.  
 Maryland (1889)—Second Fri. in April. Procl. of Governor.  
 Massachusetts (1886)—Last Sat. in April.  
 Michigan (1885)—Procl. of Gov., usually last Fri. in April.  
 Minnesota (1876)—Procl. of Gov., usually last part April.  
 Missouri (1886)—1889. First Fri. after first Tues. April.  
 Montana (1888)—Second Tuesday May.  
 Nebraska (1872)—April 22 (birthday J. S. Morton).  
 Nevada (1887)—Procl. of Governor.  
 New Hampshire (1886)—Procl. of Governor.  
 New Jersey (1884)—By law, second Fri. April.  
 New Mexico (1890)—Second Fri. Mar. Procl. of Gov.  
 New York (1889)—1889. Fri. after 1st of May.  
 North Carolina (1893)—1915. Fri. after Nov. 1st.  
 North Dakota (1882)—Option of Governor.  
 Ohio (1882)—Procl. of Gov. About middle of April.  
 Oklahoma (1898)—1901. Fri. fol. 2d Mon. in March.  
 Oregon (1889)—Second Fri. in April.  
 Pennsylvania (1885)—Procl. of Governor.  
 Porto Rico . . . . . Last Fri. in November.  
 Rhode Island (1887)—1896. Second Fri. in May.  
 South Carolina (1898)—1898. Third Fri. in Nov.  
 South Dakota . . . . . No law, gen. observ. in April.  
 Tennessee (1875)—1887. Appointed by County Superintendents in November.  
 Texas (1890)—1889. Feb. 22.  
 Utah . . . . . April 15, by statute.  
 Vermont (1885)—Opt. of Gov., usually 1st Fri. May.  
 Virginia (1892)—1902. Procl. of Gov. In spring.  
 West Virginia (1883)—Usually observ. 2d Fri. April.  
 Wisconsin (1889)—Proc. of Gov., usually 1st Fri. May.  
 Washington (1894)—Procl. of Gov., usually 1st Fri. May.  
 Wyoming . . . . . 1888. Procl. of Gov., usually 1st Fri. in May.

## ASTRONOMICAL

MEAN solar parallax, 8".80. Nutation constant, 9".21.  
 Aberration constant, 20".47. Annual precession, 50".2564 + 0".000222 (t—1903).  
 Obliquity of the ecliptic, 23° 27' 8".26—0".4684 (t—1900).  
 Annual diminution of obliquity, 0".4684.  
 Moon's equatorial horizontal parallax, 57' 2".63.  
 Moon's mean distance from the earth (centre to centre), 238,857 miles.  
 Sun's mean distance from the earth (astronomical unit), 92,897,400 miles.  
 Velocity of light, 186,324 miles per second.  
 Light travels unit of distance—viz. 92,897,400 miles in 498.580 seconds.  
 Length of the Year—Tropical (equinox to equinox), 365.2421988 days. Sidereal or absolute revolution, 365.2563604 days. Anomalistic (from perihelion to perihelion), 365.2593413 days.  
 Length of Day—Sidereal, 23 hours 56 minutes 4.091 seconds (mean solar time). Mean solar, 24 hours 3 minutes 56.555 seconds (sidereal time).  
 Length of the Month—Synodical (from new moon to new moon), 29 days 12 hours 44 minutes 2.8 seconds. Tropical, 27 days 7 hours 43 minutes 4.7 seconds. Sidereal (absolute revolution), 27 days 7 hours 43 minutes 11.5 seconds. Anomalistic (from perigee to perigee), 27 days 13 hours 18 minutes 33.1 seconds.  
 Dimensions of the Earth—Equatorial radius, 3,963.34 miles. Polar radius, 3,949.99 miles. Eccentricity of the oblate spheroid, 0.0819981.

## ASTRONOMICAL SIGNS AND SYMBOLS.

|   |            |   |          |
|---|------------|---|----------|
| ☉ | The Sun.   | ♂ | Mars.    |
| ☾ | The Moon.  | ♃ | Jupiter. |
| ☿ | Mercury.   | ♄ | Saturn.  |
| ♀ | Venus.     | ♅ | Uranus.  |
| ♁ | The Earth. | ♆ | Neptune. |

|   |                  |
|---|------------------|
| ☿ | Conjunction.     |
| ☾ | Quadrature.      |
| ☿ | Opposition.      |
| ♂ | Ascending Node.  |
| ♁ | Descending Node. |

Two heavenly bodies are in "conjunction" (☿) when they have the same *Right Ascension*, or are on the same *meridian*, i. e., when one is due north or south of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time; they are in "opposition" (♁) when in opposite quarters of the heavens, or when one rises as the other is setting. "Quadrature" (☾) is half way between conjunction and opposition. By "greatest elongation" is meant the

greatest apparent *angular* distance from the sun; the planet is then generally most favorably situated for observation. Mercury can be seen with the naked eye only at this time. When a planet is in its "ascending" (♂) or "descending" (♁) node it is passing through the plane of the earth's orbit. The term "Perihelion" means nearest to the sun, and "Aphelion" farthest from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

## THE ZODIAC.

THE sun's apparent yearly path among the stars is known as the ecliptic. The zone 16° wide, 8° on each side of the ecliptic, is known as the zodiac. Beginning at the point on the ecliptic which marks

the position of the sun at the vernal equinox, and thence proceeding eastward, the zodiac is divided into twelve signs of 30° each, as follows:

|        |                         |
|--------|-------------------------|
| Spring | 1. ☈ Aries. The Ram.    |
| Signs. | 2. ♉ Taurus. The Bull.  |
|        | 3. ♊ Gemini. The Twins. |
| Summer | 4. ☊ Cancer. The Crab.  |
| Signs. | 5. ♌ Leo. The Lion.     |
|        | 6. ♍ Virgo. The Virgin. |

These signs are named from the twelve constellations of the zodiac, with which the signs coincided in the time of the astronomer Hipparchus, about two thousand years ago. Owing to the precession of the equinoxes, that is to say, to the retrograde

|        |                               |
|--------|-------------------------------|
| Autumn | 7. ♎ Libra. The Balance.      |
| Signs. | 8. ♏ Scorpius. The Scorpion.  |
|        | 9. ♐ Sagittarius. The Archer. |

|        |                                   |
|--------|-----------------------------------|
| Winter | 10. ♑ Capricornus. The Goat.      |
| Signs. | 11. ♒ Aquarius. The Water-Bearer. |
|        | 12. ♒ Pisces. The Fishes.         |

motion of the equinoxes along the ecliptic, each sign in the zodiac has, in the course of two thousand years, moved backward 30° into the constellation west of it; so that the sign Aries is now in the constellation Pisces, and so on.

## ECLIPSES IN 1923.

## TOTAL ECLIPSE OF THE SUN.

THE year 1923 is notable for a total eclipse of the sun, the first since 1918 to be visible in the United States and the last until 1925. The path of total obscuration will be 105 miles wide and the central line will pass among the islands off the southern coast of California. The northern limit of totality will lie one mile to the northeast of Santa Barbara, twenty-five miles to the southwest of Los Angeles, ten miles to the southwest of Long Beach, and seventeen miles to the northeast of San Diego. California is the only State in which the total phase will be visible.

In the year 1923 there will be four eclipses in all, two of the sun and two of the moon.

1. A small partial eclipse of the moon on the night of March 2, visible in the United States, beginning at 9h. 28m. P. M. and ending at 11h. 36m. P. M., Eastern standard time. Visible generally in Europe, the Atlantic Ocean, and in North and South America.

Magnitude 0.376 (moon's diameter=1.0). First contact with the shadow is 54° from the north point of the moon toward the east. Last contact is 20° from the north point toward the west.

2. An annular eclipse of the sun, March 17. Visible generally as a partial eclipse in South America south of latitude 15° S. and in Africa south of latitude 10° N. The annular phase will be visible in Patagonia, the Falkland Islands, Southern Africa and in Madagascar.

## PARTIAL ECLIPSE OF THE MOON.

3. A small partial eclipse of the moon visible in the United States the morning of August 26, beginning at 4h. 52m. A. M., and ending at 6h. 27m. A. M., Eastern standard time; the moon setting eclipsed in the Eastern States. Visible generally in North America, the Pacific Ocean and Australia.

Magnitude 0.168 (moon's diameter=1.0). First contact with the shadow is 140° from the north point of the moon toward the east. Last contact is 171° from the north point toward the west.

4. As already noted, a total eclipse of the sun, September 10, visible as a partial eclipse over the whole of North America and the West Indies. The path of central or total eclipse begins in the Pacific Ocean near Kamchatka, passes to the south of the Aleutian Islands, skirts and overlaps the coast of California, passes through Lower California, Mexico, Yucatan, the Caribbean Sea and ends at sunset near the Lesser Antilles.

## TOTAL ECLIPSE OF THE SUN, SEPTEMBER 10, 1923.

(Where visible as a total eclipse.)

The following table shows the places at which the sun on Sept. 10, 1923, will be in total eclipse, with the data relating thereto:

| PLACE.                       | Standard Time. | Eclipse Begins. | Totality Begins. | Totality Ends. | Eclipse Ends. | Distance From Central Line. |
|------------------------------|----------------|-----------------|------------------|----------------|---------------|-----------------------------|
|                              |                | H. M.           | H. M. S.         | H. M. S.       | H. M.         | Miles.                      |
| Avalon, Cal. ....            | Pacific ..     | 11 29 A.M.      | 12 54 23 P.M.    | 12 57 11 P.M.  | 2 18 P.M.     | 33                          |
| Pt. Conception, Cal. ....    | " ..           | 11 23 A.M.      | 12 48 23 P.M.    | 12 51 27 P.M.  | 2 12 P.M.     | 28                          |
| San Clemente Isl., Cal. .... | " ..           | 11 28 A.M.      | 12 53 53 P.M.    | 12 57 27 P.M.  | 2 18 P.M.     | 7                           |
| San Diego, Cal. ....         | " ..           | 11 32 A.M.      | 12 57 37 P.M.    | 1 0 20 P.M.    | 2 21 P.M.     | 35                          |

## THE MAGNETIC POLES.

The geographical poles of the earth are the extremities of the imaginary line passing through its centre of gravity and about which it revolves, and therefore symmetrically located with regard to the equator.

The magnetic poles, however, are not coincident with the geographical poles, nor are they diametrically opposite to each other. Prior to the recent report of Amundsen to determine the north magnetic pole, the only other was by Capt. James Ross in June, 1831, who found the dip of the magnetic needle to be  $39^{\circ} 59' .5$ , in latitude  $70^{\circ} 5' .2$  N. and longitude  $96^{\circ} 45' .8$  W., which is in King William

Land, Canada. The result of Amundsen's observations has not yet been published by the Norwegian authorities.

For the south magnetic pole, from a consideration of all the results available, according to the United States Coast and Geodetic Survey, the position latitude  $72^{\circ} 7$  S. and longitude  $156^{\circ} E$ . has been tentatively adopted. These values are only roughly approximate, and for that reason are given only in degrees and tenths.

By reason of the annual variation of the magnetic needle, it is believed that the magnetic poles are not stationary, but have a slow motion around the geographical poles.

## THE PLANETS AND THE SOLAR SYSTEM.

## THE MOON.

Of all the secondary planets the earth's satellite is by far the most interesting and important. The moon completes her circuit around the earth in a period whose mean or average length is 27 days 7 hours 43.2 minutes; but in consequence of her motion in common with the earth around the sun, the mean duration of the lunar month—that is, the time from new moon to new moon—is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period. If the earth were motionless in space the moon's orbit would be nearly an ellipse, having the earth in one of the foci; hence her distance from the earth varies during the course of a lunar month. Her mean distance from the earth is 238,857 miles. Her maximum distance, however, may reach 252,715 miles, and the least distance to which she can approach the earth is 221,466 miles. Her diameter is 2,160 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon—viz., 3,963 and 1,080 miles, respectively—we shall have for the nearest approach of the surfaces of the two bodies 215,423 miles. Her orbit is a very intricate one, because the earth in moving around the sun carries the moon along with it; hence the latter is sometimes within and sometimes without the earth's orbit. Its form is that of a serpentine curve, always *concave* toward the sun, and its plane is inclined to the plane of the earth's orbit at an angle of  $5^{\circ} 9'$ , in consequence of which our satellite appears sometimes above and sometimes below the plane of the earth's orbit, through which she passes twice in a revolution. These points of intersection with the ecliptic are called nodes, and it is only at or near them that eclipses can occur. The nodes have a retrograde motion, which causes them to make an entire revolution in 18 years 218 days 21 hours 22 minutes and 46 seconds. Both sun and moon return to a node after 18 years and 11 days, so that an eclipse is followed by another of the same general character at the end of this period, which was well known to the ancients, who called it the Saros; and which was made use of by them in roughly predicting eclipses.

The moon always presents the same face to us, as is evident from the permanency of the various markings on her surface. This circumstance proves that she revolves on an axis, and the time of rotation is exactly equal to the time of revolution around the earth—viz., 27.32166 days. The moon's axis is not perpendicular to the plane of her orbit, but deviates therefrom by an angle of about  $6^{\circ} 41'$ . In

consequence of this fact the poles of the moon lean alternately to and from the earth. When the north pole leans toward the earth we see somewhat more of the region surrounding it, and somewhat less when it leans the contrary way. This displacement is known by the name of libration in latitude. By reason of irregular motion in her orbit, we see more of her eastern or western edge at one time than at another. This phenomenon is known as libration in longitude.

The moon's surface contains about 14,657,000 square miles, or nearly four times the area of Europe. Her volume is 1.49 and her mass 1.81 that of the earth, and hence her density is about 3.5 that of the earth, or about 3.25 that of water. At the lunar surface gravity is only 1.6 of what it is at the earth, and the bodies which weigh 6 pounds here would weigh only 1 pound there.

The centre of gravity of the earth and moon, or the point about which they both actually revolve in their course around the sun, lies *within* the earth; it is 1,050 miles below the surface.

The tides are caused mainly by the moon; the tide-raising power of moon and sun being as 11 to 5.

Astronomers cling to the old idea that the moon is a dead world, destitute alike of air and water. But the recent observations of W. H. Pickering made at Mandeville, Jamaica, go to show that many changes occur with the alternation of lunar day and night: Great snowfields form in the mountain valleys and then melt away; fog banks are seen and, very rarely, drifting clouds. The loftiest peaks are snow-capped. The moon's surface is pitted with volcanic craters; some of these measure 100 miles across. Each crater is surrounded by a mountain ring 1,000 to 20,000 feet in height. According to Pickering, there are few, if any, such large and continuously active volcanic regions upon the surface of our earth. But the activity of the lunar volcanoes is now confined to the quiet emission of steam, jets like those found in our Yellowstone National Park. Certain variable dark areas on the moon may be due to vegetation.

## THE EARTH'S ATMOSPHERE.

The earth's sensible atmosphere extends more than 100 miles in height. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying, by absorbing, the otherwise intense heat of the sun, and, when laden with clouds, hindering the earth from radiating its acquired heat into space.

## THE MOON'S PERIGEE AND APOGEE.

(Eastern Standard Time.)

|                | 25 8 A. M.  |                |             | July.....     | 7 7 A. M.  |                |             |

Each month the moon is said to be in perigee when nearest to the earth and in apogee when furthest from the earth. The average time from perigee to perigee, or from apogee to apogee is 27d. 13h. 18m. and this period is known as the anomalistic month. The moon's distance when in perigee or apogee is not exactly the same in

different months but varies considerably according to the phase and the month of the year. The distance is the very least when the full moon nearest to January 1 occurs at the time of perigee. And the distance is the very greatest when the new moon nearest to January 1 occurs at the time of apogee.

## HALLEY'S AND OTHER COMETS.

Of the great number of comets which have temporarily visited our solar system or have become permanent members of it none has surpassed Halley's in historical associations. It has a record dating back to B. C. 240; its visitations spread alarm and consternation throughout Europe during the Middle Ages; it was the first whose return was predicted by an Astronomer Royal of England, and will therefore, for these reasons, be an object of great scientific interest for all time. Its periodic time is 76.8 years, and in April, 1910, it made the perihelion passage for the twenty-ninth time.

## ENCKE'S COMET.

The second of the periodic comets to be discovered was Encke's, as Halley's was the first. Encke's Comet has the shortest period known, namely, about forty months. The observed visitations, from January, 1819, to June, 1921, form an uninterrupted series, thirty-two in number.

Encke's is unique among comets in that its motion is constantly accelerating and its period is decreasing in proportion, being now 1,203 days as compared

with 1,205 days in 1819. At first this was ascribed to a resisting medium; but it is more probably due to repeated passage of the comet through a cloud of meteors.

## COMETS OF 1843 AND 1882.

In the last 100 years only two comets have been brilliant enough to be seen by day with the unaided eye. Of these one was in February, 1843; the other in September, 1882. Together with the comet of 1668 and that of 1887, they form a comet group; each member, at perihelion, nearly brushes the sun's surface, that of 1843 having a velocity of 366 miles per second and passing halfway around the sun in two hours. These visitors are expected to return after six or seven centuries. The four comets were probably a single body until too close an encounter with the sun resulted in disruption.

## DONATI'S COMET.

This was the first comet of the nineteenth century and is known as the typical comet. In October, 1858, its tail reached halfway from the horizon to the zenith. Its period is 2,000 years.

## DOES THE MOON AFFECT WEATHER ON THE EARTH?

There has been a renewal recently of the controversy as to whether the moon at its changes of phases has any influence on the weather. United

States Weather Bureau officials say there is no such influence, but the old legend to the contrary persists.

## PLANETARY CONFIGURATIONS 1923.

## DENSITY OF STARS.

From the photometric study of eclipsing binary stars it has been shown by Roberts and by Russell that the average densities of these stars is small, no more than one-eighth of that of the sun. On this and other grounds astronomers are of the opinion that stars are generally less dense than the sun; that is, that they occupy a larger volume when of equal mass. The sun is only 1.4 times as dense as water, or half as dense as glass, while our earth is 5.5 times as dense as water, or 4 times as dense as the sun.

We may suppose that certain meteors are efficacious for troubling the surface of the sun because they are subject to closer approaches to it. Turner was led to adopt the idea, formerly held by J.

Herschel, while trying to represent the variable frequency of sun spots by a series of periodical terms. For a course of years certain constant values may be adopted for the coefficients of these terms, and then these values have to be altered. The epochs of all these perturbations, according to Turner, fall close to the time of the perihelion passage of the Leonides. It is true the distance of the Leonides from the sun, even at perihelion passage, is somewhat great and necessitates recourse to a secondary stream derived through the intervention of some planet. This theory finds a certain degree of confirmation in the Chinese annals, which record ancient increases in sun spots when the Leonides swarm must have passed close to Saturn.

## THE HEAT OF THE STARS.

The heat of three stars—Aldebaran, Capella and Betelgeuse—has been measured by R. G. Abbott and L. B. Aldrich of the Smithsonian Institution at the Carnegie Solar Observatory on Mt. Wilson, Cal.

The heat of the stars first was gathered and brought to focus by the 100-inch telescope. The heat and light then were passed through a prism

and spread out into a rainbow-colored spectrum. The observers then measured the light in each color as well as the invisible heat.

As the hotter a body is the whiter and bluer is its light, the intensities of the heat in the various colors allowed an estimate of the temperature of the stars, which was fixed at approximately 10,000 degrees centigrade, or 18,000 degrees Fahrenheit.

## POLE STAR.

MEAN TIME OF TRANSIT (AT WASHINGTON) AND POLAR DISTANCE OF POLARIS.

From June 10 to August 1 both the upper and lower transits take place during daylight. The azimuth at the time of greatest Eastern or Western elongation can be easily computed from the formula:

$$\sin A = \frac{\sin p}{\cos l}$$

where  $A$  denotes the azimuth,  $p$  the polar distance, and  $l$  the latitude of the place.

## TIME OF GREATEST ELONGATION.

In the United States, the greatest Eastern elongation of Polaris occurs 5h. 55m. before upper transit and 6h. 3m. after lower transit; while the greatest Western elongation occurs 5h. 55m. after upper transit and 6h. 3m. before lower transit.

## STAR TABLE.

FOR IDENTIFYING THE PRINCIPAL FIXED STARS.

| NAME OF STAR.                              | Magni-<br>tude. | Deci-<br>lina-<br>tion. | On<br>Meridian.            | NAME OF STAR.                                   | Magni-<br>tude. | Deci-<br>lina-<br>tion. | On<br>Meridian.            |

To find the time of the star's transit, add or subtract, according to the sign, the hours and minutes given in the "On Meridian" column, applying them to the time of the transit of the pole star given above. Thus, for  $\alpha$  Andromedæ, February 11; lower transit of the pole star is 4h. 11m. 34s. A. M., to which add 10h. 29m., and we have 2h. 41m. P. M.; for December 1, we find 7h. 26m. P. M., etc.

## APPROXIMATE PARALLAX AND DISTANCE IN LIGHT-YEARS OF SOME OF THE PRINCIPAL FIXED STARS.

By light-years is to be understood the number of years light requires to travel from the star to us.

| NAME OF STAR.                          | Magni-<br>tude. | Par-<br>al-<br>lax. | Light-<br>Years. | NAME OF STAR.                              | Magni-<br>tude. | Par-<br>al-<br>lax. | Light-<br>Years. |

The determination of stellar parallax is one of the most difficult and refined problems in practical or observational astronomy. It is to find the angle which the semi-diameter of the earth's orbit subtends at the star—an angle always very small, as seen from the above table, and which cannot be measured directly but by various processes too complicated to be explained here.

During the last year calculations of astronomers, based on Prof. Einstein's relativity theory, have caused some doubt as to the accuracy of earlier estimates of the distances of remote stars.

## MAGNETIC DECLINATIONS.

OR VARIATION OF COMPASS FOR JANUARY, 1923—WITH THE ANNUAL CHANGE BETWEEN 1915 AND 1922 FOR SELECTED PLACES IN THE UNITED STATES.

A plus (+) sign to the annual change denotes that the declination is increasing, and a minus (—) sign the reverse.

(Specially prepared for THE WORLD ALMANAC in the Office of the United States Coast and Geodetic Survey.)

### LATITUDE AND LONGITUDE TABLE.

(LONGITUDE RECKONED FROM GREENWICH)

Specially prepared for THE WORLD ALMANAC by the United States Coast and Geodetic Survey.

[illegible]

\* Observatories Lt. denotes a lighthouse. † Highest latitude in U. S. territory.

HIPPARCHUS FIRST DETERMINED LATITUDE AND LONGITUDE.

**HIPPARCHUS FIRST DETERMINED LATITUDE AND LONGITUDE.**  
Latitude is said to have been first determined by Hipparchus of Nice, about 162 B. C.  
Hipparchus also first determined longitude.

Latitude of a place is its angular distance from the equator and is measured by an arc of the meridian between the zenith and the equator. Longitude of a place is measured by the arc of the equator, intercepted between the prime meridian and the meridian passing through the place, or by the angle at the pole between these two meridians.

EXAMPLE.—To find the approximate standard time of high tide at Atlantic City, N. J., on any day, find first the time of high water at New York under the desired date, and then subtract 51 minutes, as in the above table; the result is the time of high water required.

## AVERAGE RISE AND FALL OF TIDE.

Highest tide at Eastport, Me., 218 inches.

## VARIATIONS IN RAINFALL.

Cultivation of semi-arid lands does not cause any appreciable difference in the rainfall in that region, according to records of the Weather Bureau of the Department of Agriculture. Special attention has been given by the bureau to this subject and in arriving at this conclusion the specialists delved into the weather records for the last fifty years. During that period there has been a decided increase in the area under cultivation in the Great Plain States. If increasing the area of cultivation in any district increased the precipitation, the specialists point out, a steady rise in the annual rainfall of this

region could be expected. Instead of a regular increase, the records show there are well-defined but comparatively short periods of increasing and decreasing rainfall, which cannot be due to cultivation.

The records of the average rainfall over the Western Great Plains show that for twenty-five years from 1868 to 1892 inclusive, it was 19.2 inches, and from 1893 to 1917 inclusive, 18.4 inches. Over the Southern Great Plains the average rainfall for the twenty-five years, from 1868 to 1892 inclusive, was 19.8 inches, and for the next twenty-five years only 17.8 inches.

## WEATHER SEASONS NOT CHANGING, SAYS U. S. WEATHER BUREAU.

The coldest January at New Haven, Conn., since 1790 was in 1857. The coldest February occurred eight years after the warmest one. The coldest March was as late as 1870 and again in 1885. The coldest April was in 1874, and many years after the warmest one. The lowest temperature in May was in 1812, 1815, 1870, and 1882. The highest

figures in June were in 1779, 1790, 1803, and 1876. In July the lowest was in 1816, with the warmest as early as 1780 and equalled in 1876. The coldest August occurred 61 years after the warmest. In September the coolest months were in the earlier years, but for October, November, and December the coldest year came after the warmest year in each case.

# WEATHER FLAGS.

## OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.

The Weather Bureau furnishes, when practicable, for the benefit of all interests dependent upon weather conditions, the "Forecasts" which are prepared daily at the Central Office in Washington, D. C., and certain designated stations. These forecasts are telegraphed to stations of the Weather Bureau, railway officials, postmasters, and many others, to be communicated to the public by telegraph, telephone, "wireless" and mail or by means of flags or steam whistles. The flags adopted for this purpose are five in number, and of the forms and colors indicated below:

### EXPLANATION OF WEATHER FLAGS.

| No. 1.<br>White Flag.                                                            | No. 2.<br>Blue Flag.                                                              | No. 3.<br>White and<br>Blue Flag.                                                 | No. 4.<br>Black Trian-<br>gular Flag.                                             | No. 5.<br>White Flag with<br>black square in<br>Centre.                           |
|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |  |  |  |
| Fair weather.                                                                    | Rain or snow.                                                                     | Local rain or snow.                                                               | Temperature.                                                                      | Cold wave.                                                                        |

When number 4 is placed above number 1, 2 or 3, it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary.

### WHISTLE SIGNALS.

A warning blast of from fifteen to twenty seconds' duration is sounded to attract attention. After this warning the longer blasts (of from four to six seconds' duration) refer to weather, and shorter blasts (of from one to three seconds' duration) refer to temperature; those for weather are sounded first.

| Blasts.         | Indicate.           | Blasts.          | Indicate.           |
|-----------------|---------------------|------------------|---------------------|
| One long.....   | Fair weather.       | One short.....   | Lower temperature.  |
| Two long.....   | Rain or snow.       | Two short.....   | Higher temperature. |
| Three long..... | Local rain or snow. | Three short..... | Cold wave.          |

By repeating each combination a few times, with intervals of ten seconds, liability to error in reading the signals may be avoided.

The forecast messages are telegraphed at the expense of the Weather Bureau to places where they are distributed to nearby and local communities; they are furnished at the regular commercial rates and sent "collect." In no case are the forecasts sent to a second address in any place, except at the expense of the applicant.

## SMALL CRAFT, STORM AND HURRICANE WARNINGS

### OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.

(For lantern signals, see reading matter below the cuts.)

#### VERIFICATION OF FORECASTS.

The U. S. Weather Bureau in its Administrative Report, claims that its A. M. 36-hour forecasts throughout the whole country, averaged (1915-1919) 86.5 per cent. correct for weather, and 90.2 per cent. correct for temperature. For the Eastern New York locality, in the same period, it is claimed, the A. M. 36-hour forecasts were 85.7 per cent. correct as to weather, and 89.9 per cent. correct as to temperature. The highest percentage of accurate weather forecasts (92.6) was for Southern California; the lowest (81.6) in Upper Michigan. The highest accuracy in temperature forecasts (96.4) was in Florida; the lowest (84.4) in Montana.

All square flags shown here are red with black centre when displayed as warnings.

| Small craft.                                                                       | Storm.                                                                              | Hurricane.                                                                          |

**Small Craft Warning**—A red pennant indicates that moderately strong winds that will interfere with the safe operation of small craft are expected. No night display of small craft warnings is made.

**Northeast Storm Warning**—A square red flag with black centre displayed by day, or two red lanterns, one above the other, displayed by night, indicates the approach of a storm of marked violence with winds beginning from the northeast.

**Southeast Storm Warning**—A red pennant below a square red flag with black centre displayed by day, or one red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the southeast.

**Southwest Storm Warning**—A white pennant below a square red flag with black centre displayed by day, or a white lantern below a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the southwest.

**Northwest Storm Warning**—A white pennant above a square red flag with black centre displayed by day, or a white lantern above a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the northwest.

**Hurricane, or Whole Gale Warning**—Two square flags, red with black centres, one above the other, displayed by day, or two red lanterns, with a white lantern between, displayed by night, indicate the approach of a tropical hurricane, or of one of the extremely severe and dangerous storms which occasionally move across the Great Lakes and Atlantic coast.

## NORMAL TEMPERATURE AND RAINFALL.

MERCURY  
FREEZES.

## RULES FOR FORETELLING-THE WEATHER.

ADAPTED FOR USE WITH ANEROID BAROMETERS.

## A RISING BAROMETER.

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in Summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

## A STEADY BAROMETER

with dry air and seasonable temperature indicates a continuance of very fine weather.

## A FALLING BAROMETER.

A rapid fall indicates stormy weather.

A rapid fall with westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in Summer, and snow in Winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in Winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

The barometer rises for northerly winds, including from northwest by north to the eastward for dry or less wet weather, for less wind, or for more than one of these changes, except on a few occasions.

when rain, hail or snow comes from the northward with strong wind.

The barometer falls for southerly wind, including from southeast by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

## DURATION OF DIFFERENT KINDS OF WEATHER IN THE SEVERAL STORMS—VICINITY OF NEW YORK.

| CRITICAL WINDS.         | Clear Hours. | Cloudy Hours. | Rain Hours. | Clearing Hours. |
|-------------------------|--------------|---------------|-------------|-----------------|
| South to Southwest..... | 9            | 8             | 8.3         | 14              |
| South to Southeast..... | 14           | 13.4          | 15.6        | 15.4            |
| East to Northeast.....  | 20           | 17.6          | 31          | 20.6            |

## WEATHER WISDOM.

A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise, with clouds lowering later in the morning, also indicates rain. A halo occurring after fine weather indicates a storm. A corona growing smaller indicates rain; growing larger, fair weather. A morning rainbow is regarded as a sign of rain; an evening rainbow of fair weather. A deep-blue

color of the sky, even when seen through clouds, indicates fair weather, a growing whiteness an approaching storm. Fogs indicate settled weather. A morning fog usually breaks away before noon. Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars, indicate rain. The first frost and last frost are usually preceded by a temperature very much above the mean.

## ABSOLUTE ZERO—ABSOLUTE TEMPERATURE.

The zero points on the Fahrenheit, Centigrade, and Reaumur thermometer scales are simply arbitrary. Absolute zero—the point at which bodies on the earth are entirely devoid of heat—exists at 459.4 degrees below the Fahrenheit and 273.1 degrees below the Centigrade zero points. This is the

beginning of what is known in dynamic meteorology as Absolute Temperature, as determined by observations of the contraction of gases when cooled, and from thermo-dynamical considerations. Thus, water freezes at 273.1 degrees of Absolute Temperature on the Centigrade scale of registration.

## THE MEANING OF "1 INCH OF RAIN."

An acre of ground contains 43,560 square feet. Consequently, a rainfall of 1 inch over 1 acre of ground would mean a total of 43,560×144, or 6,272,640 cubic inches of water. This is equivalent to 3,630 cubic feet. As a cubic foot of pure water weighs about 62.4 pounds, the exact amount varying slightly with the density, it follows that the weight of a uniform coating of 1 inch of rain over 1 acre of surface would be 3,630×62.4=226,512 pounds, or 113½ short tons.

The weight of 1 United States gallon of pure

water is 8.345 pounds. Consequently a rainfall of 1 inch over 1 acre of ground would mean 226,512÷8.345=27,143 gallons of water on the acre. This is equivalent to 603 barrels of 45 gallons each, and would be sufficient to fill a tank or pool about 20 feet square and 9 feet in depth.

A rainfall of 1 inch on a roof of 3,000 square feet capacity would mean a total volume of 432,000 cubic inches, or 250 cubic feet, available for the cistern (loss from splashing, etc., not considered). This is equal to 1,870 United States gallons, or about 41.5 barrels of 45 gallons each, enough to fill a cistern 8 feet in diameter to a depth of 4.97 feet.

# Record of the Year.

## Chronology, Dec. 12, 1921—Dec. 12, 1922.

### 1921—DECEMBER.

ec. 12.—At N. Y. City pleas of guilty to violation of the Sherman anti-trust law were entered in the Fed. Court by corporations and 10 individuals, members of the Nat. Terra Cotta Assoc.  
 —At Phoenix, Ariz., Roy Gardner pleaded guilty in the U. S. Court to attempting to rob a mail car and got 25 years in a Federal penitentiary.  
 —4,000 meat employees struck at N. Y.  
 —Amer 4-masted schooner, Blue Peter, was abandoned after 100 miles off Uruguay.  
 ec. 13.—Delegates of the U. S., Britain, France and Japan signed, at Wash., D. C., 4-Power Pacific treaty, preserving for 10 yrs. status quo there.  
 —U. S. Rail Labor Board established 10-hour day for rail laborers.

### U. S.—HUNGARY PEACE PACT.

—Hungary ratified peace with the U. S.  
 —At Waco, Tex., "Curley" Hackney, white, accused of attack on girl, was taken from jail and hanged.  
 —Iowa Supreme Court ruled women may be jurors.  
 —100 died when the Sigurania Palace, Bessarabia, was bombed.  
 ec. 14.—Japanese Gov't, at Tokio, announced acceptance of the 5-5-3 naval armament ratio proposed by U. S.  
 —Marshal Foch and ex-Premier Viviani left N. Y. for France.  
 —At Toledo, O., Charles Schultz, convicted of conspiracy in connection with the \$1,000,000 Post Office robbery there Jan. 17 last, pleaded guilty to robbery and was sentenced to 40 years in the penitentiary. James Sansome pleaded guilty to the robbery charge and was sentenced to 39 years and one day. Father Anthony Gorek, of New Chicago, Ind., who confessed he received \$87,000 of bonds from Wanda Urbavits, was sentenced to one hour in the custody of the U. S. Marshal.  
 —250 Filipinos were drowned by tidal wave, Island of Negros.

ec. 15.—Peeler Clayton, stockman, was shot to death at Austin, Tex., by alleged Ku Klux men.  
 —J. A. Elston of Berkeley, Cal., Rep. in Congress from Sixth District of that State, committed suicide by drowning in Potomac River.  
 —Jos. Carroll, John Smith, and C. G. Sims were killed by masked men, Wilson, Okla.

### IRISH PEACE TREATY RATIFIED.

ec. 16.—British Parliament ratified Irish treaty.  
 ec. 17.—At Welch, W. Va., Detective C. E. Lively, "Buster" Pence and William Saters, charged with the killing of Ed Chambers, of Matewan, at Welch last August, were freed by a jury.  
 —U. S. House passed bill for \$20,000,000 Russian famine relief; Senate passed it Dec. 20, President signed Dec. 23.  
 ec. 18.—Hungary and the U. S. exchanged peace ratifications at Budapest.  
 ec. 19.—Many were killed or wounded in revolution at Lisbon.  
 —\$200,000 fire destroyed 4 hangars at Langley Field, Newport News, Va.  
 —A court of 3 Fed. Judges, at San Francisco, upheld Calif. anti-alien land law.  
 ec. 20.—G. H. Taylor, of Phil., told U. S. Senate committee, at Wash., he saw 12 Amer. soldiers hanged in one camp in France (Le-sur-Tuil).  
 —At Montross, Va., R. T. Eastlake, ex-navy officer, charged with murder of his wife at Colonial Beach, Va., Sept. 30, last, was found not guilty by a jury.  
 ec. 21.—Rev. Caleb R. Stetson was inducted rector of old Trinity P. E. ch., N. Y.—the 12th pastor in 221 years.  
 —At Leipzig, Dr. Traugott von Jagow, former Berlin Police Commissioner, was sentenced to five years' imprisonment for part in Kapp revolt of March, 1920. Baron von Wangenheim and Dr. Schiele were acquitted.  
 —5 were killed when Orient express hit rear of local train at Sandona, de Pavia, Italy.

ec. 22.—The Irish Parliament adjourned to Jan. 3.  
 —Congress adjourned to Jan. 3.  
 —Colombian Congress ratified treaty with U. S., settling for \$25,000,000 Colombia's Panama claims.  
 ec. 23.—President Harding pardoned 5 soldiers and committed, to end on Christmas Day, the sentences of 24, including Eugene V. Debs, who were convicted under the Espionage Act. The soldiers, sentenced at Coblenz for life for the killing of an

ex-British officer, are: Carl J. Bryan, J. A. O'Dell, Roy Youngblood, Geo. Van Gilder, and J. B. Richardson. Those commuted besides Debs were: Chas. Ashleigh, Orville Anderson, Giovanni Baldazzi, D. T. Blodgett, Thos. Carey, J. T. Cumble, J. M. Coldwell, Claus Freese, W. G. Head, Gus. H. Jacobsen, Mrs. I. Kennedy, J. L. Murphy, Walter Phillips, Jose' Prado, Molick Fleron, Wilh. Schumann, A. J. Schur, M. L. Smitkin, A. J. Stopa, H. L. Trelease, Ed. Hamilton, Jack Law, A. B. Prashner; at Ellis Island, 1,100 aliens held for deportation, were freed.

—At Toledo, Geo. Rogers (Lewis), alleged postal robber, got 67-year sentence.  
 ec. 24.—Anti-British outbreaks continue in Egypt. Among those killed at Cairo was "Prof. Jean Orth," who claimed to be the Austrian Archduke who vanished in 1890.  
 —Judge Thayer, at Braintree, Mass., denied new trial to Nicolò Sacco and Bartholomeo Vanzettie for the murder of Fred'k A. Parmenter and his guard, Alessandro Berardelli, April, 1920.  
 —Canada opened the Chippewa-Queenston Power Canal.

### EGYPTIAN NATIONALISTS' OUTBREAK.

ec. 25.—Egyptian outbreak reaches Port Said.  
 ec. 26.—All-Russian Soviet Congress is in session at Moscow.  
 —E. V. Debs called on Atty. Gen. Daugherty and Pres. Harding at Washington.  
 —Troops killed 5 at Cairo, Egypt; 3 at Suez and Port Said.  
 —Manuel Head, slayer of W. H. Decker, was lynched at Key West, Fla.

- Oct. 8—"Safety Week" began at N. Y.
- Oct. 9—Fire destroyed at Tokio, \$1,750,000 flour mill and \$1,000,000 laboratory of Imperial University.
- Eugene Field memorial statue was unveiled, Lincoln Park, Chicago.
- ### MUDANIA ARMISTICE SIGNED.
- Oct. 10—At Mudania, Britain, France and Turkey signed armistice; evacuation of Thrace in 45 days is promised. Turkish, Greek delegate did not sign, but accepted armistice. Later Greece agreed to evacuate Thrace.
- Elephant escaped from circus train and did damage to property at Wilmington, N. C.
- Oct. 11—Cunard and Anchor steamship lines got from U. S. Court at N. Y., order on U. S. Atty. Gen. Daugherty to show cause why the Government be not enjoined from prohibiting liquor on foreign ships in U. S. waters.
- Oct. 12—Steamship City of Honolulu, afloat, was abandoned in Pacific; 217 passengers and crew were saved.
- Clifford Hayes, arrested as suspect in murder of Rev. E. W. Hall, and Mrs. Mills, was set free, at New Brunswick, N. J.
- The Harlem River Speedway, N. Y., was opened to motor vehicles.
- Oct. 13—Arbitration tribunal at The Hague has awarded \$12,000,000 to Norway for ships requisitioned by U. S. in World War. U. S. objected to award as irregular.
- Oct. 14—Safety Week at N. Y. had a total of 22 deaths by accidents as against 70 in the corresponding week in 1921.
- "Pennsylvania," New York's first telephone machine switching central office, was placed in operation.
- Crowds gathered at the Leipzig court building to hear the verdict sentencing nine young men from two months' to fifteen years' penal servitude for participating in the murder of Foreign Minister Rathenau. Four suspects were acquitted.
- Oct. 15—60,000 soft coal miners demanding union contract recognition are still on strike in central and western Penn., after over 7 months' idleness.
- At Albalilla the King and Queen of Roumania were crowned.
- At Berlin 2 police and 2 Communists died in riots.
- Oct. 16—Britain notified U. S. that the former will not consent to the search of vessels flying the British flag outside the three-mile limit of the American coast by customs officers seeking liquor smugglers.
- Fire destroyed property at Tampico, Mex., valued at 1,000,000 pesos.
- Hazing has broken out again at U. S. Naval Acad., Annapolis.
- Oct. 17—U. S. Army dirigible airship C-2 was destroyed by explosion, San Antonio, Tex.; 7 were hurt.
- The American Cotton Exchange went into receivership at N. Y.
- 29 died when Dutch steamer **Cornelis** sank in Gulf of Bothnia.
- Oct. 18—Mrs. Ivy Giberson was convicted at Toms River, N. J., of murdering her husband, W. F. Giberson, at Lakehurst, last August, and was sentenced to life imprisonment.
- ### LOYD GEORGE RESIGNS.
- Oct. 19—British Premier Lloyd George and his Cabinet resigned when Unionist wing of Coalition voted, 186 to 87, to withdraw. Bonar Law became Premier Oct. 25.
- Oct. 20—Portland, Ore., began to ride I. W. W. out of city.
- Fire did \$300,000 damage to newsprint paper mill, Lambertville, N. J.
- Capt. R. E. Brumbaugh, naval student pilot, died in plane fall, Pensacola, Fla.
- Oct. 21—At Towson, Md., Walter Socolow, who was kidnapped recently from a N. Y. City Court room, was found guilty of murdering W. B. Norris, May 18, in a hold-up, and sentenced to life imprisonment.
- Oct. 22—16 were killed, 20 hurt, in tenement fire, Lexington ave. and 110th st., N. Y.
- Oct. 23—U. S. Judge Hand, at N. Y., ruled that no ship afloat, no matter of what flag, shall enter the three-mile limit with liquor aboard, except for crew rations. Pending a final decision by the U. S. Supreme Court, to which foreign and American steamship companies will appeal at once, Judge Hand issued an injunction against interference with such liquors as the laws of certain foreign countries require their vessels to carry as a part of the crew's rations. Of each steamship company affected by this injunction he required a bond of \$25,000, "conditional against the use of such stocks for any other purpose."
- Mrs. Marie ("Peggy") Beal was acquitted at Kansas City, Mo., of charge of murdering F. P. Anderson.
- Oct. 24—Britain bars clearance papers to U. S. bone-dry ships. British law requires gallon of brandy aboard for each 100 persons. Steamer President Adams was first to come under the law. She arrived at N. Y. with 5 "compulsory" gallons.
- Oct. 25—Secretary of the Treasury Mellon ordered the Daugherty ship liquor opinion set aside for the time being in so far as it applies to the transportation of intoxicants by foreign vessels within the three-mile limit. Sea stores and cargo liquor may be carried through American waters when sealed. Sea stores may be opened within the jurisdiction of this country, provided they are required for the use of officers or the crew.
- On the first ballot, at Hackensack, N. J., the jury of six men and six women trying George Cline, Charles Scullion and Alice Thornton for the murder, at Edgewater, of "Handsome Jack" Bergen, daredevil of the films, found them not guilty.
- The Dail Eilreann passed the new Irish Constitution.
- Oct. 26—Actual work of boring vehicular tunnel under the Hudson River between Manhattan and Jersey City was begun; 30 inches was bored.
- Navy aviators Lieut. E. L. Ericsson and R. F. Armstrong died in plane fall at Hampton Roads, Va.
- Japanese evacuated Vladivostok.

- Trustees of the Roosevelt Memorial Association, Inc., voted \$150,000 to the Woman's Roosevelt Memorial Association, to complete restoration of Theodore Roosevelt birthplace, No. 28 East 20th street, N. Y., and his uncle's home, next door, No. 26, where he played as a boy. They will be known as Roosevelt House.
- At Havre, Mont., Mrs. Margaret Carleton killed the Rev. Leonard J. Christler, "Bishop of All Outdoors" and director of St. Mark's Church, and shot herself through the heart.
- U. S. Judge Hand ruled, at N. Y., that ships are territory no matter upon what seas they sail or what country's shores they touch, and for them the high seas must be the "dry seas" and the law of the land the law also of the water.
- As a protest against a writ of attachment upon Mexican Government funds held in the offices of the consulate and financial institutions in New York, as security in an action brought by a trading company of N. Y. against the Mexican Government, the offices of the Mexican Consulate General at No. 7 Day Street were closed on telegraphic order from Manuel Teiles, Mexican Charge d'Affaires at Washington.
- Coal mine strike ended in Chicago, W. Va. district.
- Bomb damaged home, at Milago, of B. F. Sunny, Chairman Ill. Telephone Co., Kimbark ave., due to labor troubles.
- John A. Walter and Major J. J. Astor bought London Times from Northlife estate.
- Oct. 28.—U. S. agrees to send unofficial delegate to Turkish peace conference, at Lausanne.
- People's Revolutionary Party rules Vladivostok.
- A bandit army that looted and partly burned the town of Shantung, Chinese Province of Honan, carried off H. E. Ledgard of the China Inland Mission and other missionary workers, according to advices received from Hankow.
- Mrs. Ledgard and her child eluded the marauders and escaped.
- Oct. 29.—Attacking the theory of "the living wage" as a basis for determining wages of railroad workers, the public and railroad groups of the Railroad Labor Board, in an opinion made public, declared such a course, "if carried to its legitimate conclusion, would wreck every railroad in the U. S., and if extended to other industries would carry them into communistic ruin."
- Fire destroyed Taylor Opera House and other buildings at Danbury, Conn., loss \$200,000.
- King of Italy called on Benito Mussolini, leader of the Fascisti, to form Cabinet.
- W. W. Sterrett, accountant, died at Bryn Mawr, Pa., after eating poisoned cake sent by mail. His wife is recovering.
- Oct. 30.—Sec. of State Hughes, in address at Boston, reasserted purpose of Harding Administration to take no direct part in European post-war conferences. He said U. S. hopes to participate in World Court of Justice.

ALLIED TROOPS LEAVE SIBERIA.

- Following the withdrawal of all Allied troops from Siberia, the U. S. Govt. has followed the action of Great Britain, France, Italy and Japan in relinquishing control of the Chinese Eastern Railway.
- U. S. Army aviators Lieut. T. V. Hynes and Sergt. R. L. Owens died in plane collision, Honolulu.
- At Grand Forks, the State of North Dakota went into the elevator and flour milling business when its \$2,500,000 mill and elevator was formally opened.
- The murder by bandits near Aleppo, Syria, of James Lester Wright of Waukegan, Wis., a Near East Relief worker, was reported in a cable message.
- Oct. 31.—Mexico suspended all commercial relations with New York; Supreme Court, at Nyack, N. Y., quashed writ of attachment got by Oliver American Trading Co., against funds at Mexican Consulate, N. Y. City.
- At Buffalo, John F. Malone, former State Senator and former City Commissioner, was found guilty of larceny in connection with misappropriation of Park Department funds. Three members of the former Commissioner's staff and four business men previously had entered pleas of guilty. The total thefts were estimated at \$150,000. Sentences were deferred.

- N. Y. Mayor Hylan's Coal Inquiry Committee is holding hearings in the Pennsylvania anthracite regions.
- The Turkish Nationalist Government, at Angora, has passed sentences of death upon the Turkish signatories of the Treaty of Sevres and the members of the Cabinet of ex-Premier Damad Ferid Pasha, whom it accuses of being Anglophile.

NOVEMBER.

- Nov. 1.—Gen. F. Murgula, Mexican rebel leader, was executed at Tepehuantes.
- Mrs. Ruth Schermerhorn, of Des Moines, Iowa, who offered to marry a man who would provide \$5,000 so she could obtain skilled medical treatment for injury suffered when her first husband shot her, considered many offers before accepting that of George Rogers, Chicago banker and steel man. She interviewed men who answered her advertisement. Rogers bid \$500 down and payments.
- At Statesboro, Ga., Elliott Padrick, youthful former Methodist preacher, was found guilty of first degree murder for killing his mother-in-law, Mrs. Mamie Lou Dixon, last June. The verdict, with a recommendation for mercy, automatically carries a sentence of life imprisonment.
- The King James version of the Bible cannot be used in the public schools of California, it being properly the book of a certain religious sect, according to a ruling made public by the District Court of Appeals at San Francisco.
- Mexican Consulate at New York reopened, the court injunction against its funds having been lifted.
- Nov. 2.—Massachusetts Supreme Court decided that mental anguish is a ground for divorce.
- Finance conference opens at Berlin, Germany.
- Major J. J. Astor announced at Dover, England, intention of disposing of the American property (estimated at \$40,000,000, including vast New York realty holdings), he inherited from his father Viscount Astor, and transferring his wealth to England.
- At Cleveland, Ohio, Mrs. Mabel Champion was convicted of murder of Thos. A. O'Connell, and was sentenced to 20 years.
- Nov. 3.—At Philadelphia, cheers and sobbing greeted the acquittal of Mrs. Catherine Rosier, who shot and killed her husband and his stenographer in his office, on Walnut St., Jan. 21 last.
- Near Wittenberg, Mo., Jack Kennedy, veteran Missouri train robber, known as the "Quail Hunter," and Harvey Logan, a former railroad employee, were shot and killed by Post Office inspectors after they had robbed a mail car on a south-bound passenger train of the St. Louis and San Francisco. The stolen mail, about 100 registered letters, was recovered.
- 5 women died, 5 were hurt, in loft fire on E. 13th St., N. Y.
- The Angora National Assembly has dethroned Sultan and declared end to Ottoman Empire.
- Nov. 4.—Gen. Ernest O'Malley, Assistant Chief of Staff of Irish Republican forces, was slain by Free State forces, at Dublin.
- Nov. 5.—Ex-Kaiser William married, at Doorn, Holland, Princess Hermine of Reuss.
- Turkish Nationalist Government takes control of Constantinople.
- 135 Russian refugees were drowned when two steamers sank on way from Vladivostok to Japan.
- Irish irregulars burned the Central Post Office at Dublin.
- Sunday morning services at St. Thomas P. E. Church, N. Y., were dispersed by radio all over the U. S.
- The Stars and Stripes filled 5th Ave., N. Y., for blocks from curb to curb, in a parade that inaugurated a ceremony new to this country, though old to Europe, the massing of the colors. Nearly 250 banners, with the national flag predominating, were carried by 800 men and women representing the Army and Navy and practically every local veterans' organization and patriotic society from 64th St. to the Church of the Heavenly Rest, 5th Ave. and 45th St., where services were held.
- Third Internationale opened its fourth annual congress at Petrograd.
- Nov. 6.—77 coal diggers died in explosion in Reilly mine, near Spangler, Pa.
- 160,000 barrels of crude coal oil took fire near Eldorado, Kan.
- Dist. of Columbia Court of Appeals declared unconstitutional the Minimum Wage Law for Women.

Nov. 7.—Ex-Gov. A. E. Smith was elected over Gov. N. I. Miller in N. Y., and N. Y. City Health Commissioner R. S. Copeland defeated U. S. Senator Wm. Calder. The Democrats won generally throughout the country in the elections for Governors, U. S. Senators and U. S. Representatives.

Nov. 8.—Several ocean passenger steamships under U. S. flag are changing to Panama and other foreign flags, to avoid Prohibition laws.

Nov. 9.—At London, Sir William Horwood, Chief of Scotland Yard, was poisoned by candy sent him through the mails and is in a critical condition.

—The roundup of Mexican rebels who have menaced the life of President Obregon has snuffed out the life of Gen. Juan Carrasco, leader along the west coast and in the State of Sinaloa.

Nov. 10.—Erskine Childers, Damon De Valera's right hand man, was captured by National troops at the County Wicklow home of his cousin, Robert Barton, also a Republican leader.

—F. C. Edwards, defeated candidate for the Republican nomination for U. S. Senator, was fined \$1,000 and disfranchised for 3 years by the Common Pleas Court at Huntington, W. Va., on a charge of spending more money in his campaign than the law allowed. Sentence was suspended pending an appeal. Edwards's counsel told the court his client spent \$96,000.

—Secretary of War Weeks cancelled an invitation to Hon. John Fortescue, President Royal Historical Soc., of England, to address West Point cadets on Armistice Day. The reason given was that Fortescue, in a book published in 1911, made disparaging comments on the people of the U. S.

### EARTHQUAKE IN CHILE.

Nov. 11.—Over 900 died and many were hurt when earthquake along Pacific Coast partly destroyed Copiapo, Chile, and did much damage at Ovalle, Coquimbo, Valparaiso, Chanaul, and San Fernando. The shocks were accompanied by tidal waves at Copiapo, Valparaiso, Coquimbo, and Chanaul. At Coquimbo 500 houses were knocked down. Valparaiso was almost obliterated.

—Belgium entombed her unknown soldier. England and France joined in uncovering tablet in Compiègne Forest, where armistice was signed.

—Ex-President Wilson made first public address in 3 years when 7,000 admirers made a cheering Armistice Day call on him at his home, Washington. He spoke briefly for the League of Nations. President Harding put a wreath on the tomb of America's unknown soldier.

- 68-foot motor boat Speedjacks, owned by A. J. Gowan of Chicago, reached Miami, Fla., and ended \$5,000-made trip around globe, begun in September, 1921.
- A score or more of anti-water famine paraders were shot to death by police at Mexico City.

## DECEMBER.

- Dec. 1—Labor unions called general strike at Mexico City.
- Armed men guarded Clemenceau at home of Joseph Pulitzer, near St. Louis.
- Senators La Follette (Wis.) and Norris (Neb.) called secret Progressive conference at Washington, attended by 13 Senators and 21 Representatives, at which was discussed plan for legislative programme.
- 11 died when Canadian steamer Maplehurst sank in Lake Superior, at Portage Lake Canal break-water.
- Fire at Newbern, N. C., destroyed 225 dwellings, 16 lumber mills and 20 stores.
- At New York, John T. Dietrick, the building trades "code of practice lawyer," who was twice convicted on separate indictments charging conspiracy to violate the Donnelly Anti-Trust Act, was suspended for three years from the practice of law in the State, by the Appellate Division of the Supreme Court, acting on complaint of the Grievance Committee of the Bar Association.
- Stain body of Christina Hervish, 17, was found near Paterson plank road, Wallington, N. J.
- It is reported that the tug Little D., alleged runner, has sunk off Long Island, N. Y., with 17 aboard.
- Impeachment charges were made in Congress against United States Attorney Gen. Daugherty by Representative Keller (Rep.), of Minnesota.

## GREEK PRINCE BANISHED.

- Dec. 2—Revolutionary military tribunal at Athens, Greece, sentenced to perpetual banishment Prince Andrew, brother of former King Constantine, on the charge that it was by his order that 40,000 Greek troops were sent across the Great Salt Desert to their death at the hands of Turks in Asia Minor. He is also deprived of rank in the army. Counter revolutions have broken out in several places in Greece.
- The United States seaplane, S-C II., from New York, reached Paraty, Brazil.
- The U. S. grows faster than its ideas do, said Clemenceau, in address at St. Louis.
- At Peking, the wedding of Yuan Tung, the seventeen-year-old deposed Emperor of China, was celebrated with the pomp and ceremonial of imperial days. The former Emperor's bride was the Princess Kuo Chiu Shi.
- Hostility toward ratification of the Washington naval agreements in the Foreign Affairs Commission of the French Chamber of Deputies, placing Georges Mandel, reporter of the commission, on the minority side, was responsible for the resignation of Clemenceau, former Chief of Cabinet under Clemenceau, from the commission. While M. Mandel refuses to be quoted, it is known that the commission rejected his report recommending ratification by a vote of 26 to 16, with two members absent.
- Fire destroyed 162 dwellings at Terrebonne, Quebec; loss, \$800,000.
- Dec. 3—U. S. Atty. Gen. Daugherty filed with House Judiciary Committee reply to Rep. Keller's impeachment charges. He denied the accusations.
- Exiled Prince Andrew of Greece and wife left Phaleron on British warship.
- Ex-N. Y. Port Collector D. F. Malone made public report of his saving steamship Lusitania, when leaving N. Y., May 1, 1915, carried 5,400 cases of ammunition, but no guns, troops nor explosives.

—Switzerland defeated the proposed law providing for a levy on capital for governmental purposes by a vote of about seven to one. Not a single canton gave a majority for the capital tax. The total vote cast was 730,000 against the levy and 103,000 in the affirmative.

- Dec. 4—Fourth session of the 67th Congress began at Washington. Dyer Anti-Lynching Bill was withdrawn from Senate. House adopted resolution authorizing retirement of Associate Justice Pitney from U. S. Supreme Court.
- Clemenceau spoke at Baltimore; then went to Washington.
- British House of Lords passed Commons bill establishing Irish Free State constitution.
- Permanent building trades workers' agreement was made at N. Y. to avert strikes in future.
- Four students died in fire at Colby College dormitory, Waterville, Me.
- Indictment against Madelynn Obenchain, charging murder of J. B. Kennedy, was dismissed at Los Angeles, and she was released from prison.
- Dec. 5—U. S. Senate Committee on Agriculture made report recommending a constitutional amendment which would put inauguration day in January instead of March, wipe out the Electoral College, and have Congress convene in the January following the election.
- Mrs. Clara Phillips, serving life sentence for killing Mrs. Alberta Meadows, escaped from prison at Los Angeles.
- Fire destroyed Sulphitan (R. C.) church and seminary, Oka, Quebec.
- At London, Gerard Lee Bevan, former Chairman of the City Equitable Fire Insurance Company, was sentenced in the Old Bailey to seven years' penal servitude. Bevan was found guilty on nine counts of an indictment for fraud and misfeasance.
- At Lausanne, Ismet Pasha, chief Turkish delegate at the Near Eastern Conference, came out against the proposed forced migration of Greeks to Greece and Turks to Turkey. He denied Dr. Fridtjof Nansen's figures about the number of refugees who are in a serious plight. Dr. Nansen was the League of Nations Commissioner in Anatolia investigating the situation. Ismet declared the Vatican note about the dangers menacing Christians in Turkey is not based on fact, and was a Greek move against Turkey.
- King George, by signing Irish Constitution Act, put Free State into existence at midnight, with Tim Healy as Governor-General.
- John Carrington was acquitted, at Danville, Ill., of charge of murdering his sister-in-law, Mrs. Lydia Carrington, Grape Creek, Aug. 2, 1903.
- Clemenceau called on President Harding.
- Benny Levisky, clothing worker, was assassinated in labor feud at N. Y.
- Dec. 6—U. S. Ambassador Child told Lausanne Conference this country demands Straits of Dardanelles be kept open for all ships, including war vessels.
- Clemenceau calls on Wilson.
- Clemenceau called on Woodrow Wilson, at Washington.
- Tim Healy was inaugurated at Dublin as Governor General of Irish Free State; the Dail met and re-elected Prof. Hayes Chairman.
- Six were killed when a Fokker scout plane and a Martin bomber collided 250 feet in the air over Langley Field, Va. The dead are: Major G. L. Gearhart, Iowa; Capt. B. A. Doyce, San Francisco; Sergt. A. T. Marsick, Cleveland; Private Tom Jordan, Deepstich, Pa.; Private Felix Blumka, Chicago; Private Leon Rolan, Philadelphia.
- Police killed bank robber at Danville, Cal., and recovered \$9,000.
- U. S. steamer George Washington and British steamer Clyde Rock collided off Dover, England.
- Dec. 7—Deputy Sean Hales, and Deputy Patrick O'Malley, Vice-Chairman of the Parliament Assembly, were assassinated at Dublin.
- Clemenceau lunched at the White House.
- With the approval of President Harding, Secretary of the Navy Denby announced a general order putting into effect a plan perfecting the organization of the navy afloat, with Admiral Hilary P. Jones as Commander in Chief of both the Atlantic and Pacific branches at all times.
- Brooklyn's first Probation Court formally opened.
- Twelve to fourteen years have been added to the average human life in the last half century by the progress in medical science, John M. Dodson, Dean of Bush Medical College, said in an address before the University of Chicago forum. "Infant mortality," he said, "had been cut in half; tuberculosis largely robbed of its terrors, and epidemics brought under control, but 600,000 still die in the United States annually from preventable diseases."

Dec. 7.—At Burlington, Vt., a verdict for \$465,000 was awarded Mrs. Dorrit Van Deusen Stevens Woodhouse in her \$1,000,000 alienation suit against Mr. and Mrs. Lorenzo E. Woodhouse, parents of her husband, C. Douglass Woodhouse.

Dec. 8.—President Harding, in joint message read by him to Congress, asked law to forbid strikes and demanded a "dry" Nation and also railway consolidation.

—A jury in New Brunswick, N. J., convicted Raymond Schneider of perjury in falsely accusing his erstwhile chum, Clifford Hayes, of the murder of the Rev. Edward Wheeler Hall and Mrs. Elenor Mills, choir singer.

—The business district of Astoria, the oldest city in Oregon, was destroyed by a fire which swept over thirty blocks. Hundreds of persons are homeless and property loss is estimated at \$15,000,000. For ten hours the fire held sway. Shortly after noon dynamite stopped its progress.

#### RORY O'CONNOR EXECUTED.

—At Dublin, four Republican leaders were executed in the rear of Mountjoy Prison without trial and, according to the official report, "as reprisal for the assassination yesterday of Deputy Sean Hales and as a solemn warning to persons associated with those who are engaged in an assassination conspiracy against the Irish people's representatives." Rory O'Connor, Liam Mellows, the two leaders of the Four Courts siege last summer; Joseph McKelvey and Richard Barrett were the victims of these first reprisals. Protests from various Labor members of the new Parliament and from many citizens of Dublin already have been heard. The Republicans were stunned only for a moment by the executions. In prompt counter-reprisal they entered Mercer's Hospital and killed a Free State soldier who was in bed there. The men escaped.

—Patrick Dealy, highway robber, escaped from Sing Sing prison.

Dec. 9.—Conference on Reparations opened at London. Premier Bonar Law presided. The Allies agreed on German debt moratorium.

—N. Y. State Atty. Gen. Newton ruled that radio marriages are illegal, under the Domestic Relations Law, because the parties are not actually "in the presence" of the person performing the ceremony. Mayor Hylan of N. Y., in speech to Cook County Real Estate Board, at Chicago, boomed third party movement.

Dec. 10.—Japan restored to China the Kiaochow territory formerly German.

—Irish irregulars bombed homes of Free State officials at Dublin.

—In defiance of Mayor Hylan's order to Police Commissioner Enright to run the Ku Klux Klan out of the city, a white robed and hooded Klansman spoke from the pulpit of the Baptist Church, Gates and Washington Aves., Brooklyn.

—Dave Treadway, member of a posse of Federal fastnesses of Menifee County, Ky., in pursuit of a band of moonshiners who killed Federal Prohibition Agent Robert E. Duff, Dec. 9, was shot and killed, supposedly by a member of the outlaw band.

—King George appointed Duke of Abercorn the Governor General of North Ireland.

The Nobel Peace Prize was presented, at Christiansia, to Dr. Fridtjof Nansen, the explorer, for his relief work in Russia and Asia Minor.

—Gen. Leonard Wood resigned as provost of the University of Pennsylvania.

Dec. 11.—Allied Conference on Reparations, at London, adjourned to Jan. 2, 1923, at Paris. It was as impossible for the Tory Prime Minister Bonar Law to commit his Government to invasion of the Ruhr, demanded by Premier Poincare as the price of a German moratorium, as it was for his predecessor to do so.

—Clemenceau talked, at Chicago, to American Farm Bureau Federation Convention.

—The World (Labor) Congress Against War opened at The Hague.

—At Oxford, Miss., a verdict for the defendant was returned in the \$100,000 damage suit of Miss Frances Birkhead, stenographer, against Gov. Lee M. Russell, based on charges of seduction and other allegations.

—At London, England, Frederick Bywaters and Mrs. Edith Thompson were sentenced to death for murder of the woman's husband.

—The Irish Free State Parliament was completed by the swearing in of the Senate. Only 45 of the 60 appeared for the ceremony in the Parliament Chamber of Leinster House. Some of the absentees are said to be hesitant about taking the oath.

—President Harding has approved the dismissal of Midshipmen Bruce H. Robinson and Stuart H. Hawkins, who were tried by general court martial at Annapolis recently and found guilty of hazing.

—At Warsaw rioting, in which there was loss of life and injury to many persons, marked the ceremony of the swearing in of Gabriel Narutowicz as President of Poland.

#### THE POPE CREATES EIGHT CARDINALS.

—The Pope, at secret consistory, created eight new Cardinals. They were: Monsignor Achille Locatelli, Nunzio in Lisbon; Monsignor Giovanni Bonzano, Apostolic Delegate to Washington; Monsignor Henriquez Rey y Casanova, Archbishop of Toledo; Monsignor Alexis Charost, Archbishop of Rennes; Monsignor Eugenio Tosi, Archbishop of Milan; Monsignor Arthur Stanislas Touchet, Archbishop of Orleans; Monsignor Giuseppe Mori, Secretary of the Congregation Council of Jesuits, and the Rev. Father Franz Ehrle, formerly the Vatican Librarian.

—The 1922 United States cotton crop is estimated by Dept. of Agriculture at 4,767,262,000 pounds (9,964,000 bales); value, \$1,134,608,356, not including lint and cotton seed.

#### NEW GERMAN CABINET.

The new German Cabinet was constituted, on Nov. 21, 1922, as follows:

Chancellor, Wilhelm Cuno.

Vice Chancellor and Minister of Justice, Dr. Carl Heine (People's Party).

Minister of Foreign Affairs, Herr von Rosenberg.

Minister of the Interior, Rudolph Oeser (Democrat).

Minister of Finance, Andreas Hermes (Centrist).

Minister of Economics, Johannes Becker (People's Party).

Minister of the Treasury, Dr. Heinrich Albert.

Minister of Transportation, Gen. Wilhelm Groener (Socialist-Democrat).

Minister of Posts and Telegraphs, Herr Stiegl.

Minister of Food, Herman Mueller (Socialist).

Minister of Defense, Dr. O. Gessler (Democrat).

Minister of Labor, Dr. Heinrich Brauns (Centrist).

#### FIRE LOSSES IN THE UNITED STATES.

(Estimated by the Journal of Commerce.)

| YEAR<br>(Calendar). | Loss.        | YEAR<br>(Calendar). | Loss.         | YEAR<br>(Calendar). | Loss.         | YEAR<br>(Calendar). | Loss.         |
|---------------------|--------------|---------------------|---------------|---------------------|---------------|---------------------|---------------|
| 1875.....           | \$78,102,285 | 1887.....           | \$120,283,055 | 1899.....           | \$153,597,830 | 1911.....           | \$217,004,575 |

| 1881.....           | 81,280,900   | 1893.....           | 167,544,370   | 1905.....           | 165,221,650   | 1917.....           | 250,753,640   |
| 1882.....           | 84,505,024   | 1894.....           | 140,006,484   | 1906.....           | 518,611,800   | 1918.....           | 290,959,885   |
| 1883.....           | 100,149,228  | 1895.....           | 142,110,233   | 1907.....           | 215,084,709   | 1919.....           | 269,000,775   |
| 1884.....           | 110,008,611  | 1896.....           | 118,737,420   | 1908.....           | 217,885,859   | 1920.....           | 330,853,925   |
| 1885.....           | 102,818,796  | 1897.....           | 116,354,575   | 1909.....           | 188,705,150   | 1921.....           | 332,654,950   |
| 1886.....           | 104,924,750  | 1898.....           | 130,593,905   | 1910.....           | 214,003,300   |                     |               |

For fire losses in New York City see index. The 1906 figures in above table include the San Francisco conflagration-earthquake.

## DEATH ROLL OF 1922.

- Abarbanell, J. R. (69), editor, N. Y., Nov. 9.  
 Abbott, Rev. Lyman (88), N. Y., Oct. 22.  
 Abbott, Wm. T., Chicago banker, Washington, D. C., May 29.  
 Adams, ex-Gov. Alva of Colo. (72), lawyer, Battle Creek, Mich., Nov. 1.  
 Adams, Rear Admiral Jas. D. (73), Washington, D. C., Feb. 19.  
 Albany, Duchess of (60), Innsbruck, Sept. 1.  
 Aldridge, Geo. W. (68), port collector, N. Y., June 13.  
 Allen, Annie T. (54), Amer. missionary relief worker, in Turkey, Feb.  
 Andrea, Fern (Andrews), film actress, in airplane fall, Germany, July 4.  
 Anson, Adrian C. "Pop" (70), ex-baseball player, Chicago, April 14.  
 Archibald, Mayor Alex (53), Newark, N. J., Feb. 11.  
 Armstrong, Chas. M. (55), Pres. Bklyn Press Club, Brooklyn, May 8.  
 Arnold, Francis R. (88), perfumery, father of missing Dorothy Arnold, N. Y., Apr. 1.  
 Auchterlonie, H. B., golfer, Balt., July 8.  
 Auger, Geo. (39), 8 ft. 4 in. tall, N. Y., Nov. 30.  
 Austrian ex-Emperor (Chas. Hapsburg), (35), Funchal, Madeira, April 1.  
 Ayres, Rear Admiral Jos. G. (92), Montclair, N. J., March 21.  
 Babcock, Dr. Jas. W. (66), pellagra expert, Columbia, S. C., March 3.  
 Bacardi, Emile (70), rum distiller, Santiago, Cuba, Aug. 28.  
 Bacon, Frank (58), actor, Chicago, Nov. 19.  
 Bajer, Dr. M. F., noted Peace Prize winner, Copenhagen, Jan. 23.  
 Ballinger, ex-Sec. of the Interior Richard A. (64), lawyer, Seattle, Wash., June 6.  
 Bancroft, Gen. Wm. A. (87), lawyer, Cambridge, Mass., March 11.  
 Bangs, John K. (60), author, Atlantic City, Jan. 21.  
 Barbour, Brig. Gen. L. A. (76), banker, Hartford, Conn., Nov. 6.  
 Barham, Guy B. (59), Los Angeles newspaper publisher, London, June 9.  
 Baring, Mrs. Maude Lorillard (ex-Mrs. T. Suffern Tallor) (47), London, April 2.  
 Barnes, Paul (Geo. F. Feger) (52), song writer, N. Y., May 3.  
 Barrett, E. W. (56), editor, Birmingham, Ala., July 9.  
 Barto, Rudolph S., Pres. U. S. Feature Service Co., N. Y., Feb. 1.  
 Barton, Rear Admiral J. K. (69), Philadelphia, Dec. 23, 1921.  
 Baskerville, Dr. Chas. (51), chemist, N. Y., Jan. 28.  
 Bataille, Henry (50), dramatist, Paris, March 2.  
 Bates, Prof. Clifton W. of Brooklyn, Paris, March 3.  
 Baumgarten, Emile (56), art dealer, N. Y., Feb. 4.  
 Bayard, L. P. (46), golfer, Short Hills, N. J., July 3.  
 Bayliss, Raymond W. (30), N. Y. broker, Rye, N. Y., Feb. 9.  
 Beach, Mrs. Emily (75), horsewoman, N. Y., Dec. 3.  
 Beach, Capt. Warren C., N. Y., Jan. 14.  
 Beatty, P. E. Bishop Coats, Troy (56), Nashville, Tenn., April 23.  
 Beaumont, Admiral Sir Lewis (75), England, June 19.  
 Beck, Lieut. Col. Paul W. (45), aviator, Oklahoma City, April 4.  
 Belcher, Rev. F. J., Supt. Five Points Mission, N. Y., June 27.  
 Bell, Dr. Alex. Graham (75), telephone inventor, Paddeck, Nova Scotia, Aug. 2.  
 Benedict XV. Pope (1854), (Giacomo della Chiesa), Rome, Jan. 22.  
 Benjamin, Park (74), lawyer, editor, Stamford, Conn., Aug. 21.  
 Benjamin, Mrs. Park (56), Goshen, N. Y., Sept. 11.  
 Bennett, Sam'l J., journalist, Tucson, Ariz., Dec. 25, 1921.  
 Bense, John A. (50), civil engineer, Bernardsville, N. J., June 19.  
 Bensman, Matteo (45), composer, N. Y., April 8.  
 Bergen, Teunis J. (48), realty, Brooklyn, Feb. 27.  
 Borglum, Solon H. (54), sculptor, Stamford, Conn., Jan. 30.  
 Berolzheimer, Emil (60), pencil mnfr., Tarrytown, N. Y., May 25.  
 Bertillon, Dr. Jacques (79), finger print originator, Paris, July 7.  
 Beseler, Gen. Hans von (72), Potsdam, Ger., Dec. 22, 1921.  
 Bjerregaard, Carl H. A. (70), librarian, author, N. Y., Jan. 28.  
 Blackwood, Brig. Gen. Wm. R. (84), Philadelphia, April 26.  
 Blair, Eugene (50), actress, Chicago, May 13.  
 Blake, Henry T. (94), lawyer, New Haven, Conn., April 7.  
 Blandy, Harold F., U. S. relief worker, Ufa, Russia, May 17.
